STATE				
Education and Training Certification Program (Note - This is not a permit, but a requirement of the State of Georgia for all land disturbing activities)	As part of House Bill 285, there are new education and training certification requirements included in the 2003 amendments to the Georgia Erosion & Sedimentation Act (Act). These new certification requirements state that all persons involved in land development design review, permitting, construction, monitoring or inspection or any land disturbing activity shall meet the education and training certification requirements, dependent on their level of involvement with the process, as developed by the commission in consultation with the division and the Stakeholder Advisory Board created pursuant to Code section 12-7-20.	Owners and Contractor	House Bill 285 Code section 12-7-20. Authority O.C.G.A. §§ 2-6-27(7.1) and 12-7-19.	The Education and Training Certification Program is administered by the E&SC Education and Certification Program of the Georgia Soil and Water Conservation Commission, telephone (706) 542-1840. For additional information, access the Commission's website: www.gaswcc.org ; click on Education/Certification.

It addresses impacts of the facility, not impacts from construction of the facility.	Owners with support from Contractor	FCAA OCGA R.12-9-1 GA R. 391-3-1	Georgia Air Protection Branch 4244 International Parkway, Suite 120 Atlanta, GA 30354 Phone: 404.363.7000

Permit or Regulatory Requirement	Purpose/Permitted Activity	Submittal Resp.	Regulatory Authority	Agency Contact
Section 401 Water Quality Certification	The GA EPD administers the Water Quality Certification program pursuant to Section 401 of the CWA. GA issues certification for any activity which requires a Federal permit and may result in a discharge to state waters. This certification must state that applicable effluent limits and water quality standards will not be violated. All activities requiring a Federal 404 permit result in a discharge to waters or wetlands, so GA EPD must take certification action on all 404 permit applications. During review of applications for WQC, the Dept looks at whether or not there are feasible alternatives to the activity, if the activity is water dependent, and the intended purpose of the activity. Certification is denied if the activity will adversely affect existing or designated uses. The Federal permit cannot be issued if certification is denied. Any applicant for a Federal permit or license for an activity which may result in a discharge to navigable waters must receive certification from the GA EPD that applicable State water quality standards will not be violated.	Owners	CWA Section 401, OCGA R.12-5-20, GA 391-3-6	GA EPD
Public Water Supply System	Needed to construct/operate a public, non-transient and/or transient, non-community water supply system.
