# JACKSON EMC RATES UPDATED JANUARY 1, 2019

# RATE SCHEDULES AND RIDERS FOR ELECTRIC SERVICE

A-19	
AEA-19	Residential Energy Advantage Service
AM-19	Residential Multi-Family Service
APEV-19	Residential Plug-In Electric Vehicle Service
APHF-19	Residential Poultry and Farm Service
ATOU-19	Residential Time-of-Use Service
FC	Facilities Charge Rider
GP	Green Power Rider – Residential
GPCI	Green Power Rider – Commercial/Industrial
GS-19	
GSAE-19	General Service All-Electric
GSTOU-19	General Service Time-of-Use
LM	Load Management Adjustment Rider
LMS-19	Load Management Service
MBS-19	Market Based Service
NM	Net Metering Rider
P-19	Wholesale Power Cost Adjustment
QF	Qualifying Facilities Service
S-19	Outdoor Lighting Service
SLMS-19	School Load Management Service
TS-19	

#### SCHEDULE A-19

#### RESIDENTIAL SERVICE

### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

#### APPLICABILITY:

For all domestic uses of a residential service when supplied through one meter. A residential service is defined in the Cooperative's Service Rules and Regulations. Available to all existing church facilities and any church facility with a transformer size of less than 100 kVA connected after January 1, 2016.

## MONTHLY RATE:

Winter Usage Months		Summer Usage Months				
	Service Charge		\$22.00 per month	Service Charge		\$22.00 per month
	First 650 kWh	@	8.81¢ per kWh	First 650 kWh	@	8.81¢ per kWh
	Next 350 kWh	@	8.16¢ per kWh	Next 350 kWh	@	11.06¢ per kWh
	Over 1000 kWh	@	8.06¢ per kWh	Over 1000 kWh	@	11.66 ¢ per kWh

#### MINIMUM MONTHLY CHARGE:

The minimum monthly charge is the Service Charge.

#### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rates shall be increased or decreased subject to the provision of the Cooperative's wholesale cost adjustment Schedule P.

#### SUMMER/WINTER BILLING MONTHS:

Winter: October - April Summer: May - September

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

## **BUDGET BILLING:**

The customer may elect, with Cooperative approval, the option of being rendered a budget bill, which has the effect of leveling the customer's monthly bill amount.

## LOAD MANAGEMENT ADJUSTMENT:

All customers participating in the Cooperative's Load Management Program are eligible to receive a credit on their bill. The amount of the monthly credit will be determined under the provisions of the Cooperative's Load Management Adjustment Rider (LM).

## SENIOR CITIZEN – LOW INCOME ASSISTANCE

Qualifying customers certified by the Cooperative will be eligible for a \$12.50 credit, to be applied to the service charge or minimum monthly charge.

To qualify, the customer must be 62 years of age or older, with total household income at or below 100% of the current year's Federal Poverty Guidelines (FPG) annual income level for a family size of two (2), provided that the electric service is in the customer's principal place of residence, is individually metered, and in said customer's name.

The current year's Federal Poverty Guidelines (FPG) annual income levels are provided by the Georgia Department of Community Health and can be found at dch.georgia.gov/federal-poverty-guidelines-0.

## CONTRACT PERIOD:

## SCHEDULE AEA-19

#### RESIDENTIAL ENERGY ADVANTAGE SERVICE

#### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

At the customer's request, for all domestic uses of a residential service meeting the Cooperative's incentive residential programs (Right Choice, Comfort Home and Good Cents) qualifications when supplied through one meter. A residential service is defined in the Cooperative's Service Rules and Regulations. Qualifications for these programs are set forth in the Cooperative's current program specifications.

SUMMER USAGE MONTHS

#### MONTHLY RATE:

#### WINTER USAGE MONTHS

Service Charge		\$22.00 per Month	Service Charge		\$22.00 per Month
First 650 kWh	@	8.37¢ per kWh	First 650 kWh	@	8.37¢ per kWh
Next 350 kWh	@	7.33¢ per kWh	Next 350 kWh	@	10.11¢ per kWh
Over 1000 kWh	@	7.63¢ per kWh	Over 1000 kWh	@	11.11¢ per kWh

#### MINIMUM MONTHLY CHARGE:

The minimum monthly charge is the Service Charge.

#### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rates shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

#### SUMMER/WINTER BILLING MONTHS:

Winter: October - April Summer: May - September

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

#### **BUDGET BILLING:**

The customer may elect, with Cooperative approval, the option of being rendered a budget bill, which has the effect of leveling the customer's monthly bill amount.

## LOAD MANAGEMENT ADJUSTMENT:

All customers participating in the Cooperative's Load Management Program are eligible to receive a credit on their bill. The amount of the monthly credit will be determined under the provisions of the Cooperative's Load Management Adjustment Rider (LM).

## SENIOR CITIZEN - LOW INCOME ASSISTANCE:

Qualifying customers certified by the Cooperative will be eligible for a \$12.50 credit, to be applied to the service charge or minimum monthly charge.

To qualify, the customer must be 62 years of age or older, with total household income at or below 100% of the current year's Federal Poverty Guidelines (FPG) annual income level for a family size of two (2), provided that the electric service is in the customer's principal place of residence, is individually metered, and in said customer's name.

The current year's Federal Poverty Guidelines (FPG) annual income levels are provided by the Georgia Department of Community Health and can be found at dch.georgia.gov/federal-poverty-guidelines-0.

## CONTRACT PERIOD:

## SCHEDULE AM-19

## RESIDENTIAL MULTI-FAMILY SERVICE

### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

For all domestic uses of a multi-family residential service when supplied through one meter. A multi-family residential service is defined as apartment, duplex and condominium. Multi-family does not include single family, detached structures or manufactured homes.

#### MONTHLY RATE:

## WINTER USAGE MONTHS

## SUMMER USAGE MONTHS

Service Charge		\$22.00 per Month	Service Charge		\$22.00 per Month
First 650 kWh	@	8.49¢ per kWh	First 650 kWh	@	8.49¢ per kWh
Next 350 kWh	@	7.84¢ per kWh	Next 350 kWh	@	10.74¢ per kWh
Over 1000 kWh	@	7.74¢ per kWh	Over 1000 kWh	@	11.34¢ per kWh

## MINIMUM MONTHLY CHARGE:

The minimum monthly charge is the Service Charge.

## WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rates shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

## SUMMER/WINTER BILLING MONTHS:

Winter: October - April Summer: May - September

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

#### **BUDGET BILLING:**

The customer may elect, with Cooperative approval, the option of being rendered a budget bill, which has the effect of leveling the customer's monthly bill amount.

## LOAD MANAGEMENT ADJUSTMENT:

All customers participating in the Cooperative's Load Management Program are eligible to receive a credit on their bill. The amount of the monthly credit will be determined under the provisions of the Cooperative's Load Management Adjustment Rider (LM).

## SENIOR CITIZEN - LOW INCOME ASSISTANCE:

Qualifying customers certified by the Cooperative will be eligible for a \$12.50 credit, to be applied to the service charge or minimum monthly charge.

To qualify, the customer must be 62 years of age or older, with total household income at or below 100% of the current year's Federal Poverty Guidelines (FPG) annual income level for a family size of two (2), provided that the electric service is in the customer's principal place of residence, is individually metered, and in said customer's name.

The current year's Federal Poverty Guidelines (FPG) annual income levels are provided by the Georgia Department of Community Health and can be found at dch.georgia.gov/federal-poverty-guidelines-0.

## CONTRACT PERIOD:

## SCHEDULE APEV-19

## RESIDENTIAL PLUG-IN ELECTRIC VEHICLE SERVICE

### AVAILABILITY:

All qualified customers in the area served by the Cooperative. Availability will be determined on a case-bycase basis at the sole discretion of the Cooperative.

#### APPLICABILITY:

Service is applicable only to single-family dwelling units owned and occupied by the customer for permanent year-round service.

Available to qualified customers upon request. Qualifying customers shall meet the description defined below.

- a. Provide the Cooperative with documentation verifying possession of qualified Plug-in electric vehicles (PEV). A qualified PEV is defined as manufactured primarily for use on public streets, roads and highways. Electric scooters, electric bicycles, golf carts and motorized electric wheelchairs do not qualify.
- b. If charging station installed, it shall be single-phase and shall not to exceed 7.8 kW.
- c. If charging station installed, it shall be on a dedicated circuit breaker and follow all applicable codes and regulations.

Service shall be provided to the customer under this rate schedule for a minimum of twelve consecutive months. This schedule is experimental and may be modified or discontinued by the Cooperative at any time after giving the customer sixty days written notice.

### MONTHLY RATE:

Service Charge		\$25.00 per month
All On-Peak kWh	@	34.35¢ per kWh
All Off-Peak kWh	@	7.56¢ per kWh
All Super Off-Peak kWh	@	6.34¢ per kWh

### MINIMUM MONTHLY CHARGE:

The minimum monthly charge is the Service Charge.

### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rates shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

#### CONTRIBUTION IN AID TO CONSTRUCTION:

The Cooperative may need to furnish facilities in addition to those facilities currently provided. The customer will be responsible for an upfront non-refundable contribution in aid to construction. The contribution in aid to construction is in addition to any charges billed under the rate schedule applicable to the customer. The contribution in aid to construction will not apply to fulfill any minimum charges specified in the applicable rate.

## TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

## DETERMINATION OF ON-PEAK, OFF-PEAK ENERGY AND SUPER OFF-PEAK ENERGY:

The On-Peak Energy shall be all kilowatt-hours used by the customer beginning at 3:00 p.m. and ending at 8:00 p.m., Monday through Friday, from June 1 through September 15, excluding the observed Independence Day and Labor Day holidays.

The Off-Peak Energy shall be all kilowatt-hours used by the customer beginning at 7:00 a.m. and ending at 3:00 p.m. and beginning at 8:00 p.m. and ending at 11:00 p.m., Monday through Friday, from June 1 through September 15. Off-Peak Energy will also include all kilowatt-hours used by the customer beginning at 7:00 a.m. and ending at 11:00 p.m. during weekends, holidays and from September 16 through May 31.

The Super Off-Peak Energy shall be all kilowatt-hours used by the customer beginning at 11:00 p.m. and ending at 7:00 a.m., Monday through Sunday, for all calendar months.

## **BUDGET BILLING:**

The customer may elect, with Cooperative approval, the option of being rendered a budget bill, which has the effect of leveling the customer's monthly bill amount.

#### LOAD MANAGEMENT ADJUSTMENT:

All customers participating in the Cooperative's Load Management Program are eligible to receive a credit on their bill. The amount of the monthly credit will be determined under the provisions of the Cooperative's Load Management Adjustment Rider (LM).

#### SENIOR CITIZEN - LOW INCOME ASSISTANCE:

Qualifying customers certified by the Cooperative will be eligible for a \$12.50 credit, to be applied to the service charge or minimum monthly charge.

To qualify, the customer must be 62 years of age or older, with total household income at or below 100% of the current year's Federal Poverty Guidelines (FPG) annual income level for a family size of two (2), provided that the electric service is in the customer's principal place of residence, is individually metered, and in said customer's name.

The current year's Federal Poverty Guidelines (FPG) annual income levels are provided by the Georgia Department of Community Health and can be found at dch.georgia.gov/federal-poverty-guidelines-0.

#### CONTRACT PERIOD:

## SCHEDULE APHF-19

## RESIDENTIAL POULTRY AND FARM SERVICE

#### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

#### APPLICABILITY:

Single phase service provided at one delivery point through a single meter, to individually owned poultry houses and farm facilities. This schedule is not applicable to hatchery, poultry processing operations or any entities selling goods or services to the ultimate customer. Interpretations pertaining to applicability will be at the sole discretion of the Cooperative. No service rendered hereunder may be resold, nor transmitted to other premises, either directly or indirectly, without the express consent of the Cooperative.

#### MONTHLY RATE:

Service Charge		\$22.00 per month
First 1,000 kWh	@	10.13 ¢ per kWh
Over 1,000 kWh	@	9.13 ¢ per kWh

#### MINIMUM MONTHLY CHARGE:

The minimum monthly charge is the Service Charge.

#### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rates shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

## TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

### SENIOR CITIZEN - LOW INCOME ASSISTANCE:

Qualifying customers certified by the Cooperative will be eligible for a \$12.50 credit, to be applied to the service charge or minimum monthly charge.

To qualify, the customer must be 62 years of age or older, with total household income at or below 100% of the current year's Federal Poverty Guidelines (FPG) annual income level for a family size of two (2), provided that the electric service is in the customer's principal place of residence, is individually metered, and in said customer's name.

The current year's Federal Poverty Guidelines (FPG) annual income levels are provided by the Georgia Department of Community Health and can be found at dch.georgia.gov/federal-poverty-guidelines-0.

## CONTRACT PERIOD:

## SCHEDULE ATOU-19

## RESIDENTIAL TIME-OF-USE SERVICE

## AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

Service is applicable only to single-family dwelling units owned and occupied by the customer for permanent year around service.

Service shall be provided to the customer under this rate schedule for a minimum of twelve consecutive months, beginning June 1st of each year.

#### MONTHLY RATE:

Service Charge		\$25.00 per month
All On-Peak kWh	@	34.35 ¢ per kWh
All Off-Peak kWh	@	7.35 ¢ per kWh

#### MINIMUM MONTHLY CHARGE:

The minimum monthly charge is the Service Charge.

### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rates shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

## DETERMINATION OF ON-PEAK AND OFF-PEAK ENERGY:

The On-Peak Energy shall be all kilowatt-hours used by the customer during the on-peak hours beginning at 3:00 p.m. and ending at 8:00 p.m., during Monday through Friday, from June 1 through September 15, excluding the observed Independence Day and Labor Day holidays.

The Off-Peak Energy shall be all kilowatt-hours used by the customer during all hours other than those described above.

## BUDGET BILLING:

The customer may elect, with Cooperative approval, the option of being rendered a budget bill, which has the effect of leveling the customer's monthly bill amount.

#### LOAD MANAGEMENT ADJUSTMENT:

All customers participating in the Cooperative's Load Management Program are eligible to receive a credit on their bill. The amount of the monthly credit will be determined under the provisions of the Cooperative's Load Management Adjustment Rider (LM).

#### SENIOR CITIZEN - LOW INCOME ASSISTANCE:

Qualifying customers certified by the Cooperative will be eligible for a \$12.50 credit, to be applied to the service charge or minimum monthly charge.

To qualify, the customer must be 62 years of age or older, with total household income at or below 100% of the current year's Federal Poverty Guidelines (FPG) annual income level for a family size of two (2), provided that the electric service is in the customer's principal place of residence, is individually metered, and in said customer's name.

The current year's Federal Poverty Guidelines (FPG) annual income levels are provided by the Georgia Department of Community Health and can be found at dch.georgia.gov/federal-poverty-guidelines-0.

#### CONTRACT PERIOD:

## RIDER FC

## FACILITIES CHARGE RIDER

#### APPLICABILITY:

Applicable in connection with service for any customer served under any of the Cooperative's Rate Schedules.

#### FACILITIES CHARGE:

The Cooperative may furnish facilities in addition to those facilities provided for in the line extension policy when the customer agrees to pay a monthly Facilities Charge for the contract period specified in the Service Agreement between the Cooperative and the customer. The monthly facilities charge will recover the Cooperative's estimate for the contract period of the operation and maintenance and capital costs including cost of removal for the facilities.

The Facilities Charge is in addition to any charges billed under the rate schedule applicable to the customer and the Facilities Charge will not apply to fulfill any minimum charges specified in the applicable rate.

## RIDER GP

### **GREEN POWER RIDER - RESIDENTIAL**

#### APPLICABILITY:

This rider is applicable in connection with service for customers served under the Cooperative's residential rate schedules.

#### **GREEN POWER ADDER:**

Green Power will be sold in blocks of 150 kWh per account. The cost will be \$4.50 per block per month charged to the customer's bill for each block purchased and is in addition to all the costs as calculated in the tariffs referenced above.

## **ELIGIBILITY:**

A limited amount of Green Power is available for retail distribution. Customers will be added on a first come – first serve basis. The beginning and ending of the signup period and the number of blocks that an individual customer will be allowed to purchase is at the sole discretion of the Cooperative.

## TERMS OF PAYMENT:

If the account is not paid by the time it is billed the following month, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

## RIDER GPCI

## GREEN POWER RIDER - COMMERCIAL/INDUSTRIAL

#### APPLICABILITY:

This rider is applicable in connection with service for customers served under the Cooperative's commercial rate schedules.

#### **GREEN POWER ADDER:**

Customers may purchase Green Power in one of two methods. For either method, the cost of Green Power is in addition to all costs as calculated in the tariffs referenced above.

**Fixed size blocks** – Each block will be 1,000 kWh per month per account sold at a cost of \$25.00 per month charged to the customer's bill for each block purchased.

**Percentage use** – Customers nominate the percentage of their monthly energy use to be provided by Green Power. This percentage will be used to calculate the quantity of Green Power purchased each month based on the total energy usage for that month per account. For Green Power purchases of up to 40,000 kWh/month, the customer will be charged a premium of \$0.025/kWh of Green Power purchased.

Purchase in excess of 40,000 kWh/month will be sold at rate determined on a case-by-case basis at the sole discretion of the Cooperative.

Customers may select the quantity of blocks to purchase or the percentage of Green Power to purchase on an annual basis for a one-year, self-renewing term.

## ELIGIBILITY:

A limited amount of Green Power is available for retail distribution. Customers will be added on a first come – first serve basis. The beginning and ending of the sign-up period is at the sole discretion of the Cooperative and purchased quantities are subject to availability.

#### TERMS OF PAYMENT:

If the account is not paid by the time it is billed for the following month, a late fee in the amount specified by the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection charges in accordance with the Cooperative's rules and regulations.

## SCHEDULE GS-19

#### GENERAL SERVICE

#### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

To all electric service of one standard voltage, required on the customer's premises, delivered at one point and metered at or compensated to that voltage. No service rendered hereunder may be resold, nor transmitted to other premises, either directly or indirectly, without the express consent of the Cooperative.

#### MONTHLY RATE:

Service Char	rge		\$39.00 (Single phase customers) \$65.00 (Three phase customers)
All consump	tion (kWh) up to 200 hours ti	mes the Bi	lling Demand
First	15,000 kWh per month	@	13.61¢ per kWh
Next	185,000 kWh per month	@	11.13¢ per kWh
Over	200,000 kWh per month	@	9.80¢ per kWh
1	tion (kWh) in excess of 200 h ter than 400 hours times the and	nours @	5.80¢ per kWh
1	tion (kWh) in excess of 400 h ter than 600 hours times the	nours	
Billing Dem		@	4.74¢ per kWh
-	tion (kWh) in excess of 600 h lling Demand	ours @	4.52¢ per kWh

#### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rate shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

#### LOAD MANAGEMENT ADJUSTMENT:

All customers participating in the Cooperative's Load Management Program are eligible to receive a credit on their bill. The amount of the monthly credit will be determined under the provisions of the Cooperative's Load Management Adjustment Rider (LM).

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

## **DETERMINATION OF BILLING DEMAND:**

A. By measurement of the customer's highest 30-minute kW demand during the current month and the preceding eleven (11) months.

For the billing months June through September, the Billing Demand shall be the greatest of:

- 1. The current actual demand, or
- 2. Ninety percent (90%) of the highest actual demand occurring in any previous applicable summer month, or
- 3. Sixty-five percent (65%) of the highest actual demand occurring in any previous applicable winter month (October-May)

For the billing months of October through May, the Billing Demand shall be the greater of:

- 1. Ninety percent (90%) of the highest summer month (June- September), or
- 2. Sixty-five percent (65%) of the highest winter month (including the current month)

In no case shall the Billing Demand be less than the greater of:

- 1. The contract minimum
- 2.5 kW
- B. School Service: Billing Demand for usage months of September through May shall be determined as set forth Section A. Billing Demand for the usage months of June through August shall be the highest of (1) current actual demand or (2) 5 kW.
- C. Reactive Demand: Where there is an indication of a power factor of less than 95% lagging, the Cooperative may at its option install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 30-minute kVAR measured during the month. The Excess Reactive Demand shall be kVAR which is in excess of one-third the measured actual kW in the current month. The Cooperative will bill excess kVAR at the rate of \$0.30 per excess kVAR.

### MINIMUM MONTHLY CHARGE

<u>Meter Demand</u>: The greater of \$12.00 per kW of (a) the highest demand measured during the billing months June through September or (b) 65% of the highest demand measured during the billing months October through May. In no case shall the minimum bill be less than the Service Charge, plus excess kVAR charges.

<u>Athletic Facilities Lighting:</u> The Service Charge per meter for lighting athletic facilities, provided service is limited to the facilities lighting equipment itself and to such incidental load as may be required to operate coincidentally with the facilities lighting equipment. Consumers disconnecting service for less than 14 month-period shall pay minimum monthly bill for period of disconnection before reconnection.

### CONTRACT PERIOD:

#### SCHEDULE GSAE-19

## GENERAL SERVICE - ALL ELECTRIC

## AVAILABILITY:

All qualified customers in the area served by the Cooperative.

#### APPLICABILITY:

To all electric service of one standard voltage, required on the customer's premises, delivered at one point and metered at or compensated to that voltage. No service rendered hereunder may be resold, nor transmitted to other premises, either directly or indirectly, without the express consent of the Cooperative.

Available to qualified customers upon request. Any customer taking all his requirements through one meter, and who has not less than 10 kW actual demand nor less than 50% of his total connected load in qualifying loads as defined below.

- a. Active, permanently connected, non-seasonal, commercial electric cooking and/or process heating loads. The term "active" as used above means that the qualifying load shall not only be connected, but shall actually be in active use by the customer as his major source of energy for cooking and/or process heating purposes.
- b. Seasonal electric space heating loads, provided such load constitutes the customer's sole means of space heating, and provided further that air conditioning, if any, of all or part of the area so heated, is also electric. In those cases where the amount of connected space heating load required is limited by reason of the contribution of a high intensity lighting system to the space heating requirements, the minimum stated above (10 kW and 50%) may be waived.

#### MONTHLY RATE:

Service Charge			\$39.00 (Single phase customers) \$65.00 (Three phase customers)
All consump	tion (kWh) up to 200 hours ti	mes the B	illing Demand
First	15,000 kWh per month	@	13.61¢ per kWh
Next	185,000 kWh per month	@	11.13¢ per kWh
Over	200,000 kWh per month	@	9.80¢ per kWh
and not great Billing Dem		@	5.80¢ per kWh
1	tion (kWh) in excess of 400 h ter than 600 hours times the and	@	4.74¢ per kWh
1	tion (kWh) in excess of 600 h ling Demand	ours @	4.52¢ per kWh

#### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rate shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

#### LOAD MANAGEMENT ADJUSTMENT:

All customers participating in the Cooperative's Load Management Program are eligible to receive a credit on their bill. The amount of the monthly credit will be determined under the provisions of the Cooperative's Load Management Adjustment Rider (LM).

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

#### **DETERMINATION OF BILLING DEMAND:**

A. By measurement of the customer's highest 30-minute kW demand during the current month and the preceding eleven (11) months.

For the billing months June through September, the Billing Demand shall be the greatest of:

- 1. Eighty-Five percent (85%) of the current actual demand, or
- 2. Seventy-Six percent (76%) of the highest actual demand occurring in any previous applicable summer month, or
- 3. Fifty-five percent (55%) of the highest actual demand occurring in any previous applicable winter month (October-May)

For the billing months of October through May, the Billing Demand shall be the greater of:

- 1. Seventy-Six percent (76%) of the highest summer month (June- September), or
- 2. Fifty-five percent (55%) of the highest winter month (including the current month)

In no case shall the Billing Demand be less than the greater of:

- 1. The contract minimum
- 2. 10 kW
- B. Reactive Demand: Where there is an indication of a power factor of less than 95% lagging, the Cooperative may at its option install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 30-minute kVAR measured during the month. The Excess Reactive Demand shall be kVAR which is in excess of one-third the measured actual kW in the current month. The Cooperative will bill excess kVAR at the rate of \$0.30 per excess kVAR.

#### MINIMUM MONTHLY CHARGE

<u>Meter Demand</u>: The greater of \$12.00 per kW of (a) the highest demand measured during the billing months June through September or (b) 65% of the highest demand measured during the billing months October through May. In no case shall the minimum bill be less than the Service Charge, plus excess kVAR charges,

#### CONTRACT PERIOD:

#### SCHEDULE GSTOU-19

#### GENERAL SERVICE TIME-OF-USE

#### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

To all electric service of one standard voltage, required on the customer's premises, delivered at one point and metered at or compensated to that voltage. No service rendered hereunder may be resold, nor transmitted to other premises, either directly or indirectly, without the express consent of the Cooperative.

#### MONTHLY RATE:

Service Charge	\$42.00 (Single phase customers) \$68.00 (Three phase customers)
Demand Charge All kW of Non-Coincident Billing Demand All kW of On-Peak Billing Demand	<ul> <li>@ \$3.00 per kW</li> <li>@ \$13.40 per kW</li> </ul>
Energy Charges	@ 5.71¢ per kWh

#### WHOLESALE COST ADJUSTMENT

The bill calculated at the above rate shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

#### **DEFINITION OF TIME PERIODS:**

The On-Peak time period shall be the hours from 4:00 p.m. to 8:00 p.m., Monday through Friday, for the calendar months of June through September, excluding the days on which the Independence Day and Labor Day holidays are observed.

The Off-Peak time period shall be the hours not defined above as on-peak. Off-peak hours shall include all weekend hours and all hours during the months of October through May.

#### DETERMINATION OF NON-COINCIDENT BILLING DEMAND:

By measurement of the highest 60-minute kW demand during all hours of the current month and the preceding eleven (11) months.

For the billing months June through September, the Non-Coincident Billing Demand shall be the greatest of:

- 1. The current actual demand, or
- 2. Ninety percent (90%) of the highest actual demand occurring in any previous applicable summer month, or
- 3. Sixty-five percent (65%) of the highest actual demand occurring in any previous applicable winter month (October-May).

For the billing months of October through May, the Non-Coincident Billing Demand shall be the greater of: 1. Ninety percent (90%) of the highest summer month (June- September), or

- 1. Ninety percent (90%) of the highest summer month (june- September), or
- 2. Sixty-five percent (65%) of the highest winter month (including the current month).

#### DETERMINATION OF ON-PEAK BILLING DEMAND:

By measurement of the highest 60-minute kW demand during the on-peak time period for the current month and the preceding eleven (11) months.

For the billing months June through September, the On-Peak Billing Demand shall be the greatest of:

- 1. The current actual demand, or
- 2. Ninety percent (90%) of the highest actual demand occurring in any previous applicable summer month.

For the billing months of October through May, the On-Peak Billing Demand shall be

1. Ninety percent (90%) of the highest actual demand occurring in any previous applicable summer month (June- September).

#### **REACTIVE DEMAND:**

Where there is an indication of power factor of less then 95% lagging, the Cooperative may, at its option, install metering equipment to measure Reactive Demand. The reactive Demand shall be the highest 60-minute kVAR measured during the month. The Excess Reactive Demand shall be kVAR, which is in excess of one-third the measured actual kW in the current month. The Cooperative will bill excess kVAR at the rate of \$0.30 per excess kVAR.

#### MINIMUM MONTHLY CHARGE:

The minimum monthly charge shall be one of the following options, whichever is greater:

- 1. The greater of \$12.00 per kW of (a) the highest demand measured during the billing months June through September or (b) 65% of the highest demand measured during the billing months October through May. In no case shall the minimum bill be less than the Service Charge, plus excess kVAR charges.
- 2. The charge as may be specified in the supplemental contract.

#### CONTRACT PERIOD:

## RIDER LM

## LOAD MANAGEMENT ADJUSTMENT RIDER

### APPLICABILITY:

This rider is applicable to and becomes part of each retail rate schedule of the Cooperative in which reference to Rider LM is made.

#### LOAD MANAGEMENT ADJUSTMENT:

All active customers participating in the Cooperative's Load Management Program who have switches on their central air conditioning unit(s) and/or electric water heater(s) may receive a credit on the June through September bill. The amount of their credit will be determined by multiplying the kW controlled times \$0.875 on air conditioning units and \$0.20 on electric water heating.

The load management switch must have been in place during the full usage period for which the load management credit is given. Credit will be given only to those customers whose accounts are active at the time the bill is rendered.

## **ELIGIBLE INSTALLATIONS:**

Load management switches will be provided at locations which solely in the opinion of the Cooperative are accessible for installation and maintenance and are appropriate for load management purposes.

## SCHEDULE LMS-19

### LOAD MANAGEMENT SERVICE

## AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

Applicable to all electric service of one standard voltage required on the customers' premises at one point and metered at or compensated to that voltage. No service rendered hereunder may be resold, nor transmitted to other premises, either directly or indirectly, without the express consent of the Cooperative.

## MONTHLY RATE:

Service Charge		\$270.00 per month
Demand Charges		
All kW of Non-Coincident Billing Demand	@	\$3.00 per kW
All kW of Coincident Peak Billing Demand	@	\$13.40 per kW
Energy Charges	@	5.11¢ per kWh

### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rate shall be increased or decreased subject to the provisions of the Cooperative's wholesale power cost adjustment Schedule P.

## DETERMINATION OF NON-COINCIDENT BILLING DEMAND:

By measurement of the highest 60-minute kW demand during the current month and the preceding eleven (11) months.

For the billing months June through September, the Non-Coincident Billing Demand shall be the greatest

- of:
- 1. The current actual demand, or
- 2. Ninety percent (90%) of the highest actual demand occurring in any previous applicable summer month (June-September), or
- 3. Sixty-five percent (65%) of the highest actual demand occurring in any previous applicable winter month (October-May).

For the billing months of October through May, the Non-Coincident Billing Demand shall be the greater of:

- 1. Ninety percent (90%) of the highest summer month (June-September), or
- 2. Sixty-five percent (65%) of the highest winter month (October-May, including the current month).

#### DETERMINATION OF COINCIDENT PEAK BILLING DEMAND:

For monthly billings from January through the following December, the monthly Coincident Peak Billing Demand shall be the greater of:

- 1. The average of the customer's sixty-minute demands measured coincident with Georgia Transmission Corporation's 5 highest demands during peak period notification hours occurring during the 12 months ending September 30 of the previous year.
- 2. Twenty percent of the customer's highest demand occurring during the 12 months ending September 30 of the previous year.

For existing customers applying for the LMS Rate and not previously metered on an hourly basis, the Coincident Peak Billing Demand shall be based on estimates developed by the Cooperative.

#### **REACTIVE DEMAND:**

Where there is an indication of a power factor of less than 95% lagging, the Cooperative may at its option install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 60-minute kVAR measured during the month. The Excess Reactive Demand shall be kVAR which is in excess of one-third the measured actual kW in the current month. The Cooperative will bill excess kVAR at the rate of \$0.30 per excess kVAR.

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

### MINIMUM MONTHLY CHARGE:

The minimum monthly charge shall be one of the following options, whichever is greater:

- 1. The greater of \$12.00 per kW of (a) the highest demand measured during the billing months June through September or (b) 65% of the highest demand measured during the billing months October through May. In no case shall the minimum bill be less than the Service Charge per month, plus excess kVAR charges.
- 2. The charge as may be specified in the supplemental contract.

### CONTRACT PERIOD:

#### SCHEDULE MBS-19

#### MARKET BASED SERVICE

#### AVAILABILITY:

To all qualified customers in the area served by the Cooperative. Availability will be determined on a caseby-case basis at the sole discretion of the Cooperative.

## APPLICABILITY:

To customers over 900 kW connected demand taking delivery at a standard voltage at a single point of delivery.

## MONTHLY RATE:

The total monthly charge will be the sum of the following:

<u>Energy Charge (EC)</u>: Energy Charge will consist of the following components: These charges may be determined on a case-by-case basis at the discretion of the Cooperative, subject to market prices, availability, contract terms, load characteristics and type of service provided.

KWH Charge Transmission Charge Fixed Cost Recovery Charge Substation Charge Line Loss Charge

<u>Facilities Charge (FC)</u>: An amount equal to (1/12) of the annual allocated cost of providing service consisting of the following components:

Operation and Maintenance Customer Accounting Customer Service Sales Administrative & General Taxes Capital Costs - Allocated Plant Capital Costs - Direct Plant

<u>Total Charge (TC)</u>: TC = EC + FC

Margin Cost (MC): An amount equal to:

First \$15,000 of TC	3.0%, plus
Next \$35,000 of TC	2.5%, plus
Over \$50,000 of TC	2.0%

## MINIMUM MONTHLY CHARGE:

The sum of:

- 1. The greater of \$12.00 per kW of (a) the highest demand measured during the billing months June through September or (b) 65% of the highest demand measured during the billing months October through May, and
- 2. Facilities Charge, and
- 3. Line Loss Charge, and
- 4. Excess Reactive Demand Charge, and
- 5. Margin

## TERMS OF PAYMENT:

If the account is not paid by due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

### CONTRACT PERIOD:

As specified in the Agreement for Electric Service

## RIDER NM

#### NET METERING RIDER

### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

#### APPLICABILITY:

Applicable to all Customers desiring to install solar photovoltaic, fuel cell or wind generation and/or to sell electrical energy to the Cooperative produced by a distributed generation facility connected after January 1, 2016. The solar photovoltaic, fuel cell or wind generation must be eligible for participation subject to terms and provisions of O.C.G.A. § 46-3-50 et seq. (Georgia Cogeneration and Distributed Generation Act of 2001).

A distributed generation facility must:

- 1. Be owned and operated by a Customer of the Cooperative for production of electrical energy, and
- 2. Be located on the Customer's premises, and
- 3. Be connected to and operate in parallel with the Cooperative's distribution facilities, and
- 4. Be intended primarily to offset part or all of the Customer's requirement for electricity, and
- 5. Have peak generating capacity of not more than 10 kW for residential applications and not more than 100 kW for commercial applications. Larger applications are at the sole discretion of the Cooperative.
- 6. Use solar photovoltaic system, fuel cell or wind generation

#### **INCREMENTAL SERVICE COST:**

The Customer agrees to cover all incremental service costs billed monthly as outlined below.

Incremental Service Costs \$10.00 per month

For Commercial/Industrial customers on the MBS rate, the incremental service costs will be determined on a case by case basis by the Cooperative.

Incremental service costs for MBS customers will include:

Operation and Maintenance Customer Accounting Customer Service Sales Administrative & General Taxes Capital Costs - Allocated Plant Capital Costs - Direct Plant

#### PAYMENT FOR ENERGY:

Payments for power purchased from distributed generation shall be as described below.

Whenever the Customer's consumption exceeds the electricity generated by the Customer's distributed generation system, that electricity is supplied by the Cooperative. All electricity supplied by the Cooperative shall be billed by the Cooperative in accordance with its tariffs plus the INCREMENTAL SERVICE COST.

Whenever the electricity generated by the Customer's distributed generation exceeds the Customer's consumption, that excess electricity is credited by the Cooperative. All electricity credited by the Cooperative will be credited at AVOIDED ENERGY COST, with this kWh credit appearing on the bill for the billing period.

In the event the customer develops a credit balance during a billing period, the credit balance will be applied to the next month's billing charges. Each December the account will be cleared of any credit balance by the issuance of a check for the credit balance to the customer.

Additional energy may be purchased by the Cooperative at a cost agreed to by it and the Customer-Provider.

### AVOIDED ENERGY COST:

Credits made to the customer for generation onto the Cooperative's distribution system will be calculated as follows:

Total Avoided	Base Charge		Transmission Line		Distribution Line
Energy Cost =	at Generator	+	Loss Avoided Costs at Substation	+	Loss at Customer

## SAFETY, POWER QUALITY AND INTERCONNECTION REQUIREMENTS:

The Customer shall be responsible for ensuring a safe and reliable interconnection with the Cooperative system and all costs incurred therein. The Cooperative has available, upon request, a Bulletin setting forth criteria for interconnection including system protection requirements, power quality and operating guidelines. The Customer should be familiar with the Bulletin and follow all procedures. Each interconnection request is handled individually by the Cooperative.

## **SCHEDULE P-19**

#### WHOLESALE POWER COST ADJUSTMENT

#### APPLICABILITY:

This schedule is applicable to and becomes a part of each electric service rate schedule of Jackson EMC in which reference is made to Schedule P.

#### MONTHLY RATE:

The monthly charges shall be increased or decreased on a uniform per kWh basis computed as follows:

WPCA = 
$$\frac{PC - BC + LM + R}{Ks}$$

Where:

- WPCA Wholesale Power Cost Adjustment factor (expressed in \$ per kWh) to be applied to energy sales for the billing period.
- PC Total estimated purchased power cost for the next twelve months plus other expenses charged to Purchased Power, excluding power costs attributed to sales under the MBS and QF rates.
- Ks Total estimated energy sales for next twelve months, excluding sales under the MBS and QF rates.
- R Adder or credit to be applied to the current monthly billing to account for differences in actual purchased electricity costs and actual WPCA revenues recovered in previous periods.
- BC Total estimated purchased power cost included in Cooperative's base rates for the next twelve months. The base power cost is computed as:
  - $BC = B \times Kp$
  - B Base power rate of \$ 0.0781per kWh.
  - Kp Total estimated kWh purchased for the next twelve months, excluding the estimated kWh purchased for the MBS and QF rates.
- LM Add back of Load Management credit dollars paid to Load Management participants through the LM "Load Management Rider", and revenue deferrals as applicable.

The WPCA factor will be computed according to the above formula for a twelve-month period beginning January of each calendar year and adjusted accordingly as actual monthly data is available.

## SCHEDULE QF

## QUALIFYING FACILITIES SERVICE

## AVAILABILITY:

To all qualified customers in the area served by the Cooperative.

## APPLICABILITY:

For electric service to customers at one standard voltage and at one location.

## MONTHLY RATE:

The total monthly charge with be the sum of the following:

Energy Charge (EC): An amount equal to total wholesale power costs, including base rate and delivery.

<u>Facilities Charge FC:</u> An amount equal to 1/12 of the annual allocated cost of providing service consisting of the following components:

Operation and Maintenance Customer Accounting Customer Service Sales Administrative & General Taxes Capital Costs - Allocated Plant Capital Costs - Direct Plant

<u>Total Charge (TC)</u>: TC = EC + FC

Margin Cost (MC): An amount equal to:

MC = (.045 x TC) + \$50

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

#### CONTRACT PERIOD:

As specified in the Agreement for Electric Service

## **SCHEDULE S-19**

## OUTDOOR LIGHTING SERVICE

## AVAILABILITY:

Throughout the Cooperative's service area from existing lines of adequate capacity.

## APPLICABILITY:

Applicable to outdoor lighting on customer property or public street lighting by means of standard mercury, sodium vapor, light emitting diode, or metal halide luminaires, utilizing poles and fixtures conforming to Cooperative specifications. Service includes maintenance, lamp renewal, and energy; however, the customer may be required to reimburse the Cooperative for the cost of any maintenance work which is required because of vandalism.

Lighting service will be provided only at locations that solely in the opinion of the Cooperative are accessible to Cooperative trucks for servicing purposes.

## MONTHLY RATES:

The following are the monthly charges per lamp for standard light fixture for all night service (estimated 4000 hours of operation per year) plus energy where lamp is mounted on a standard pole.

				Fixtures on	Wood Pole	Fixture	es on Non-Wo	od Pole
Wattage	Mean Lumens	Open Bottom	Town & Country	Roadway/ Cobrahead	Directional Flood	Roadway/ Cobrahead	Directional Flood	Shoebox/ Decashield
				High Pressur	e Sodium			
100	8,500			\$13.00		\$19.75		
150	14,500		\$15.50	\$15.75	\$18.25	\$22.50	\$25.00	
250	27,000			\$19.75	\$21.75	\$26.50	\$28.50	\$30.75
400	45,000				\$25.75		\$32.50	
1000	120,000							\$61.75
	Pulse Metal Halide							
150	12,500		\$18.25					\$32.25
400	28,000				\$28.50		\$35.25	
1000	80,000							\$63.50
				LEI	)			
100 Equivalent	6,900	\$11.25	\$13.50	\$13.00		\$19.75		
250 Equivalent	15,000			\$19.75		\$26.50		
400 Equivalent	20,700			\$27.50	\$28.50	\$34.25	\$35.25	\$38.25
1000 Equivalent	30,500				\$48.75		\$55.50	\$63.50

## COOPERATIVE OWNED AND MAINTAINED SYSTEMS FIXTURES NO LONGER OFFERED FOR NEW INSTALLATIONS

				Fixtures on Wood Pole			Fixtures on Non-Wood Pole			
Wattage	Mean Lumens	Open Bottom	High Mast	Roadway/ Cobrahead	Directional Flood	Turnpike Flood	Roadway/ Cobrahead	Directional Flood	Turnpike Flood	Shoebox/ Decashield
	High Pressure Sodium

250	27,000					\$27.00			\$33.75	
400	45,000			\$23.00		\$31.25	\$29.75		\$38.00	\$33.50
1000	120,000		\$52.50		\$45.50			\$52.25		

				Fixtures on Wood Pole		<b>Fixtures on Non-Wood Pole</b>			le	
Wattage	Mean Lumens	Open Bottom	Town & Country	Roadway/ Cobrahead	Directional Flood	Turnpike Flood	Roadway/ Cobrahead	Directional Flood	Turnpike Flood	Shoebox/ Decashield
	Metal Halide									
175	10,000		\$18.25	\$18.25						\$32.25
250	16,000				\$24.50			\$31.25		\$33.25
400	28,000			\$27.50			\$34.25			\$38.25
1,000	80.000				\$48.75			\$55.50		
	Mercury Vapor									
175	7,000	\$12.00		\$20.00						
400	20,000			\$23.00			\$29.75			\$32.50
1000	50,000			\$40.00						

## ADDITIONAL POLES:

For Cooperative owned and maintained lights, the Cooperative will provide one standard pole for each luminaire installed. Where it is necessary for the Cooperative to install more than one wood pole in order to provide lighting service, the customer shall make a one time contribution in aid to construction in the amount of \$325.00 for each additional wood pole required to provide service.

For poles other than wood, refer to "Other Charges."

## OTHER CHARGES

The cooperative may agree to purchase and install outdoor lighting not shown above. A non-refundable contribution in aid of construction may be required from the customer and a monthly lighting rate shall be calculated in the amount to include, but not limited to the following components: energy, capital cost, operation and maintenance, taxes, administrative and general, customer accounting, customer service, and margin.

## **EXPLANATORY NOTES:**

### Underground Service

Where service is to be provided with underground facilities, the Cooperative may require a contribution in aid to construction in accordance with the Cooperative's Service Rules and Regulations and Underground Policies.

Where underground wiring is desired and paving exists, the customer will be required to remove paving, dig trench, install duct furnished by the Cooperative, back fill and replace paving.

### Replacement of Existing Facilities

In the event the Cooperative is required to replace an existing Cooperative-owned lighting system with another type, the customer may be required to pay the Cooperative \$50.00 per fixture. If greater mounting heights are needed than can be reached with existing poles, the customer will be required to pay a contribution in aid to construction to cover costs.

## MONTHLY RATE FOR CUSTOMER OWNED AND MAINTAINED SYSTEMS FOR SIGNBOARDS, CATV AMPLIFIERS, AND TRAFFIC SIGNALS:

For signboards, CATV amplifiers and traffic signals the monthly rate shall be:

Photocell - controlled systems		
Service Charge		\$9.00
All kWh per month	@	7.74¢ per kWh
Minimum Bill = \$10.00		

Where the Monthly kWh = watts connected times 0.35

<u>24-Hour Service</u>		
Service Charge		\$9.00
All kWh per month	@	8.09¢ per kWh
Minimum Bill = \$10.00		

Where the Monthly kWh = watts connected times 0.75

Total wattage connected will be determined by:

- 1. By load count: Watts connected = wattage of lamps (times 1.2 if lamps have ballasts) times number of lamps; or
- 2. By direct measurement: Reading taken at time of service connection. Watts connected = volts times amps.
- 3. For CATV amplifiers, the nameplate wattage will be used
- 4. Meter reading.

The Cooperative may, at its option, verify kWh by installing a kWh meter or a device to limit connected load. The term "customer-owned system" means complete ownership by the customer of all facilities (including poles, fixtures, circuits, and disconnect devices) up to a point of connection to the Cooperative's supply lines. The location and number of service points shall be as specified by the Cooperative. The Cooperative may, at its option, require contribution in aid to construction for expenditures more than three and one-half (3-1/2) times the estimated annual revenue to be derived from the service.

### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rate shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

For purposes of calculating the Wholesale Cost Adjustment, the Cooperative shall assume the following usage for each light per month, based on install Watts.

Non-LED Outdoor Lighting:

Non-LED Ou	Non-LED Outdoor Lighting				
<b>Installed Watts</b>	Usage				
100 Watt	50 kWh per month				
150 Watt	70 kWh per month				
175 Watt	80 kWh per month				
250 Watt	115 kWh per month				
400 Watt	180 kWh per month				
1,000 Watt	450 kWh per month				

## LED\* Outdoor Lighting:

LED* Outdoor Lighting				
Installed Watts	Usage			
100 Watt Equivalent	16 kWh per month			
250 Watt Equivalent	52 kWh per month			
400 Watt Equivalent	71 kWh per month			
1,000 Watt Equivalent	105 kWh per month			

\*LED wattages are approximate

## TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

## CONTRACT PERIOD:

Original term of the contract shall be a minimum of one year; and thereafter until terminated by either party on thirty days written notice; but the Cooperative may require a contract of original term to five years, and may also require an advance payment up to one-half the estimated revenue for the term of the contract.

### SCHEDULE SLMS-19

## SCHOOL LOAD MANAGEMENT SERVICE

### AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

Applicable to all electric service for state, county, city and private schools which offer regular elementary, middle, high school or college courses, of one standard voltage required on the customers' premises at one point and metered at or compensated to that voltage. No service rendered hereunder may be resold, nor transmitted to other premises, either directly or indirectly, without the express consent of the Cooperative.

#### MONTHLY RATE:

Service Charge		\$270.00 per month
Demand Charges		
All kW of Non-Coincident Billing Demand	@	\$3.00 per kW
All kW of Coincident Peak Billing Demand	@	\$13.40 per kW
Energy Charge	@	4.81¢ per kWh

#### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rate shall be increased or decreased subject to the provisions of the Cooperative's wholesale power cost adjustment Schedule P.

#### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

## DETERMINATION OF NON-COINCIDENT BILLING DEMAND:

The Non-Coincident Billing Demand shall be the customer's highest 60-minute kW measurement during the current month.

#### DETERMINATION OF COINCIDENT PEAK BILLING DEMAND:

For monthly billings from January through the following December, the monthly Coincident Peak billing demand shall be the average of the customer's sixty minute demands measured coincident with Georgia Transmission

Corporation's 5 highest demands during peak period notification hours occurring during the 12 months ending September 30 of the previous year.

For existing customers applying for the SLMS Rate and not previously metered on an hourly basis, the Coincident Peak billing demand shall be based on estimates developed by the Cooperative.

## **REACTIVE DEMAND:**

Where there is an indication of a power factor of less than 95% lagging, the Cooperative may at its option install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 60-minute kVAR measured during the month. The Excess Reactive Demand shall be kVAR which is in excess of one-third the measured actual kW in the current month. The Cooperative will bill excess kVAR at the rate of \$0.30 per excess kVAR.

#### MINIMUM MONTHLY CHARGE:

The minimum monthly charge shall be one of the following options, whichever is greater:

- 1. The greater of \$12.00 per kW of (a) the highest demand measured during the billing months June through September or (b) 65% of the highest demand measured during the billing months October through May. In no case shall the minimum bill be less than the Service Charge per month, plus excess kVAR charges.
- 2. The charge as may be specified in the supplemental contract

## CONTRACT PERIOD:

## SCHEDULE TS-19

## TEMPORARY SERVICE

## AVAILABILITY:

All qualified customers in the area served by the Cooperative.

## APPLICABILITY:

Applicable in connection with service for any customer when such service is temporary and/or seasonal in nature.

### MONTHLY RATE:

Service Charg	e		\$39.00 (Single phase customers) \$65.00 (Three phase customers)
First	15,000 kWh	@	13.61¢ per kWh
Next	185,000 kWh	@	11.13¢ per kWh
Over	200,000 kWh	@	9.80¢ per kWh

<u>PLUS:</u> A surcharge of twenty-five percent (25%) of the total amount calculated above.

### WHOLESALE COST ADJUSTMENT:

The bill calculated at the above rates shall be increased or decreased subject to the provisions of the Cooperative's wholesale cost adjustment Schedule P.

### TERMS OF PAYMENT:

If the account is not paid by the due date, a late fee in the amount specified in the Service Rules and Regulations may be added to the account. Further failure to pay a bill may subject a customer to disconnection and/or disconnection charges in accordance with the Cooperative's rules and regulations.

All charges are subject to applicable taxes.

### MINIMUM MONTHLY CHARGES:

The minimum monthly charge is the Service Charge.
