# **RESIDENTIAL SERVICE**

# **SCHEDULE H-22**

#### I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative, in accordance with the Cooperative's Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Applicable only for residential use, single phase churches, and for use incidental thereto supplied through one meter to each individual dwelling unit.

#### III. <u>TYPE OF SERVICE</u>

Single-phase, 60 hertz, at available secondary voltage. (Three-phase service is available under special terms and conditions for residential use only.)

#### IV. <u>RATE-MONTHLY</u>

Base Charge – Single-Phase Base Charge – Three-Phase		@ @	\$26.85 \$37.05	per month per month	
First Next Over		kWh per month kWh per month kWh per month	@ @		per kWh per kWh
	0	Ionths October-May) Ionths June-September)	@ @	\$0.0540 \$0.0860	per kWh per kWh

#### V. <u>MINIMUM CHARGE</u>

A. <u>Single-Phase Service</u>

The minimum monthly charge shall be the base charge plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA.

B. <u>Three-Phase Service</u>

The minimum monthly charge shall be the greater of:

1. The base charge plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA; or

2. The minimum monthly charge as stated in the Contract for Electric Service.

#### VI. <u>BUDGET BILLING</u>

The consumer may be served in accordance with the following procedure:

A. The consumer's estimated monthly consumption, estimated monthly bill or a mutually agreeable fixed dollar amount will be the basis for billing hereunder. Billing may be adjusted for various factors such as the experience of the preceding twelve months, changes in rates or cost with the goal of arriving at an approximate zero account balance at the end of each contract period.

## VII. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

# VIII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

# IX. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

# SMALL COMMERCIAL SERVICE

# SCHEDULE SC-22

#### I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative, in accordance with the Cooperative's Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Applicable to all commercial service and public buildings requiring single-phase service. Applicable to electric service of 200 amps or less where the Consumer's service characteristics do not necessitate multi-phase service and where multi-phase service is provided but not at the request of the Consumer. Applicable to multi-phase churches and for use incidental thereto.

#### III. <u>TYPE OF SERVICE</u>

Single-phase or multi-phase, 60 cycles, at available secondary voltages.

#### IV. <u>RATE-MONTHLY</u>

Base Charge - Single Phase	@	\$27.82	per month
Base Charge - Three Phase	æ	\$49.78	per month
First 1,000 kWh per month	(a)	\$0.1030	per kWh
Next 1,000 kWh per month	ā	\$0.0900	per kWh
Over 2,000 kWh per month			
(For Usage Months October-May)	(a)	\$0.0540	per kWh
(For Usage Months June-September)	ā	\$0.0860	per kWh

#### V. <u>MINIMUM CHARGES</u>

A. <u>Single-Phase Service</u>

The minimum monthly charge shall be the base charge plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA.

Schedule SC-22 Page -2 –

#### B. <u>Three-Phase Service</u>

The minimum monthly charge shall be the greater of:

- 1. The base charge plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA; or
- 2. The minimum monthly charge as stated in the Contract for Electric Service.

#### VI. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

#### VII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

January 16, 1992

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

#### VIII. <u>TERMS OF PAYMENT</u>

EFFECTIVE:

The bill is due upon receipt and payable within ten (10) days thereafter.

#### LARGE GENERAL SERVICE

#### **SCHEDULE G-23**

# I. <u>AVAILABILITY</u>

Throughout the Seller's service area from existing lines of adequate capacity.

#### II. <u>APPLICABILITY</u>

To all electric service where the Consumer's service characteristics necessitate multi-phase service or where multi-phase service is provided at the request of the Consumer.

#### III. <u>TYPE OF SERVICE</u>

Multi-phase, 60 hertz, at a standard distribution voltage.

# IV. MONTHLY-RATE

Base Charge	@	\$55.39/mo.
Energy Charge Including Demand Charge:		
First 1,500 kWh	(a)	\$0.1246/kWh
Next 8,500 kWh	a)	\$0.1100/kWh
Next 90,000 kWh	ă	\$0.0874/kWh
Over 100,000 kWh	ä	\$0.0803/kWh
All consumption in excess of 200 kWh per kW of billing demand but not greater than 400 kWh		
per kW of billing demand	(a)	\$0.0331/kWh
All consumption in excess of 400 kWh per kW of billing		
demand	@	\$0.0227/kWh

Schedule G-23 Page -2-

## V. <u>MINIMUM CHARGES</u>

The minimum monthly charge shall be the greater of:

- 1. The monthly base charge as stated above per meter plus \$6.00 per kW of Billing Demand in excess of 5 kW; or
- 2. \$1.00 per KVA of installed transformer capacity.

The minimum monthly charge as stated in the Contract for Electric Service, whichever is greater.

# VI. <u>DETERMINATION OF BILLING DEMAND</u>

The Billing Demand shall be based on the highest 15-minute kW measurement during the current month and the preceding eleven (11) months. For the usage months of June through September, the Billing Demand shall be the greater of:

- 1. 100% of the measured demand for the current month, <u>or</u>
- 2. 85% of the highest demand occurring in the previous summer usage months (June through September).

For the usage months of October through May, the Billing Demand shall be the greater of:

- 1. 75% of the measured demand for the current month, or
- 2. 85% of the highest demand for the previous summer usage months (June through September).

Where there is an indication of a power factor of less than 90% lagging, the Cooperative may at its option, install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 30-minute kVAR measured during the month. The Cooperative will bill excess kVAR at the rate of \$0.30 per excess kVAR.

# VII. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

# VIII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

# IX. <u>TERM OF PAYMENT</u>

The bill is due upon receipt and payable in ten (10) days thereafter. A contract for electric service may be required for a period of no less than 5 years.

# **IRRIGATION SERVICE**

## **SCHEDULE I-19**

#### AVAILABILITY

Available to consumers for single-phase service in all territories served by the Cooperative. Available to consumers for multi-phase service in areas located near the Cooperative's multi-phase lines, with adequate capacity. All service is made available subject to the Cooperative's established Service Rules and Regulations.

#### APPLICABILITY

Applicable for electric service supplied to irrigation pumping loads in excess of 20 horsepower (HP) of connected load. All service supplied hereunder will require metering equipment capable of measuring demand on an hourly basis.

#### TYPE OF SERVICE

Single-phase and multi-phase, 60 hertz at standard voltage.

#### RATE - MONTHLY

Base Charge Facilities Charge	\$ \$	65.00per month0.50per HP / per month
Plus: All kilowatt-hours used	@	\$ 0.0614 per kWh
Plus: All kW of multi-hour demand	a	\$ 9.10 per kW

Plus: The transmission billing demand charge as computed under the "Determination of Transmission Billing Demand" section herein.

#### MINIMUM MONTHLY BILL

The minimum monthly bill shall be the greater of the following:

- 1) \$65.00, plus \$0.50 per HP.
- 2) The applicable billing demand charge stated above.
- 3) Such other minimum charge specified in the contract for service as may be established by the special nature of a particular load, as provided for in the Cooperative's Service Rules and Regulations.

Whenever a consumer applies for reconnection of service, at the same location within 18 months of the time the service was disconnected at the consumer's request, a charge equal to the sum of the minimum monthly bills calculated for the months that the service was disconnected, will be billed to the consumer and must be paid by the consumer before reconnection is made.

#### DETERMINATION OF HORSEPOWER

The HP for billing purposes shall be the motor manufacturer's nameplate rating of HP output, except that if the Cooperative so elects, the HP shall be determined by actual measurements of power input during a period of maximum normal use, less an allowance of ten percent of input for motor losses.

#### DETERMINATION OF MULTI-HOUR DEMAND

For the billing months of January through the following December, the multi-hour billing demand shall be the average of the member's sixty (60) minute demands measured coincident with the Cooperative's supplemental power supplier's ten (10) highest demands occurring during the previous twelve (12) months ending September 30<sup>th</sup> of the previous year.

#### DETERMINATION OF TRANSMISSION BILLING DEMAND

The amount calculated herein shall be for billing months January through the following December; the transmission billing demand shall be the average of the member's sixty (60) minute demands measured coincident with the Cooperative's transmission provider's 5 highest non-holiday, weekday demands occurring during the twelve (12) months ending September 30<sup>th</sup> of the previous year, multiplied times the Cooperative's transmission provider's applicable network service rate.

#### REACTIVE DEMAND ADJUSTMENT

The Cooperative may install metering equipment to measure Reactive Demand when it is deemed necessary. The Reactive Demand is the highest 15-minute kVAR measured during the month. The Cooperative shall bill to the member, the excess kVAR, defined as that portion of kVAR, which is in excess of one-half (1/2) the measured kW in the current month, at 0.25 per excess kVAR.

#### CONTROL AND METERING EQUIPMENT

The Consumer must agree to incur any and all costs associated with the purchase and installation of all electrical and mechanical equipment used to meter on-peak usage. The Cooperative shall inspect said equipment periodically to ensure its proper and continuous functioning.

#### LINE EXTENSION COSTS

The cost of line construction and/or re-phasing required to provide service hereunder shall be determined in accordance with the provisions set forth in the Cooperative's established Service Rules and Regulations.

#### WHOLESALE POWER COST ADJUSTMENT CLAUSE

The amount calculated at the above rate is subject to increase or decrease under the provisions of the Cooperative's Wholesale Power Cost Adjustment Clause, Schedule "R".

#### FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

## CONTRACT PERIOD

A formal contract will be required between the Cooperative and the Consumer for a minimum of one (1) year.

# EFFECTIVE: February 1, 1993

- REVISED: September 20, 2001 September 25, 2003 February 12, 2004 October 21, 2004 August 20, 2009 November 17, 2011 March 15, 2018 March 21, 2019
- EFFECTIVE: October 1, 2001 October 1, 2003 April 2, 2004 January 1, 2005 October 1, 2009 December 1, 2011 May 1, 2018 May 1, 2019

# WHOLESALE POWER COST ADJUSTMENT CLAUSE SCHEDULE R

#### APPLICABILITY

As prescribed under the various rate schedules, the energy sold by the Cooperative shall be increased or decreased by a factor computed in accordance with the formula below. This factor shall be computed, no less than annually but more frequently if needed, for the periods January through December.

WPCA = 
$$\left[ \left( \frac{E}{kWh_p} \right) - \left( B + CF \right) \right] \div \left( 1 - L \right)$$

Where:

WPCA	A =	Monthly wholesale power cost adjustment factor in dollars per kWh sold.
kWh	=	The estimated energy in kWh, purchased or generated for resale under this schedule, for the applicable calendar year.
E	=	The estimated annual power production expense from all sources for the period of January through December.
В	=	The base cost of wholesale power included in the Cooperative's retail rates. The current base cost of wholesale power is \$0.0544705 per kWh purchased.
L	=	The projected annual energy loss percentage for the applicable calendar year.

Schedule R Page -2-

> CF = The WPCA correction factor will be set in the above formula for a twelvemonth period beginning each calendar year. Should, however, it appears at any time during the twelve-month period that continued use of the WPCA factor then in effect for the remainder of the twelve-month period will result in a substantial under or over recovery of the Cooperative's wholesale power cost and other expenses/margins, the Cooperative shall modify the existing WPCA factor, through the Correction Factor, to recover the applicable costs more accurately.

# OUTDOOR LIGHTING SERVICE

# **SCHEDULE OL-34**

# I. <u>AVAILABILITY</u>

Throughout the Cooperative's Service area from existing facilities of adequate capacity.

# II. <u>APPLICABILITY</u>

Applicable to all members for outdoor lighting by fixtures, either High Pressure Sodium (HPS), Metal Halide (MH) or Light Emitting Diode (LED), on poles conforming to the Cooperative's specifications.

Specifically, limitations exist on the availability of High Pressure Sodium (HPS) and/or Metal Halide (MH) and they will be made available for a limited amount of time and only as described herein.

Service to all lighting fixtures will be rendered only at locations that, solely in the opinion of the Cooperative, are readily accessible for installation and maintenance.

The various service rules and regulations of the Cooperative as well as the conditions of service and other requirements stated herein apply.

# III. MONTHLY RATE

#### Part I - Cooperative Owned and Maintained System

1. All lamp wattages, shown herein, are estimates and will vary slightly to the actual values.

#### Section B – Contributions / Conditions

#### 1. Wood Poles

- a. Prior to construction, the requesting party will be required to pay a one-time, non-refundable, contribution in aid of construction (CIAC) as outlined below:
  - i. \$605 per 30-foot wood pole,
  - ii. \$700 per 35-foot wood pole,

The CIAC is associated with the installation of each pole requested for the purpose of receiving outdoor lighting service. This fee will be in addition to any other applicable charges stated herein.

b. Fixtures served by underground wiring will be available (except in certain residential areas served by overhead distribution) upon payment, in advance of construction, by the requesting party of a one-time, non-refundable contribution in aid of construction in the amount of \$1.65 per trench foot of buried cable. This stated rate is in support of the underground cable in an existing or joint trench. Dedicated trenches will require an additional contribution based on the per foot of buried service cable as outlined in the Underground Electric Service Policy, Policy 409, Exhibit "A". When paving or other obstructions exist, the requesting party will be required to perform or have performed for the Cooperative all trenching, installation of conduit, installation of back fill material and completion of any paving to the mutual satisfaction of all parties involved.

## 2. <u>Standard Ornamental Fixtures and Standard Ornamental Poles</u>

- a. Prior to construction, the requesting party will be required to pay a one-time, non-refundable, contribution in aid of construction (CIAC) as outlined below:
  - i. \$ 625 per 20-foot fiberglass pole;
  - ii. \$1,650 per 35-foot fiberglass pole;

The CIAC is associated with the installation of each pole requested for the purpose of receiving outdoor lighting service. This fee will be in addition to any other applicable charges stated herein.

b. Fixtures served by underground wiring will be available (except in certain residential areas served by overhead distribution) upon payment, in advance of construction, by the requesting party of a one-time, non-refundable contribution in aid of construction in the amount of \$1.65 per trench foot of buried cable. This stated rate is in support of the underground cable in an existing or joint trench.

Dedicated trenches will require an additional contribution based on the per foot of buried service cable as outlined in the Underground Electric Service Policy, Policy 409, Exhibit "A". When paving or other obstructions exist, the requesting party will be required to perform or have performed for the Cooperative all trenching, installation of conduit, installation of back fill material and completion of any paving to the mutual satisfaction of all parties involved.

# 3. Metal Poles

- a. Prior to construction, the requesting party will be required to pay a one-time, nonrefundable, contribution in aid of construction of \$2,900 per 30-foot steel pole for the installation of each pole requested for the purpose of receiving outdoor lighting service. This fee will be in addition to any other applicable charges stated herein.
- b. Fixtures served by underground wiring will be available (except in certain residential areas served by overhead distribution) upon payment, in advance of construction, by the requesting party of a one-time, non-refundable contribution in aid of construction in the amount of \$13.00 per trench foot of buried cable. This stated rate is in support of the underground cable in conduit in a dedicated trench. When paving or other obstructions exist prior to the construction of such lights, the requesting party will be required to perform or have performed for the Cooperative all trenching, installation of conduit, installation of back fill material and completion of any paving to the mutual satisfaction of all parties involved.

# 4. Non-Standard Fixtures or Non-Standard Poles

a. The Cooperative may, at its sole discretion, provide non-standard street lighting (e.g., those poles and / or fixtures no described herein) under the conditions of this section. A contribution in aid of construction (CIAC) will be required to be paid in advance of construction of these non-standard fixtures based on 100% of the actual total cost of the pole and fixture as well as 100% of the associated installation labor and applicable overheads costs for all aspects of the project including the trenching cost.

# <u>Section C – Metal Halide (MH) Lighting</u>

- 1. As of May 1, 2019, new metal halide lighting will not be available throughout the Cooperative's service area.
- 2. All existing fixtures in service as May 2, 2019, will be systematically replaced with a comparable fixture either when they fail to operate or when the Cooperative can no longer support this fixture with parts or lamps.
- 3. Should a metal halide fixture fail to operate at any time and the Cooperative cannot reasonably repair the fixture, it will be replaced with a different type of fixture at the Cooperative's sole discretion.
- 4. All metal halide fixtures will be removed from the Cooperative's distribution system at a date in the future.

# <u>Section D – High Pressure Sodium (HPS) Lighting</u>

- 1. As of September 1, 2020, certain high-pressure sodium lighting fixture(s) may not be available throughout the Cooperative's service area.
- 2. Should a high pressure sodium fixture fail to operate, at any time, and the Cooperative cannot reasonably repair the fixture, it may be replaced with a different type of fixture, at the Cooperative's sole discretion.

# Part II - Consumer Owned System

# Section A – Monthly Energy Rates

- 1. All energy under this provision of this rate will be billed under the Cooperative's Small Commercial Service ("SC") rate schedule approved for use at that time.
- 2. This rate ("SC") is subject to change as may be approved by the Cooperative's Board of Directors.
- 3. All service rules and regulations will apply to this provision of this rate.

## <u>Section B – General Notes</u>

- 1. The number and location of service point(s) shall be as specified by the Cooperative.
- 2. The term "consumer owned system" means complete ownership by the consumer of all facilities (including poles, fixtures, circuits, meter bases and disconnection devices) up to the point of connection to the Cooperative's supply lines (e.g. load side of the meter location).
- 3. The minimum monthly charge shall be as specified in the applicable rate on a per service point approach.
- 4. Service under this provision of this rate may require a written contract between the Cooperative and the consumer prior to service being made available.
- 5. Other provisions unique to this service and the requested service location may apply.

# IV. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

1. Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rates.

# V. <u>CONDITIONS OF SERVICE</u>

Street lighting is made available by the Cooperative subject to the following provisions:

- 1. The Customer shall designate the type and design as well as the location of the light(s) for which service is requested.
- 2. The determination of the type and design as well as the location of the light(s) rests solely with the Member, and the Cooperative shall not bear any responsibility or liability with respect to such determination.
- 3. The Cooperative shall furnish all electric energy required to operate the lighting system, but the Cooperative does not guarantee continuous lighting or electric service.
- 4. The Cooperative shall not be liable to the customer or anyone else for any damage, loss, or injury due to the lighting system not being operative for any reason for any period of time.
- 5. The Member shall have sole responsibility for determining the proper level of illumination and that the streetlight otherwise is working properly.
- 6. The Member also shall have sole responsibility for notifying the Cooperative of any problems relating to the illumination or other operation of the lighting system.

Schedule OL-34 Page -7-

- 7. The Cooperative shall not have any duty to inspect the lighting system unless and until the Customer provides notification to the Cooperative that the lighting system is not working properly or that there is some other problem with the lighting system.
- 8. The Cooperative shall provide maintenance for the Cooperative owned street lighting system; provided, however, that the Cooperative shall only be responsible for providing such maintenance after notification is received from the Member that the lighting system is not working properly.
- 9. Customer agrees to indemnify and hold harmless the Cooperative and its officers, members, employees, directors and agents (hereinafter collectively referred to as the "Indemnitees") from and against any and all claims, demands, liabilities, losses, costs or expenses for any loss, including but not limited to bodily injury (including death), personal injury, property damage, expenses, and attorney's fees, arising out of or resulting from the installation, inspection, maintenance, operation, or inoperation of the street lighting system due to liability to a third party or parties, except when such claims, demands, liabilities, losses, costs or expenses are the result of Indemnitees sole negligence. This indemnification expressly applies where the Indemnitees are partially responsible for the situation giving rise to the claim, as well as where the Customer is partially or wholly responsible for the successors and assigns of the Customer.

#### VI. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

ADOPTED: July 19, 2001

EFFECTIVE: November 1, 2001

# **TRAFFIC SIGNAL SERVICE**

# **SCHEDULE TS-20**

## I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative, in accordance with the Cooperative's Service Rules and Regulations.

## II. <u>APPLICABILITY</u>

Applicable to electric service for the operation of traffic signals including flashers where Customer maintains and re-lamps all traffic control devices.

## III. <u>MONTHLY RATE</u>

Metered Service:

- A. Base Charge: \$30.76 /Mo.
- B.Energy Charge:\$0.0605 cents per kWh

## IV. <u>MINIMUM CHARGE</u>

The minimum monthly charge shall be the base charge stated above.

#### V. <u>CONTRACT PERIOD</u>

A minimum of one (1) year.

# VI. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

Schedule TS- 20 Page -2-

#### VII. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

## VIII. <u>WHOLESALE POWER COST ADJUSTMENT</u>

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

#### IX. ADDITIONAL ADJUSTMENTS AND RIDERS

The bill calculated at the above rate is subject to change in such an amount as may be determined under the provisions of the Corporation's Service Rules and Regulations or upon action by Sawnee EMC's Board of Directors including but not limited to termination of this schedule.

# **QUALIFYING FACILITIES SERVICE**

# **SCHEDULE QF-20**

# I. <u>AVAILABILITY</u>

- A. Available to the members of the Corporation who qualify under Section 201 of the Public Utility Regulatory Policies Act of 1978 (PURPA) as a cogenerator or a small power producer (hereafter referred to as QF member).
- B. Specifically the rate is for the provision of Supplemental, Backup and Maintenance services as defined by PURPA.

# II. <u>APPLICABILITY</u>

- A. Applicable to any QF member, for service not specifically covered by one of the Corporation's other retail rate schedules, who meets the following requirements:
  - 1) The QF member's total capacity requirement must be 100 kW or more.
  - 2) The QF must have on-site generation of 100 kW or more electrically engineered so that it can provide all or part of the load.
  - 3) The on-site generation must operate in excess of 200 hours per year.
- B. Services on a firm and interruptible basis will be provided upon request to QF members not meeting the above requirements. Rates, terms and conditions will be established on a case by case basis.

# III. <u>CONDITIONS OF SERVICE</u>

To receive service hereunder, the QF member must:

- A. Specify to the Corporation the maximum capacity to be made available on an unscheduled basis in any hour (Maximum Unscheduled Capacity), and
- B. Specify to the Corporation the capacity of on-site generation for which interruptible backup power (Interruptible Backup Demand) may be provided, and
- C. Make arrangements with the Corporation for the determination of hourly load data, and

D. Arrange with the Corporation for the delivery of Maintenance Service.

# IV. <u>TYPE OF SERVICE</u>

Type of service is 60 Hz, alternating current, single or three phase, at the Corporation's standard voltages.

# V. <u>MONTHLY RATE</u>

Each QF Member will be billed monthly as outlined:

- A. Retail electric service shall be billed under the Corporation's Large General Service rate (Schedule G), provided however, that in no case will the monthly bill be less than the Corporation Facilities Charge, as described below.
- B. Corporation Facilities Charge The dollar investment in dedicated service facilities that are provided by the Corporation in order to furnish demand and energy to the consumer times a monthly fixed charge rate

# VI. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

# VII. <u>TERMS OF PAYMENT</u>

As specified in the contract for service.

# VIII. WHOLESALE COST ADJUSTMENT

A. Should there be any change in the manner in which the Corporation purchases or supplies power, including changes in rates, terms or conditions, which affect the cost of power, the Corporation reserves the right to modify the charges and provisions stated above correspondingly.

- B. In the event the Corporation purchases power from the QF member;
  - 1. Such purchases shall occur in accordance with the Corporation's Qualifying Facilities Rate of Power Purchase retail rate ( Schedule "QFPP"), and
  - 2. The Corporation reserves the right to bill the QF member for any costs incurred as a result of the reallocation by a power supplier of the Corporation of costs that have not been avoided as a result of the Corporation's purchases from the QF member.

# **FACILITIES CHARGE RIDER**

# **RIDER FC-17**

#### APPLICABILITY

Applicable in connection with service to any Consumer served under Schedule SCHS, Schedule HLF, Schedule SCH, Schedule I, Schedule TOU-LGS, Schedule OL, Schedule LPS, Schedule G, Schedule SCD, and Schedule SC.

#### FACILITIES CHARGE

The Cooperative may furnish facilities in addition to those facilities provided specifically in order to furnish demand and energy for the principle business to the Consumer when the Consumer agrees to pay a monthly Facilities Charge for the contract period specified in the Service Agreement between the Cooperative and the Consumer. The monthly Facilities Charge will be designed to recover the Cooperative's estimated carrying costs, including operations and maintenance, taxes, depreciation, cost of capital, and other factors.

The Facilities Charge is in addition to any fees or services billed under the applicable rate schedule and the Facilities Charge will not apply to fulfill any minimum charges specified in the applicable rate.

EFFECTIVE: January 16, 1992 **REVISED:** January 21, 1993 March 17, 1994 **EFFECTIVE:** March 18, 1994 November 17, 1994 January 1, 1995 March 21, 1996 March 21, 1996 June 6, 1996 June 6, 1996 May 20, 1999 May 20, 1999 October 20, 2005 January 4, 2006 November 15, 2007 January 4, 2008 September 25, 2008 September 25, 2008

# **RESIDENTIAL TIME-OF-USE RATE**

# **SCHEDULE TU-26**

# I. <u>AVAILABILITY</u>

Available in all territory served by the Cooperative in accordance with the Service Rules and Regulations.

## II. <u>APPLICABILITY</u>

Applicable to loads that qualify for service under Schedule "H".

## III. <u>CONDITIONS OF SERVICE</u>

- A. The consumer must require permanent year around service.
- B. The consumer must agree to take service under Schedule "TU" for a minimum of 12 consecutive months.
- C. Schedule "TU" will be limited to applications from qualifying consumers receiving service on or after the effective date.
- D. Schedule "TU" will be further limited to new or existing consumers who meet energy efficiency construction requirements.

#### IV. <u>TYPE OF SERVICE</u>

Single-phase, 60 hertz, at available secondary voltages. (Three-phase service is available under special terms and conditions as described in the applicability section above).

# V. <u>RATE - MONTHLY</u>

- A. <u>Base Charge</u>:
  - 1. Single-Phase @ \$31.00 per month
  - 2. Three-Phase *a* \$54.80 per month

Schedule TU-26 Page -2 -

- B. <u>Energy Charge</u>:
  - 1.All kWh of Off-Peak Energy@\$0.0445 per kWh
  - 2. All kWh of On-Peak Energy @ \$0.280 per kWh

## VI. <u>MINIMUM CHARGES</u>

The minimum monthly charge shall be the base charge plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA.

#### VII. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

#### VIII. DETERMINATION OF ON-PEAK AND OFF-PEAK ENERGY

- A. The On-Peak Period shall be those hours, Monday Friday, beginning at 2 p.m. and ending at 8 p.m. during June 1 August 31, excluding July 4. All other hours shall be considered the Off-Peak Period.
- B. The On-Peak Energy shall be the kilowatt-hours recorded during the On-Peak Period.
- C. The Off-Peak Energy shall be the kilowatt-hours recorded during the Off-Peak Period.

## IX. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

# X. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

Schedule TU-26 Page -3 -

#### XI. ADDITIONAL ADJUSTMENTS AND RIDERS

The bill calculated at the above rate is subject to change in such an amount as may be determined under the provisions of the Corporation's Service Rules and Regulations or upon action by Sawnee EMC's Board of Directors including but not limited to termination of this schedule.

ADOPTED: February 18, 1993

**REVISED**:

June 17, 1993 October 16, 1997 February 12, 2004 October 20, 2005 October 19, 2006 November 15, 2007 January 15, 2009 January 21, 2010 January 20, 2011 August 18, 2011 September 19, 2013 September 18, 2014 September 17, 2015 September 15, 2016 June 21, 2018 June 20, 2019

# **OFF PEAK SERVICE RIDER**

# **SCHEDULE OP-7**

## I. <u>AVAILABILITY</u>

Available in all territory served by the Cooperative in accordance with the Cooperative's Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

This rider will be applicable upon request as a modification of Schedule "G", Large General Service, when off peak usage exists. A consumer may select billing under Schedule OP provided that the Consumer takes service under Schedule OP for a minimum of 12 consecutive months. This rider will not be applicable unless the Cooperative has in the previous "on peak" period measured both the "on peak" and "off peak" demand.

#### III. <u>DEFINITIONS</u>

- A. On peak usage is defined as power requirements occurring between the hours of 2 p.m. and 8 p.m., Monday through Friday, during the months of June through August.
- B. Off peak usage is defined as all power requirements not included in (A) above.

#### IV. DETERMINATION OF MODIFIED BILLING DEMAND

The Modified Billing Demand shall be based on the highest 15-minute on peak and off peak kW measurement during the current month and the preceding eleven (11) months. For the usage months of June through September, the Modified Billing Demand shall be the greater of:

- (1) 110% of the highest on-peak demand.
- (2) 60% of the highest off-peak demand.

Schedule OP-7 Page -2-

For the usage months of October through May, the Modified Billing Demand shall be the greater of:

- (1) 95% of the highest on peak demand.
- (2) 60% of the highest off peak demand.

# V. <u>METERING</u>

A charge of \$25.00 per month shall be added to the customer's bill for the costs associated with special metering equipment necessary for the determination of on peak and off peak demand.

## TIME-OF-USE - LARGE GENERAL SERVICE SCHEDULE TOU-LGS-9

## I. <u>AVAILABILITY</u>

Throughout the Corporation's service area from existing lines of adequate capacity.

#### II. <u>APPLICABILITY</u>

This rate schedule is applicable to loads which qualify to receive service under the Corporation's Rate Schedules SC and G.

## III. <u>CONDITIONS OF SERVICE</u>

- A. The consumer must require permanent year around service.
- B. The Consumer must agree to take service under Schedule TOU-LGS for a minimum of 12 consecutive months.
- C. Schedule TOU-LGS will be limited to applications from qualifying consumers.
- D. Schedule TOU-LGS will be considered experimental. Consumers who wish to receive service under this rate must understand that anytime during the experimental period the rate could be changed or entirely eliminated.

#### IV. <u>TYPE OF SERVICE</u>

Single or three phase, 60 hertz, and at a standard voltage.

#### V. <u>MONTHLY RATE</u>

A.	Customer Charge - 1 Phase Customer Charge - 3 Phase	\$50.00 \$225.00
B.	Energy Charges: On Peak kWh Off Peak kWh	\$0.150 per kWh \$0.041 per kWh

C.	Demand Charges:	
	On Peak Demand	\$15.00 per kW
	Excess Demand	\$ 4.00 per kW

#### VI. <u>ON PEAK PERIOD</u>

The on peak period for the calendar months of June through August is defined as the hours starting at 2 p.m. and ending at 8 p.m., Monday through Friday, excluding the days on which the following holidays are observed: Independence Day. For the calendar months of September through May, there shall be no hours defined as on peak.

## VII. OFF PEAK PERIOD

The off peak period for June through August is defined as all hours not included above in the on peak periods, including all weekends and holidays. For the calendar months of September through May the off peak period is defined as all hours.

#### VIII. DETERMINATION OF BILLING DEMAND

<u>On Peak Demand</u>: On Peak Demand shall be the highest 15-minute kW measurement during the On Peak Period, as defined above, for the current month.

Excess Demand: Excess Demand shall be equal to the highest 15-minute kW measurement during all hours of the current month minus the On Peak kW for the current month.

#### IX. <u>DETERMINATION OF REACTIVE DEMAND</u>

Where there is an indication of a power factor of less than 90% lagging, the Corporation may at its option, install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 15-minute kVAR measured during the month. The Corporation will bill monthly excess kVAR at the rate of \$0.30 per excess kVAR.

## X. <u>MINIMUM CHARGES</u>

The minimum monthly charge shall be the greater of:

- A. The applicable monthly base charge, as stated above, plus \$6.00 per kW of Billing Demand in excess of 40 kW, or
- B. \$1.00 per kVA of installed transformer capacity, or
- C. The minimum monthly charge as stated in the Contract for Electric Service, whichever is greater.

#### XI. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

## XII. <u>TERM OF CONTRACT</u>

Not less than one year for loads requiring greater than 100 kVA and up to 500 kVA of installed transformer capacity. For loads requiring greater than 500 kVA of installed transformer capacity, a contract of not less than five (5) years shall be required.

#### XIII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

#### XIV. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter or as may be stated on the bill.

# XV. ADDITIONAL ADJUSTMENTS AND RIDERS

The bill calculated at the above rate is subject to change in such an amount as may be determined under the provisions of the Corporation's Service Rules and Regulations which are on file with the Georgia Public Service Commission or upon action by Sawnee EMC's Board of Directors including but not limited to termination of this schedule.

# SCHOOL SERVICE

# **SCHEDULE SCHS-22**

#### I. <u>AVAILABILITY</u>

Available to Members of the Cooperative that meet the following requirements:

- 1. The load at each delivery point must be a school at a single location.
- 2. The meters shall be read on the same dates used for the Cooperative's wholesale billing from Oglethorpe Power Corporation (OPC).
- 3. The connected load must be 900 kW or greater.

#### II. <u>SCHEDULE OF CHARGES</u> (Monthly)

A. <u>Wholesale Power Cost</u>

Service Charge \$200

#### Energy Charges:

First	150 hours use of demand
Next	150 hours use of demand
Next	200 hours use of demand
Excess	kWh

(a)	\$0.1150	per kWh
(a)	\$0.0520	per kWh
(a)	\$0.0450	per kWh
(a)	\$0.0424	per kWh

Other Wholesale Charges

In addition to the above charges, any other charges, surcharges, riders, etc., contained in the Wholesale Power Contract between the Cooperative's power suppliers and the Cooperative.

Wholesale Facilities Charge

The full or prorated amount of any facilities charge billed to the Cooperative by its wholesale power and transmission providers pertaining to the investment in facilities provided by them specifically in order to furnish service hereunder.

# B. <u>Sawnee Electric Membership Corporation Service Charge</u>

- 1) \$100, plus
- 2) 5.0% times the amount determined in Section A above.

#### III. DETERMINATION OF THE DEMAND USED FOR ENERGY BILLING

The demand used to determine the hour's use of demand of energy consumed shall be measured in 60-minute increments and shall be the greater of:

- 1. 100% of the load's average demand coincident with the Cooperative's supplemental power supplier's ten (10) highest demands occurring during the previous twelve (12) months, ending September 30<sup>th</sup> of the previous year, or
- 2. Ten percent (10%) of the load's highest demand (non-coincident peak) occurring during the current month.

# IV. DETERMINATION OF EXCESS REACTIVE DEMAND

Excess Reactive Demand shall be any excess of the measured kVAR at the time of the greatest kW demand at the point of delivery during a month over one-half of such kW demand.

# V. <u>MINIMUM MONTHLY CHARGE</u>

The minimum monthly charge shall be the amount specified in the contract for electric service.

#### VI. <u>BILLING ADJUSTMENTS</u>

An independent engineering estimate of the transformation and line losses from the wholesale metering point shall be made and such losses shall be added to the member's metered billing units before the computation of charges as stated above.

### VII. <u>WHOLESALE RATE ADJUSTMENT</u>

Should there be any change in the wholesale rate under which the Cooperative purchases power from its various power suppliers, the Cooperative reserves the right to modify the charges and provisions stated above correspondingly.

#### VIII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

#### IX. <u>TERMS OF PAYMENT</u>

All bills are net and payable according to the provisions stated in the contract for service between the Cooperative and the member.

# LARGE POWER SERVICE

# **SCHEDULE LPS-7**

# I. <u>AVAILABILITY</u>

Available to any Member of the Corporation that meets the following requirements:

- A. The load at the delivery point must be a single consumer at a single location, and an agreement for electric service entered into after June 1, 1996.
- B. The meters may be read on the same dates used for the Cooperative's wholesale billing from its power supplier.
- C. A minimum connected load must equal 900 kW or greater.
- D. Existing consumers who received initial service prior to June 1, 1996 may receive service under this rate with an access charge.
- E. Consumer agrees to be subject to the Cooperative's Service Rules and Regulations.

# II. <u>TYPE OF SERVICE</u>

Service shall be provided as set forth in the contract for service between the Corporation and the consumer.

# III. <u>RATE PER MONTH</u>

The monthly bill will consist of the sum of the following charges:

A. <u>Power Supply Costs</u><sup>1</sup>

Demand Charges:

Charges in dollars per kW of Power Supply Demand will be determined on a case by case basis.

#### Energy Charges:

The rate per kWh of all energy for service under this schedule will be determined on a case by case basis.

#### B. Integrated Transmission System (ITS) Costs

- 1) The cost per kW of Power Delivery Demand will be determined on a case by case basis, plus
- 2) ITS Substation Related Costs Determined by one or a combination of the methods as follows:

<u>Method 1</u> - 0.37 per kW of monthly maximum billing demand for consumers served from substations serving the Corporation's primary distribution system, and/or

<u>Method 2</u> - A direct assignment of ITS Substation costs. Method 2 only applies for consumers served from a dedicated ITS substation.

#### C. <u>Distribution System Costs</u>

- 1) \$3.76 per kW of Monthly Maximum Billing Demand for consumers connected to the Corporation's joint use primary distribution facilities, plus
- 2) Corporation Facilities Charge The dollar investment in dedicated service facilities provided by the Corporation specifically in order to furnish demand and energy to the consumer times a monthly fixed charge rate.

#### D. <u>Corporation Service Charge</u>

A service charge consisting of 100.00 per month plus one percent (1%) of the sum of A and B above.

#### IV. DETERMINATION OF POWER SUPPLY BILLING DEMAND

For the billing months of January through the following December, the power supply billing demand shall be the highest demand measured in any 60-minute period during June through September of the previous year.

#### V. <u>DETERMINATION OF POWER DELIVERY DEMAND</u>

For the billing months of January through the following December, the power delivery demand shall be the consumer's average demand coincident with the Cooperative's transmission provider's five (5) highest demands occurring during the 12 months ending September 30 of the previous year.

#### VI. <u>DETERMINATION OF MONTHLY MAXIMUM BILLING DEMAND</u>

The monthly maximum billing demand shall be the greater of:

- 1) the highest 60-minute measurement during the current month, or
- 2) fifty percent (50%) of the highest 60-minute measurement occurring during the preceding eleven (11) months.

#### VII. DETERMINATION OF REACTIVE DEMAND CHARGE

Where there is an indication of a power factor of less than 90% lagging, the Corporation may at its option, install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 60-minute kVAR measured during the month. The Excess Reactive Demand shall be kVAR which is in excess of one-half the measured kW in the current month. The Corporation will bill excess kVAR at the rate of \$0.30 per excess kVAR.

# VIII. MINIMUM MONTHLY CHARGE

The minimum monthly charge shall be the sum of the charges contained in Section A, B, C, and D in the above provisions entitled "RATE PER MONTH" plus applicable taxes and access charges.

# IX. <u>TAXES</u>

The consumer shall pay, in addition to all other charges from above, any sales, use, franchise, gross receipt or any other tax now or hereafter applicable to service rendered, which tax shall be added to each bill, unless the consumer furnishes satisfactory evidence that it is exempt here from.

# X. <u>BILLING ADJUSTMENTS</u>

An independent engineering estimate of the transformation and line losses from the wholesale metering point shall be made and such losses shall be added to the member's metered billing units before the computation of charges as stated above.

#### XI. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

#### XII. TERMS OF PAYMENT AND LATE PAYMENT CHARGES

All bills are net and payable according to the provisions stated in the contract for service between the Corporation and the member.

#### XIII. COGENERATION SERVICE RIDER

The above rates shall be adjusted, to those consumers of the Corporation who qualify under Section 201 of the Public Utility Regulatory Policies Act of 1978 (PURPA) as a cogenerator or small power producer, by the amount determined under the Corporation's "qualified" Facilities rate rider (QF).

# XIV. ACCESS CHARGE

For existing consumers, this rate schedule is available with an access charge. The access charge is based on the most recent 12-month billing history and represents the difference in historical annual billings under the standard rates applicable to the existing consumer compared to the annual billings calculated for the same historical period under this schedule (LPS). This charge will decline 20% per year, after the first year, to equal zero (0) at the end of the fifth year. This charge will not be less than zero (0) or a negative.

# XV. <u>WHOLESALE RATE ADJUSTMENT</u>

Should there be changes in the Corporation's costs for purchased power or power production, the Corporation reserves the right to modify the charges and provisions stated above correspondingly.

<sup>1</sup> The applicable Power Supply Cost will be determined on a case by case basis. Availability of power, transmission constraints, available capacity, and other factors will determine the proposed pricing.

# SAWNEE ELECTRIC MEMBERSHIP CORPORATION SMALL COMMERCIAL SERVICE SCHEDULE SCD-14

#### I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative, in accordance with the Cooperative's Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Applicable to all commercial service and public buildings requiring three-phase service, where the electric service is 200 amps or less.

#### III. <u>CONDITIONS OF SERVICE</u>

- 1. The customer must agree to take service under Schedule "SCD" for not less than 12 consecutive months.
- 2. The consumer may transfer between rates only once in any 12-month period.

#### IV. <u>TYPE OF SERVICE</u>

Three phase, 60 cycles equal to or less than 200 amps, at available secondary voltages as described above.

#### V. <u>RATE – MONTHLY</u>

Base Charge – Three Phase	@	\$55.39	per month
First 1,000 kWh per month Next 1,000 kWh per month Over 2,000 kWh per month	@ @ @	\$0.1080 \$0.0950 \$0.0860	per kWh per kWh per kWh
All consumption in excess of 200 kWh per kW of billing demand, but not greater than 400 kWh per kW of billing demand	@	\$0.0331	per kWh
All consumption in excess of 400 kWh per kW of billing demand.	(a)	\$0.0227	per kWh

Schedule SCD-14 Page -2-

#### VI. <u>MINIMUM CHARGES</u>

The minimum monthly charge shall be the greater of:

- A. The monthly base charge, as stated above, per meter plus \$6.00 per kW of Billing Demand in excess of 5 kW.
- B. \$1.00 per kVA of installed transformer capacity.
- C. The minimum monthly charge as stated in the Contract for Electric Service, whichever is greater.

#### VII. <u>DETERMINATION OF BILLING DEMAND</u>

The Billing Demand shall be based on the highest 15-minute kW measurement during the current month.

Where there is an indication of a power factor of less than 90% lagging, the Cooperative may at its option, install metering equipment to measure Reactive Demand. The Reactive Demand shall be the highest 30-minute kVAR measured during the month. The Cooperative will bill excess kVAR at the rate of \$0.30 per excess kVAR.

#### VIII. <u>WHOLESALE POWER COST ADJUSTMENT</u>

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

#### IX. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

Schedule SCD-14 Page -3-

# X. <u>TERM OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

ADOPTED:	February 18, 1999	EFFECTIVE: March 5, 1999

## SELF-GENERATOR LOAD RIDER SCHEDULE SGL-6

#### I. <u>AVAILABILITY</u>

A. Available in all territory served by the Cooperative in accordance with the Cooperative's Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

- A. Applicable upon request to consumers taking service under Schedules "H", "SC" or "G" who have customer-owned generation which can be operated during specified hours of any month to reduce the consumers demand.
- B. A consumer taking service under this rider agrees and accepts that the rider may be discontinued as directed by SEMC's Board of Directors.
- C. This schedule is only applicable to those consumers served under the rate schedules shown above.
- D. This schedule is applicable only for consumers whose generators are used to displace the consumer's load during peak hours and it is not applicable for purchases of demand or energy generated by the consumer. This schedule is not applicable where the consumer's generator provides supplemental energy and operates more than 200 hours in a calendar year.

#### III. MONTHLY CREDIT

- A. <u>Demand Credit</u>
  - 1. All measured kW of multi-hour demand @ \$36.00 per kW/year divided by twelve and payable over twelve months beginning January of each year.
  - 2. For the billing months of January through December of the current year, the monthly multi-hour demand shall be the average of the consumer's generated kilowatts measured in 60-minute intervals coincident with the Cooperative's supplemental power supplier's ten (10) highest demands occurring during the previous twelve (12) months ending September 30<sup>th</sup> of the previous year.

#### IV. <u>PERIODS OF OPERATION</u>

A. Recommendations for periods of generator operation can be obtained by the Cooperative's Load Management System, telephone, or other corporate sponsored means or methods.

- B. The period of operation shall begin at the beginning of the designated hour which has been recommended and at which the Consumer decides to generate, or at a mutually agreed upon time.
- C. The period of operation shall end fifteen (15) minutes after the last generation period, or at a mutually agreed upon time.
- D. It is the responsibility of the Consumer to operate customer-owned generation equipment and the Cooperative is not responsible for failure of the Consumer to operate its generation during the period for any reason.

#### V. <u>PARALLEL OPERATION</u>

- A. The Consumer must agree to abide by the Service Rules and Regulations of the Corporation as well as be in compliance with the provisions of the Corporation's Distributed Generating Interconnection Requirements document in effect and as may be amended.
- B. The consumer further agrees to incur any and all costs associated with the purchase and installation of all electrical and mechanical equipment used to take advantage of this rider on their equipment.
- C. The Cooperative must have ready access to and may inspect said equipment periodically to ensure its proper and continuous functioning.
- D. The interconnection will be configured so that power produced by the generator cannot back feed onto the Corporation's distribution system.

#### VI. <u>METERING</u>

A. A charge of \$15.00 per month shall be added to the customer's bill for the costs associated with special metering equipment necessary for the determination of multi-hour demand.

#### VII. CONTRACT PERIOD

A. This rider will be in effect as stated in the applicability section of this schedule and each consumer will be bound by this schedule for a period of one (1) year.

#### VIII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

A. Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

Schedule SGL-6 Page -3-

# IX. <u>TERMS OF PAYMENT</u>

A. All credits payable according to the standard and normal practices between the Cooperative and its members as stated in the applicable policies and bylaws. All payments will be in the form of a billing credit. Credit earned in a period will start being applied on January 1 for the future period and be applicable for a twelve (12) month period. These credits are not transferable or refundable should the consumer terminate their service.

# NET ENERGY METERING RIDER

# (Schedule NEM-12)

# A. <u>PURPOSE</u>

The purpose of this rider is to establish the methods and procedures for determining credits, payments, and charges applicable to members of the Cooperative who 1.) lease or 2.) own and operate a Distributed Generation Facility, as defined in the Cooperative's Distributed Generation Facilities Policy, Policy 412.

# B. <u>AVAILABILITY</u>

This rider is available to any member of the Cooperative 1.) leasing or 2.) owning and operating a Distributed Generation Facility, as defined in the Cooperative's Distributed Generation Facilities Policy.

The peak generating capacity of a Distributed Generation Facility used by:

- 1.) A residential member shall generally <u>not</u> exceed 10 kW alternating current ("AC") or as may be allowed under the Distributed Generation Interconnection Procedure, and
- 2.) A commercial member shall <u>not</u> generally exceed 100 kW AC or as may be allowed under the Distributed Generation Interconnection Procedure.

The total committed AC capacity of all interconnected Distributed Generation Facilities subject to this rider shall <u>not</u> exceed 0.2 percent (0.2%) of the Cooperative's most recent annual peak demand in the previous year, except at the sole discretion of the Cooperative.

# C. <u>DEFINITIONS</u>

The following words and terms shall have the following meanings unless the context clearly indicates otherwise:

- 1. **"Billing Period**" means the time period between the dates on which the Cooperative normally reads the retail electric service meter for billing purposes.
- 2. **"Bi-directional Meter**" is a meter capable of measuring (but not necessarily displaying) electricity flow in both directions.
- 3. **"Bi-directional Metering**" means measuring the amount of electricity supplied by the Cooperative and the amount fed back to the Cooperative by the customer's Distributed Generation Facility using a single Bi-directional Meter.
- 4. "**Customer Generator**" means a member of the Cooperative who is either a licensee or who owns a Distributed Generation Facility.

- 5. **"Distributed Generation Facility**" means a facility that is either 1.) leased by a member of the Cooperative or 2.) owned and operated by a member of the Cooperative for the production of electrical energy that:
  - a. Uses a solar photovoltaic system, fuel cell, or wind turbine;
  - b. Generally, has peak generating capacity of <u>not</u> more than 10 kW AC for a residential application and generally <u>not</u> more than 100 kW AC for a commercial application or as may be allowed under the Distributed Generation Interconnection Procedure;
  - c. Is located on or at the member's premises;
  - d. Operates in parallel with the Cooperative's electric distribution system's facilities;
  - e. Is connected to the member's side of the Cooperative's retail electric service meter; and
  - f. Is intended primarily to offset part or all of the Cooperative member's generation requirements for electricity.
- 6. **"Distributed Generation Interconnection Procedure**" is the interconnection requirements for Distributed Generation Facilities, established by the Cooperative, for the integration of such facilities into the Cooperative's electric distribution system.
- 7. "Excess Net Energy" is the difference between the electricity generated by the member's Distributed Generation Facility and the electricity supplied by the Cooperative during the Billing Period.
- 8. **"Net Metering Customer**" means a Customer Generator receiving Net Metering service.
- 9. "Net Metering" means measuring the difference, over the Billing Period, between electricity supplied to a Net Metering Customer from the Cooperative's electric distribution system and the electricity generated and fed back into the Cooperative's electric distribution system by the Net Metering Customer, using a single Bi-directional Meter.
- 10. **"Renewable Energy Credits" or "RECs**" means a renewable energy credit as defined in the Green-e Energy National Standard and shall include all the renewable attributes associated with the applicable level of corresponding energy production.
- 11. **"Renewable Energy Sources**" means energy supplied from technologies as approved in the Georgia Green Pricing Accreditation Program.

# D. <u>CONDITIONS OF SERVICE</u>

1. As defined in the Cooperative's Distributed Generation Interconnection Procedures as a requirement of this rider, the Customer <u>will</u> be required to provide and execute a written and mutually executed Distributed Generation Interconnection Agreement by the Net Metering Customer and placed on file with the Cooperative.

- 2. To qualify to become or remain a Net Metering Customer, the Cooperative member must have met and maintained compliance with all of the requirments of interconnection contained in the applicable Cooperative Distributed Generation Interconnection Procedure as well as the requirements found in the Cooperative's Bylaws, all Service Rules and Regulations and applicable policies regarding Distributed Generation Facilities.
- 3. The Distributed Generation Facilities must obtain, where required, the permits and/or inspections as required by local government authorities with copies of said documents to be provided to the Cooperative.

# E. <u>TYPES OF METERING</u>

- 1. Net Metering will be used exclusively under this rider.
- 2. Net Metering will be accomplished by using Bi-directional Metering for the Distributed Generation Facilities interconnected on the Net Metering Customer's side of the retail service meter.

# F. <u>DISPOSITION OF ENERGY</u>

- 1. If the electricity <u>consumed</u> by the Net Metering Customer during the Billing Period "exceeds" the electricity generated by the Net Metering Customer's Distributed Generation Facility during the Billing Period, then all electricity generated by the customer shall be deemed to have been used by the Net Metering Customer, and the Net Metering Customer shall be charged for electric service under the then applicable retail rate schedule that would otherwise be applicable if the customer was not a Net Metering Customer.
- 2. If the electricity <u>generated</u> by the Net Metering Customer's Distributed Generation Facility during the Billing Period "exceeds" the electricity consumed by the Net Metering Customer, then the Excess Net Energy shall be purchased by the Cooperative, at rates as provided for under the "Purchase Rate" Section of this rider and the Net Metering Customer shall be charged for all other applicable cost of electric service under the then applicable retail rate schedule that would otherwise be applicable if the customer was not a Net Metering Customer.

# G. <u>RENEWABLE ENERGY CREDITS</u>

1. The Cooperative shall retain ownership of any and all RECs produced by the Distributed Generation Facility, associated with Excess Net Energy purchased by the Cooperative through its Energy Payment under Rate Schedule NEM, unless there are specific provisions in the Interconnection Agreement with the Cooperative for their sale and/ or purchase.

- 2. The Cooperative shall be responsible for the measurement, verification, and all record-keeping associated with the RECs it purchases through its Energy Payment of Excess Net Energy under Rate Schedule NEM.
- 3. The Net Metering Customer shall be responsible for the measurement, verification, and all record-keeping associated with the production of RECs for which he consumes or uses.
- 4. The Net Metering Member is responsible for obtaining certification from the Center for Resource Solution's Green-e Energy program to demonstrate that RECs were produced and exist, if required by the Cooperative.
- 5. The Net Metering Customer agrees that the Cooperative shall, for all Excess Net Energy purchased by the Cooperative through its Energy Payment under Rate Schedule NEM, also receive the RECs associated with said Excess Net Energy.

# H. RATES AND CHARGES FOR NET METERING SERVICE

- 1. Each Net Metering Customer shall be:
  - a. Charged for electric service under the applicable rate schedule as described in Section "F", as well as,
  - b. When applicable, receive the benefits of the rates defined in Section "I" below, as well as,
  - c. All other applicable charges.

# I. <u>PURCHASE RATE</u>

- 1. The rates paid for Excess Net Energy purchased by the Cooperative for Non-solar Photovoltaic and Solar Photovoltaic installations as described herein shall be as stated herein.
- 2. The rate for Excess Net Energy purchased shall be applied monthly as follows:
  - a. <u>Non-solar Photovoltaic Installations:</u>

June - September	\$0.0340 per kWh
December – February	\$0.0288 per kWh
All Other Months	\$0.0286 per kWh

b. <u>Solar Photovoltaic Installations:</u>

June - September	\$0.0281 per kWh
December – February	\$0.0281 per kWh
All Other Months	\$0.0281 per kWh

#### NET ENERGY METERING RIDER – NEM -12 Page 5

3. The rates, as quoted herein, may be adjusted at any time, at the sole discretion of the Cooperative, to reflect the prevailing conditions.

# J. <u>TERM OF SERVICE</u>

The term of service under this rider shall be the same as that under the Distributed Generation Interconnection Agreement.

The bill is due upon receipt and payable within ten (10) days thereafter.

# **QUALIFYING FACILITIES RATE FOR POWER PURCHASES**

# **SCHEDULE QFPP-2**

# I. <u>PURPOSE</u>

A. The electric output of a generation facility that has been granted status as a qualifying facility ("QF") pursuant to Section 201 of the Public Utility Regulatory Policies Act of 1978 ("PURPA") will be purchased by Sawnee Electric Membership Corporation ("Corporation" or "Sawnee") in accordance with the current guidelines for qualifying facilities as specified by the Federal Energy Regulatory Commission ("FERC").

# II. <u>TYPE OF SERVICE</u>

- A. Unless otherwise provided by contract, the character of purchased power will be sixty (60) Hertz.
- B. Voltage, single or three-phase, shall be determined by the voltage of Sawnee's distribution lines in the vicinity unless otherwise agreed.

# III. <u>CONDITIONS OF SERVICE</u>

- A. The cogeneration or small power production facility must have been granted Qualifying Facility status by FERC.
- B. The QF must meet all of the requirements of the Corporation's applicable Distribution Generation Interconnection procedure and execute an interconnection agreement with the Corporation prior to connecting any generation facilities to the Corporation's distribution system.

# IV. <u>PURCHASE RATES</u>

- A. Cogeneration and small power production facilities that are QFs will receive payment for the electrical energy produced by the facility and delivered to the Corporation's system based upon the type of product produced and delivered and the Corporation's associated avoided cost of supply.
- B. The type of product will be defined on a "case by case" basis based on reliability, availability, dispatch capability, and the deliverable capacity and volume.

- C. The avoided cost will be determined on a "case by case" basis.
- D. The type of product to be produced and delivered by the QF will be considered, to the extent applicable, when determining the avoided cost.
- E. The QF will be responsible for and must reimburse the Corporation for any and all costs incurred by the Corporation to interconnect with the Corporation's distribution system.

# V. <u>TERMS OF PAYMENT</u>

A. Terms of payment will be determined on a case by case basis.

# VI. <u>WHOLESALE COST ADJUSTMENT</u>

A. Should there be any change in the manner in which the Corporation purchases or supplies power, including but not limited to changes in rates, terms or conditions, the cost of power, the method of service or other such factors, the Corporation reserves the right to modify the charges and provisions stated above correspondingly.

# VII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

A. Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

ADPOTED: November 18, 2004 February 20, 2014

EFFECTIVE: January 1, 2005 February 20, 2014

# **CRITICAL PEAK PRICING – RESIDENTIAL**

# **SCHEDULE CPPR-11**

#### I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative, in accordance with the Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Applicable to consumers that qualify for service under Schedule "H" and as allowed under Conditions of Service, listed below.

#### III. <u>CONDITIONS OF SERVICE</u>

- A. Service must be to a residential dwelling for permanent residential service. Non-residential loads and service to non-dwellings are excluded from this rate.
- B. The consumer agrees and commits to receive service under Schedule "CPPR" for a minimum of 12 consecutive months. Should the consumer receiving service under this schedule cease to receive service under this rate, for any reason, prior to their 12<sup>th</sup> month of service anniversary, a true-up calculation will be performed based on the then applicable residential rate (Schedule "H") and the cost differential will be considered payable and due.
- C. Schedule "CPPR" will be limited to applications from qualifying consumers on or after the effective date.
- D. Schedule "CPPR" will be further limited to new or existing consumers who meet energy efficiency construction requirements as specified by the Cooperative.
- E. The customer must agree to participate in Sawnee's load management program which will include load management switches on all centrally controlled air conditioning units as well as any other device that the Cooperative controls via its load management program, now or in the future.
- F. The Board of Directors reserve the right to change, modify or eliminate this rate entirely.
- G. The requesting party to receive service under this rate must agree to assist the Cooperative as it relates to communications access from the meter location to their land line access point and agree to provide the Cooperative access to this facility.

Schedule CPPR- 11 Page -2-

#### IV. <u>TYPE OF SERVICE</u>

Single-phase, 60 hertz, at available secondary voltages. Three-phase service is available under special terms and conditions for residential use only.

# V. <u>RATE – MONTHLY</u>

B.

A. <u>Base Charge</u>:

1.	Single-Phase	a	\$27.82 per month
2.	Three-Phase	@	\$55.39 per month
Energ	y Charge:		
1.	All kWh of Off-Peak Energy	@	\$0.0415 per kWh
2.	All kWh of On-Peak Energy	@	\$0.207 per kWh
3.	All kWh of Critical Peak Energy	a	\$0.950 per kWh

# VI. <u>MINIMUM CHARGES</u>

The minimum monthly charge shall be the sum of the applicable Base Charge as outlined in Section "V", "A" above plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA.

# VII. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

# VIII. <u>DETERMINATION OF ON-PEAK, OFF-PEAK ENERGY, AND CRITICAL PEAK</u> <u>ENERGY</u>

- A. <u>On-Peak</u>:
  - 1. The "On-Peak" Period shall be those hours, Monday Friday, beginning at 2 p.m. and ending at 8 p.m. during June 1 August 31, excluding July 4th and excluding "Critical Peak" hours.
  - 2. The On-Peak Energy shall be the kilowatt-hours recorded during the On-Peak hours.

#### B. <u>Critical Peak</u>:

- 1. "Critical Peak" hours are those hours during which the Corporation is operating its load management system.
- 2. The Critical Peak Energy shall be the kilowatt-hours recorded during the Critical Peak hours.
- C. <u>Off-Peak</u>:
  - 1. All hours that are not "On-Peak" or "Critical Peak" hours shall be considered to be the "Off-Peak" period.
  - 2. The Off-Peak Energy shall be the kilowatt-hours recorded during the Off-Peak hours.

#### IX. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

# X. <u>TERMS OF PAYMENT</u>

REVISED: June 21, 2018

The bill is due upon receipt and payable within ten (10) days thereafter.

# XI. ADDITIONAL ADJUSTMENTS AND RIDERS

The bill calculated at the above rate is subject to change in such an amount as may be determined under the provisions of the Corporation's Service Rules and Regulations or upon action by Sawnee EMC's Board of Directors including but not limited to termination of this schedule.

EFFECTIVE: July 2, 2018

ADOPTED	: October 19, 2006	EFFECTIVE:	January 4, 2007

# **CRITICAL PEAK PRICING – COMMERCIAL**

# **SCHEDULE CPPC-11**

#### I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative in accordance with the Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Applicable to loads that qualify for service under Schedule "SC".

#### III. <u>CONDITIONS OF SERVICE</u>

- A. The consumer must require permanent service.
- B. The consumer must agree to take service under Schedule "CPPC" for a minimum of 12 consecutive months.
- C. Schedule "CPPC" will be limited to applications from qualifying consumers on or after the effective date.
- D. The customer must agree to participate in Sawnee's load management program.

## IV. <u>TYPE OF SERVICE</u>

Single-phase, 60 hertz, at available secondary voltages. Three-phase service is available under special terms and conditions as described in the applicability section above.

#### V. <u>RATE – MONTHLY</u>

- A. <u>Base Charge</u>:
  - 1. Single-Phase @ \$27.82 per month
  - 2. Three-Phase (a) \$55.39 per month

Schedule CPPC-11

Page -2 -

- B. <u>Energy Charge</u>:
  - 1.All kWh of Off-Peak Energy@\$0.0415 per kWh
  - 2.All kWh of On-Peak Energy@\$0.207 per kWh
  - 3. All kWh of Critical Peak Energy @ \$0.9500 per kWh

# VI. <u>MINIMUM CHARGES</u>

A. <u>Single-Phase Service</u>

The minimum monthly charge shall be the sum of the applicable Base Charge as outlined in Section "V", "A" above plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA.

B. <u>Three-Phase Service</u>

The minimum monthly charge shall be the greater of:

- 1. The minimum monthly charge shall be the sum of the Base Charge as outlined in Section "V", "A" above plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA; or
- 2. The minimum monthly charge as stated in the Contract for Electric Service.

# VII. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

# VIII. DETERMINATION OF ON-PEAK, OFF-PEAK, AND CRITICAL PEAK ENERGY

- A. <u>On-Peak</u>
  - 1. The "On-Peak" Period shall be those hours, Monday Friday, beginning at 2 p.m. and ending at 8 p.m. during June 1 August 31, excluding July 4 and excluding "Critical Peak" hours.
  - 2. The On-Peak Energy shall be the kilowatt-hours recorded during the On-Peak hours.

Schedule CPPC-11 Page -3 -

- B. <u>Critical Peak</u>
  - 1. "Critical Peak" hours are those hours during which the Corporation has provided a signal that it is operating its load management system.
  - 2. The Critical Peak Energy shall be the kilowatt-hours recorded during the Critical Peak hours.
- C. Off-Peak
  - 1. All hours that are not "On-Peak" or "Critical Peak" hours shall be considered to be the "Off-Peak" period.
  - 2. The Off-Peak Energy shall be the kilowatt-hours recorded during the Off-Peak hours.

#### IX. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

#### X. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

## XI. ADDITIONAL ADJUSTMENTS AND RIDERS

The bill calculated at the above rate is subject to change in such an amount as may be determined under the provisions of the Corporation's Service Rules and Regulations or upon action by Sawnee EMC's Board of Directors including but not limited to termination of this schedule.

ADOPTED:	October 19, 2006	EFFECTIVE: January 4, 2007

# **TEMPORARY SERVICE**

# **SCHEDULE "TEMP"- 8**

# I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative, in accordance with the Cooperative's Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Applicable only for limited use in support of single phase load(s) that are considered by the Cooperative to be temporary or seasonal in nature, and for use incidental thereto supplied through one (1) meter to each individual location. The capacity of individual motors served under this Schedule shall not exceed 50 horsepower.

All three-phase accounts will be billed on their applicable three phase rate(s) and not under this schedule.

#### III. <u>TYPE OF SERVICE</u>

Single-phase, 60 hertz, at available secondary voltage. Three-phase service is not available under this rate. TEMP is for residential use only.

#### IV. <u>RATE-MONTHLY</u>

Base Charge - Single	@	\$30.76	per month
All Energy	@	\$0.1030	per kWh

#### V. <u>MINIMUM CHARGE</u>

1. The minimum monthly charge shall be the sum of the base charge stated above plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA.

Schedule TEMP-8 Page -2-

#### VI. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

#### VII. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

#### VIII. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

#### ADOPTED: November 15, 2007

EFFECTIVE: February 5, 2008

REVISED: January 15, 2009 January 21, 2010 August 18, 2011 September 19, 2013 September 18, 2014 September 1, 2015 June 21, 2018 EFFECTIVE: March 4, 2009 March 2, 2010 September 1, 2011 April 1, 2014 April 1, 2015 April 1, 2016 November 1, 2018

# **ELECTRIC MEMBERSHIP CORPORATION**

# PLUG-IN ELECTRIC VEHICLE (PEV)

# **SCHEDULE PEV-8**

#### I. <u>AVAILABILITY</u>

Available within the territory served by the Cooperative in accordance with the Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Applicable to consumers meeting the Schedule "PEV" Conditions of Service.

#### III. <u>CONDITIONS OF SERVICE</u>

- A. Service hereunder shall be metered separately by the Cooperative.
- B. The consumer must have a battery charging system for the purpose of charging a licensed plug-in electric vehicle (PEV).
- C. The consumer must require permanent year-round service to a battery charging system used solely to charge and/or discharge a PEV.
- D. The consumer must agree to take service under Schedule "PEV" for a minimum of 12 consecutive months.
- E. Schedule "PEV" will be limited to applications from qualifying consumers and loads receiving service on or after the effective date.
- F. An audit of the facilities interconnected may occur at any time to verify that only PEV load is connected to this service.
- G. A second meter, when applicable, must be in close proximity to an existing meter of the Corporation.

# IV. <u>TYPE OF SERVICE</u>

Single-phase, 60 hertz, at available secondary voltages (Three-phase service is not available under the terms and conditions as described herein).

B.

#### V. <u>RATE - MONTHLY</u>

#### A. <u>Base Charge</u>:

1.	Where service is to a stand-alone meter:	(a)	\$27.82 per month; or,
2. Ener	Where service to a second meter is tied to an existing service under another standard rate schedule: gy Charge:	@	\$12.00 per month
	<u>gy charge</u> .		
	<u>All</u> kWh of <u>Off-Peak</u> Energy	@	\$0.0415 per kWh
1.	All kWh of On-Peak Energy	@	\$0.280 per kWh

# VI. <u>MINIMUM CHARGES</u>

The minimum monthly charge shall be the A.1. Base Charge, plus \$1.00 per kVA of installed transformer capacity in excess of 25 kVA where Schedule PEV service is to a stand-alone meter. The minimum monthly charge shall be the A.2. Base Charge where Schedule PEV service is applied to a second meter.

# VII. WHOLESALE POWER COST ADJUSTMENT

The above rates shall be increased or decreased subject to the provisions of the Corporation's Wholesale Power Cost Adjustment Schedule "R".

# VIII. DETERMINATION OF ON-PEAK AND OFF-PEAK ENERGY

- A. The On-Peak Period shall be those hours, Monday Friday, beginning at 8 a.m. and ending at 8 p.m. year-round.
- B. All other hours shall be considered the Off-Peak Period.
- C. The On-Peak kWh shall be the kilowatt-hours recorded during the On-Peak Period.
- D. The Off-Peak kWh shall be the kilowatt-hours recorded during the Off-Peak Period.

#### IX. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

#### X. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

#### XI. ADDITIONAL ADJUSTMENTS AND RIDERS

The bill calculated at the above rate is subject to change in such an amount as may be determined under the provisions of the Corporation's Service Rules and Regulations or upon action by Sawnee EMC's Board of Directors including but not limited to termination of this schedule.

ADOPTED: January 20, 2011 August 18, 2011 September 19, 2013 September 18, 2014 September 17, 2015 September 15, 2016 June 21, 2018 March 19, 2020 EFFECTIVE: April 1, 2011 September 1, 2011 April 1, 2014 November 3, 2014 April 1, 2016 April 3, 2017 July 2, 2018 May 1, 2020

# VIRTUAL SOLAR RIDER (VSR)

# SCHEDULE VSR-3

## I. <u>AVAILABILITY</u>

Available throughout the territory served by the Cooperative, in accordance with the Cooperative's Service Rules and Regulations.

#### II. <u>APPLICABILITY</u>

Subject to the limitations and requirements of the Cooperative's Virtual Solar Rider (VSR) Program, and the Conditions of Service defined herein, and is applicable as a rider for Cooperative's members receiving service under the Cooperative's Schedule "H", Residential Service, and Schedule "SC", Small Commercial Service.

This schedule will be limited to qualified consumers receiving service on or after the effective date.

#### III. <u>TYPE OF SERVICE</u>

Single-phase or multi-phase, 60 hertz, at available secondary voltage.

#### IV. <u>RATE-MONTHLY</u>

Customers shall be billed for service hereunder as follows:

A. <u>Monthly Base Charge</u>

Virtual Solar Charge(s)

One (1) Block	<u>Two (2) Blocks</u>
1	\$43.50 per month \$31.00 per month
	\$21.75 per month

#### B. <u>Energy Disposition</u>

- 1. The energy credited to the consumer each month under this rate will be first credited against the consumer's total energy usage under their standard applicable retail rate.
- 2. Any excess solar energy, above the consumer's total usage, will be handled as outlined under Sawnee's NEM Rider.

# V. <u>CONDITIONS OF SERVICE</u>

Service hereunder will be subject to the following conditions:

- A. Each consumer will be limited to the energy output from no more than two (2) blocks per account under this rider. In cases where an account is seeking Leadership in Energy and Environmental Design (LEED) certification or has similar requirements, additional blocks above the amount stated herein will be considered on a case-by-case basis, at the sole discretion of the Cooperative.
- B. The amount of energy provided, per block, will vary from month-to-month and will be billed on a monthly basis, as described under the Cooperative's VSR Program and as may be amended from time to time by the Board of Directors.
- C. The amount of allocated energy, for the designed billing period, measured on a kilowatt hour (kWh) basis, shown on a consumers' billing statement, will be based on the actual energy production, adjusted for losses, from the associated solar asset(s) assigned to the VSR Program, for the period in question.
- D. Excess energy measured under this program will be subject to the terms and conditions stated herein, as well as in Section "F', Disposition of Energy, of the Cooperative's Net Energy Metering (NEM) Rider, and at such rates and charges as stated in Section "H", Rates and Charges for Net Metering Service and Section "I", Purchase Rate, of the Cooperative's Net Energy Metering (NEM) Rider.
- E. Renewable Energy Credits (RECs) relating to the energy "consumed" by a Customer under the VSR Program will become the property of the program participant. However, any excess VSR Program energy sold back to the Cooperative by a participant will be as prescribed in Schedule NEM, Section "G" and will become the property of the Cooperative, together with any applicable RECs.
- F. Consumers agree that the Cooperative may, in its sole discretion, change, alter or eliminate completely any aspect or the entire VSR Program as described herein.

# VI. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX OR OTHER TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

# VII. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

#### VIII. ADDITIONAL ADJUSTMENTS AND RIDERS

The bills calculated at the above rate are subject to changes in such amounts as may be determined under the provisions of the Corporation's Service Rules and Regulations or upon action by Sawnee EMC's Board of Directors, including but not limited to termination of this schedule.

ADOPTED: February 15, 2018 April 19, 2018 January 21, 2021 EFFECTIVE: May 1, 2018 May 1, 2018 January 22, 2021

# COMMERCIAL VIRTUAL SOLAR RIDER (CVSR)

# SCHEDULE CVSR-1

# I. <u>AVAILABILITY</u>

Available throughout the territory served by the Cooperative, in accordance with the Cooperative's Service Rules and Regulations.

# II. <u>APPLICABILITY</u>

Subject to the limitations and requirements of the Cooperative's Commercial Virtual Solar Rider (CVSR) Program, and the Conditions of Service defined herein, and is applicable as a rider for the Cooperative's members receiving service under Schedule "G" (Large General Service), Schedule "SCHS" (School Service), and Schedule "LPS" (Large Power Service).

This schedule will be limited to qualified consumers receiving service on or after the effective date.

#### III. <u>TYPE OF SERVICE</u>

Multi-phase, 60 hertz, at a standard distribution voltage or as designated.

# IV. <u>RATE-MONTHLY</u>

Customers shall be billed for service hereunder as follows:

A. <u>Monthly Base Charge</u>

Virtual Solar Charge(s)

<u>Period</u> April – September October – March <u>Per Block</u>

\$26.00 per month \$19.75 per month

- B. <u>Energy Disposition</u>
  - 1. The energy credited to the consumer each month under this rate will be first credited against the consumer's total energy usage under their standard applicable Cooperative retail rate.
  - 2. Any excess solar energy, above the consumer's total usage, will be handled as outlined under Sawnee's NEM Rider.

# V. <u>CONDITIONS OF SERVICE</u>

Service hereunder will be subject to the following conditions:

- A. Each consumer will be limited to the energy output from a maximum of fifty (50) blocks per account under this rider.
- B. The amount of energy provided, per block, will vary from month-to-month and will be credited on a monthly basis, as described under the Cooperative's CVSR Program and as may be amended from time to time by the Board of Directors.
- C. The amount of allocated energy, for the designed billing period, measured on a kilowatt hour (kWh) basis, shown on a consumers' billing statement, will be based on the actual energy production, adjusted for losses, from the associated solar asset(s) assigned to the CVSR Program, for the period in question.
- D. Customers under this rate will receive a calculated demand capacity credit for the energy purchased, adjusted for losses, for the designated billing period. The calculated demand capacity credit will be based on the Participant's actual energy used, the Participant's actual billing demand for the period, the number of subscribed blocks, and the assigned energy production, as provided for herein.
- E. Excess energy measured under this program will be subject to the terms and conditions stated herein, as well as in Section "F', Disposition of Energy, of the Cooperative's Net Energy Metering (NEM) Rider, and at such rates and charges as stated in Section "H", Rates and Charges for Net Metering Service and Section "I", Purchase Rate, of the Cooperative's Net Energy Metering (NEM) Rider.
- F. Renewable Energy Credits (RECs) associated with the energy "purchased" by a Member under the CVSR Program will become the property of the program participant. However, any excess CVSR Program energy sold back to the Cooperative by a participant will be as prescribed in Schedule NEM, Section "G" and will become the property of the Cooperative, together with any applicable RECs.
- G. Consumers agree that the Cooperative may, in its sole discretion, change, alter or eliminate any aspect of the entire CVSR Program as described herein.

# VI. FRANCHISE FEE, GROSS RECEIPT OR OCCUPATION TAX OR OTHER TAX

Any tax or franchise fee, gross receipt or occupation tax imposed by any governmental authority upon the service, or any component thereof, rendered under this Schedule will be added to bills calculated pursuant to the above rate.

Schedule CVSR-1 Page 3

#### VII. <u>TERMS OF PAYMENT</u>

The bill is due upon receipt and payable within ten (10) days thereafter.

### VIII. ADDITIONAL ADJUSTMENTS AND RIDERS

The bills calculated at the above rate are subject to changes in such amounts as may be determined under the provisions of the Corporation's Service Rules and Regulations or upon action by Sawnee EMC's Board of Directors, including but not limited to termination of this schedule.

ADOPTED: February 18, 2021

EFFECTIVE: April 5, 2021
