EXHIBIT__(RS/RT-10)

GEORGIA POWER COMPANY
Docket No. 44280
Georgia Power Company's 2022 Rate Case
Staff Data Request No. STF-LA-2

STF-LA-2-25

Question:

In the same format and detail as per the response to STF-L&A-1-29 in Docket No. 42516, please provide the actual obsolete and scrap material sales proceeds booked by GPC in each of the years 2016 through 2021 and for the 6-month period ended 6/30/2022. In addition, provide the obsolete and scrap material sales proceeds included in the forecasted test year ending July 31, 2023, and for each rate plan year, 2023, 2024 and 2025.

Response:

O&M scrap sales proceeds for GPC are as follows:

Year	Amount
2016	$ 1,465,670
2017	$ 1,149,340
2018	$ 713,035
2019	$ 737,674
2020	$ 1,544,267
2021	$ 1,369,796
1/1/22 – 5/31/22	$ 876,935

GPC's procedure for recording obsolete and/or scrap material sales is to credit salvage or O&M as appropriate for actual sales proceeds. Due to the uncertainty of such sales, no related proceeds are reflected in the forecasted test period or for each rate plan year, 2023, 2024, and 2025.
