BEFORE THE GEORGIA PUBLIC SERVICE COMMISSION

GEORGIA POWER COMPANY
DOCKET NO. 44280

Data Request No. STF-PIA-4-4

BASIS FOR THE ASSERTION THAT THE INFORMATION SUBMITTED IS A TRADE SECRET

As part of Georgia Power Company's 2022 Rate Case filed in Docket No. 44280 ("2022 Rate Case"), Georgia Power Company ("Georgia Power" or the "Company") submits to the Georgia Public Service Commission its response to STF-PIA-4-4 ("Response"). In the Response, the Company has provided cost projections for transmission and distribution capital budget expenditures (the "Information"). All such Information constitutes trade secret information of Southern Company, Georgia Power, and its affiliates and is therefore protected from public disclosure under Commission Rule 515-3-1-.11.

The Information derives economic value from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use. Specifically, the Information could give competitors and vendors an unfair advantage by showing individual components of the Company's costs, plans, strategies, and project configurations. With this Information, competitors and vendors could tailor proposals to set a price floor for equipment and services based on Georgia Power's expected costs to the detriment of the Company and customers. Lastly, the Company's competitors are generally not required to file this information, and to require the Company to do so would put it at an economic disadvantage.

The Information is subject to substantial procedures to maintain its secrecy. Only select Georgia Power and Southern Company Services personnel are granted access to the Information. Those personnel receive access only on a "need to know" basis. Parties outside the Company who have been granted access to the Information, if any, have been required to sign confidentiality agreements with respect to the Information.

GEORGIA POWER COMPANY
DOCKET NO. 44280

Data Request No. STF-WG-2-33

BASIS FOR THE ASSERTION THAT THE INFORMATION SUBMITTED IS A TRADE SECRET

As part of Georgia Power Company's 2022 Rate Case filed in Docket No. 44280 ("2022 Rate Case"), Georgia Power Company ("Georgia Power" or the "Company") submits to the Georgia Public Service Commission its response to STF-WG-2-33 ("Response"). In the Response, the Company has provided future expenditures related to the Grid Investment Plan (the "Information"). All such Information constitutes trade secret information of Southern Company, Georgia Power, and its affiliates and is therefore protected from public disclosure under Commission Rule 515-3-1-.11.

The Information derives economic value from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use. Specifically, the Information could give competitors and vendors an unfair advantage by showing individual components of the Company's costs, plans, strategies, and project configurations related to the Grid Investment Plan. With this Information, competitors and vendors could tailor proposals to set a price floor for products and services to the detriment of the Company and customers. Lastly, the Company's competitors are generally not required to file this information, and to require the Company to do so would put it at an economic disadvantage.

The Information is subject to substantial procedures to maintain its secrecy. Only select Georgia Power and Southern Company Services personnel are granted access to the Information. Those personnel receive access only on a "need to know" basis. Parties outside the Company who have been granted access to the Information, if any, have been required to sign confidentiality agreements with respect to the Information.

STF-WG-2-33

Question:

Refer to the Customer Benefits Study update provided by the Company in response to STF-REC-1-1, Table 1.2 on pages 2-3, and the six Packages listed. For each of the six Packages listed, please provide projected spending by FERC Account, by year, from 2023-2025, along with the depreciation period for each.

Response:

Please refer to STF-WG-2-33 Attachment for the projected amount to be spent, which are recorded to FERC account 107. The Company develops removal projections at the functional level and not the asset level; therefore, removal projections are not available. Please see Appendix Exhibit 2, Appendix C-2, page 157 for the depreciation periods for distribution equipment (FERC accounts 361 through 373).
