RE: Docket #32235

Ms. Tanner,

BellSouth Telecommunications, LLC d/b/a AT&T Georgia ("AT&T Georgia") has identified a mistake in the way it has been determining intrastate revenue that is subject to its quarterly contributions to the Universal Access Fund ("UAF"). Specifically, AT&T Georgia mistakenly has been including affiliate transaction (internal company accounts) revenue in the intrastate revenue that is subject to its contributions to the UAF.

Under GAAP, affiliate transaction revenue is not included in revenue AT&T reports publicly to investors. Additionally, affiliate transaction revenue is not included in revenue that is subject to AT&T's contributions to the Federal Universal Service Fund.

Accordingly, beginning in the third quarter of 2022, AT&T Georgia no longer will include affiliate transaction revenue in the revenue that is subject to its contributions to the UAF.

Per the Commission's rules addressing proprietary and/or trade secret information, AT&T will file information addressing the financial impact of this adjustment in the near future.

Finally, AT&T Georgia will not seek to recover any potential past contributions to the UAF on the basis of this adjustment.

Thank you,

Rich Johnson
