Ms. Tanner,

Attached is the Georgia Tech response to the NOA regarding Inspection JH22-011. We have included 5 printed copies as well as a CD with the same document in PDF format.

We believe that the amendments to our O&M manual meet the requirements of The Protecting Our Infrastructure of Pipelines and Enhancing Safety (PIPES) Act of 2020.

Please advise if there are any other actions required on our part.

Sincerely,
