Atlanta, GA 30334-5701

RE: Georgia Power Company's 2023/2024 Request for Proposals for Utility Scale Renewable Generation: Docket No. 43895

Dear Ms. Tanner:

In accordance with Georgia Public Service Commission ("Commission") Rule 515-3-4-.04(3)(d), and pursuant to Georgia Power Company's ("Georgia Power" or the "Company") 2023/2024 Request for Proposals for Utility Scale Renewable Generation ("RFP"), enclosed for filing are the End of Process Standards of Conduct Form, which includes the Acknowledgement, and the final RFP Evaluation Team list.

Every effort was made to contact members of the Evaluation Team who are now either retired or who have left Southern Company or Georgia Power employment (as indicated on the final Evaluation Team list) and despite best efforts, those End of Process Standards of Conduct Acknowledgments were not obtained. This filing concludes the RFP Process and constitutes the final filing for the RFP Evaluation Team.

The Company was unable to select any suitable resources with acceptable terms in accordance with RFP parameters amongst the bids submitted. Through the RFP Process, overseen by the Commission Staff and the Independent Evaluator, the Company identified the most competitive bids, all of which were ultimately eliminated due to economic evaluation or inability to cure bid deficiencies. The Company will notify the Commission of its plans to procure the unfilled MW to support customer subscriptions.

If you have any questions, please contact Marc Vinson at 404-506-2687.

Sincerely,

/s/ Kelley M. Balkcom

STANDARDS OF CONDUCT FOR GEORGIA POWER
DURING GEORGIA POWER'S
2023/2024 UTILITY SCALE RENEWABLE RFP PROCESS

1. Definitions. As used herein, the term:

(a) "**Bid Team**" collectively means any affiliate of Georgia Power that intends to submit a bid in response to the 2023/2024 Utility Scale Renewable RFP, as well as any other persons acting for that affiliate or on its behalf in support of the development and submission of such bid.

(b) "**Commission**" means the Georgia Public Service Commission.

(c) "**Evaluation Team**" collectively means the representatives of Georgia Power that will be evaluating the bids submitted in response to the 2023/2024 Utility Scale Renewable RFP, as well as any other persons acting for or on behalf of Georgia Power regarding any aspect of the RFP Process.

(d) "**Independent Evaluator**" or "**IE**" means an independent entity hired to facilitate the RFP Process.

(e) "**PPA Execution Date**" means the date on which a power purchase agreement between Georgia Power and the winning bidder(s) is executed pursuant to the RFP Process.

(f) "**RFP**" means the Renewable Utility Scale request for proposals expected to be distributed to the marketplace on the date approved by the Commission, identifying the desired resources, as set out in the Commission's Orders in Docket No. 42310 to be procured for Georgia Power's retail customers and for the Customer Renewable Supply Procurement Program ("**CRSP**") customers.

(g) "**RFP Process**" means the preparation and issuance of the RFP and all the activities subsequently associated therewith that are expected to terminate in the execution of a PPA between Georgia Power and the winning bidder(s) and in which an Independent Evaluator will participate.

(h) "**RFP Service Date**" means the date on which the Evaluation Team List is initially filed with the Commission (or such later date approved by the Commission).

2. No later than the RFP Service Date, the Evaluation Team will be separately identified and physically segregated from the Bid Team for purposes of all activities that are part of the RFP Process. The names and complete titles of each member of the Evaluation Team and the Bid Team will be reduced to writing and filed with the Commission for use by the IE. Following the RFP Service Date, at the time that any new member is added to either the Evaluation Team or the Bid Team, the requirements of this paragraph 2 will also be applied to such new member.

3. There will be no communications, either directly or indirectly, between the Evaluation Team or the Bid Team from the RFP Service Date through the PPA Execution Date pertaining to the RFP, the RFP documents, the RFP Process, the evaluation or the evaluation process or any related subjects, except (i) necessary communications as may be made through the IE and (ii) negotiations between the Evaluation

Team or the Bid Team for a final PPA in the event the Bid Team has been selected by Georgia Power as the winning bid(s). The Evaluation Team will have no direct or indirect contact or communications with any bidder pertaining to the RFP, the RFP documents, the RFP Process, the evaluation or the evaluation process or any related subjects other than through the IE website, as otherwise described in the RFP and further herein, until such time as a winning bid is selected by the Georgia Power and, in the event a PPA is selected, negotiations for a final PPA have begun.

4. At no time will any information regarding the RFP Process be shared with any bidder, including the Bid Team, unless the precise same information is shared with all bidders in the same manner and at the same time. In the event any bidder attempts to contact a member of the Evaluation Team directly pertaining to the RFP, the RFP documents, the RFP Process, the evaluation or the evaluation process or any related subjects, such bidder will be directed to the IE website for all information and such communication will be reported to the IE by the Evaluation Team member.

5. In the event any bidder, including the Bid Team, attempts to contact a member of the Evaluation Team directly pertaining to the RFP, the RFP documents, the RFP Process, the evaluation or the evaluation process or any related subjects, such bidder will be directed to the IE for all information and such communication will be reported to the IE by the Evaluation Team member. On or before the RFP Service Date, each Evaluation Team member will execute an acknowledgement that he or she agrees to abide by the restrictions and conditions contained in paragraphs 2 through 4 above. At the time that any new member is added to the Evaluation Team, following the RFP Service Date, such new member will execute an acknowledgement that he or she (a) agrees to abide by the restrictions and conditions contained in paragraphs 2 through 4 above, and (b) has not engaged in any communications on or after the RFP Service Date that would have violated paragraphs 3 or 4 above if such new member had been a member of the Evaluation Team as of the RFP Service Date. At the time the PPAs are executed, each member of the Evaluation Team will execute an acknowledgement (the form of which is attached hereto) that he or she has met the restrictions and conditions contained in paragraphs 2 through 4 above. These acknowledgements will be filed with the Commission by the Evaluation Team within ten (10) days of their execution.

Standards of Conduct End of Process Acknowledgement
(Evaluation Team)

I, _____, hereby acknowledge:

1. I am employed by Choose an item., and I served as a member of the Evaluation Team as defined in the attached "Standards of Conduct for Georgia Power During Georgia Power's 2023/2024 Utility Scale Renewable RFP Process" ("Standards of Conduct"), to assist Georgia Power Company with the evaluation of bids to be submitted in response to the 2023/2024 Utility Scale Renewable RFP to provide renewable energy to Georgia Power Company's retail and CRSP customers.

2. I previously executed a Standards of Conduct Acknowledgement and I hereby state that I have not engaged in any communications on or after the RFP Service Date that would have violated Paragraphs 2, 3 or 4 of the attached Standards of Conduct.

3. I hereby swear and affirm that I have abided by the requirements of Paragraphs 2, 3 and 4 of the attached Standards of Conduct and have not engaged in any communications that violated such Standards of Conduct.
