Attachment STF-240-4

Joseph A. "Buzz" Miller

President, Nuclear Development • Southern Nuclear
Executive Vice President, Nuclear Development • Georgia Power

Buzz Miller is president of nuclear development for Southern Nuclear. He is also executive vice president of nuclear development for Georgia Power. Miller serves on the management council at Southern Company, Georgia Power and Southern Nuclear. He is responsible for overseeing the development of Southern Company's nuclear generation expansion efforts.

Miller is a 1983 graduate of Auburn University with a Bachelor of Science in chemical engineering. His career began in the oil field and power plant service industries. He joined Alabama Power in 1986 in the chemistry and environmental support section of Nuclear Generation. He proceeded through a series of assignments at Alabama Power and Southern Nuclear prior to his assignment to Washington, D.C., in 1993 as Federal Affairs manager.

In 1998, Miller was selected to serve as assistant to Southern Company Chairman, President and CEO Bill Dahlberg. He returned to Washington in May 1999 after being elected Southern Company vice president of Government Relations. He was responsible for managing the company's Washington office staff and the company's efforts with the U.S. Congress and various executive branch agencies and officials. He served in this capacity until election to his current position in February 2006.

Miller's executive education includes a program at The Wharton School of Business, and he is a graduate of the Massachusetts Institute of Technology reactor technology course for utility executives. He was instrumental in the creation of the Auburn University Nuclear Power Generation Systems Advisory Board and currently serves on the Auburn University Engineering Alumni Council.

Miller is a 2015 inductee into the State of Alabama Engineering Hall of Fame.

Miller is married and has two children.
