Atlanta, GA 30334-9052

Re: DOCKET NO. 42959, Liberty Utilities (Peach State Natural Gas) Corp.'s Georgia Rate Adjustment Mechanism ("GRAM") - Annual Revenue True Up Filing

Dear Ms. Tyer:

In the Stipulation agreed to by Staff of the Georgia Public Service Commission ("Staff") and Liberty Utilities (Peach State Natural Gas) Corp. ("Liberty"), which was approved by the Commission without modification, Staff and Liberty agreed that, other than the limited number of issues specifically addressed within the Stipulation dated January 20, 2023, the 2020 GRAM Stipulation was reaffirmed and agreed to as if the text of the 2020 GRAM Stipulation were set forth within the January 20, 2023 Stipulation. Among the provisions within the 2020 GRAM Stipulation that remained in effect are the provisions within Paragraph 5 regarding the filing of the annual Revenue True Up ("RTU") adjustment by Liberty and Staff's written notice of any potential adjustments thereto that may be proposed by Staff.

Liberty filed the Company's current GRAM RTU (the "2022 RTU") in Docket 42959 on April 28, 2023. The purpose of this letter is to confirm our agreement regarding objections on the basis of timeliness. Staff sent the 17th set of Data Requests on June 5, 2023, requesting responses on or before June 20, 2023. Liberty provided partial responses on June 13, but indicated that the balance of the responses would not be available until after June 20 (the requested due date). Liberty intends to file the remaining responses on July 5, 2023. Liberty acknowledged that the delay in filing DR responses would likely adversely affect Staff's ability to present its recommendation regarding the 2022 RTU on or before the date set forth in the Stipulations referenced above. Therefore, Liberty committed that Liberty will not object on the basis of a written notice of a potential adjustment being untimely if Staff were to provide such notice to Liberty on or before July 20, 2023 (rather than June 30, 2023 as provided in the 2020 GRAM Stipulation). Likewise, Liberty will not object on the basis of untimeliness if a resulting issue were to be presented to the Commission no later than the *second* Energy Committee on or after August 1, 2022 (rather than the *first* Energy Committee on after August 1, 2023 as provided in the 2020 GRAM Stipulation).

This commitment to not object on the basis that such actions are "not timely made" is limited to this 2022 RTU filing, and is not intended to and shall not be construed to constitute a modification to the terms of the 2020 GRAM Stipulation going forward.

Sincerely,
MARK D. CAUDILL, LLC
