Re: Georgia Power Company's Plant Vogtle Unit 3 and Common Rate Adjustment Application; Docket No. 43838

Dear Ms. Tanner:

Enclosed for filing please find updated exhibits and supporting Minimum Filing Requirement ("MFR") schedules updating those submitted with Georgia Power Company's Unit 3 and Common Rate Adjustment Application on June 15, 2021, subsequently updated in July and September 2021. Pursuant to the Commission's Order in this proceeding, the Company is providing the updated exhibits and MFRs based on a July 2023 in-service date for Vogtle Unit 3.

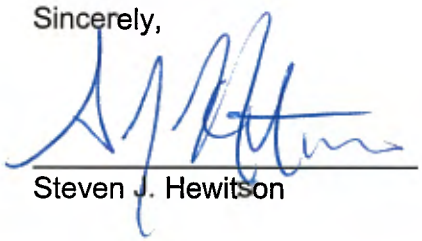

As shown in the exhibits and MFRs, the updated revenue requirement has increased from the estimated $302 million calculated in September 2021 to the current projected revenue requirement of $318 million. This increase in revenue requirement is driven primarily by the increase in projected interest rates for long-term debt compared to the Company's filing in 2021.

In this filing, the Company has updated all base tariffs to accommodate the Commission-approved transition of CWIP into rate base. The Company has also made corresponding reductions to the ECCR, NCCR, and DSM recovery riders to collect the previously approved 2023 revenue requirements associated with these programs. Finally, new tariffs with updated prices are included in this filing. The temporary rate adjustment riders will be applied beginning August 1, 2023, to facilitate the proration of the increase on that date. The new tariffs will take effect in August 2023, the month after Unit 3 reaches Commercial Operation, in accordance with the Commission-approved Stipulation in this docket and the Commission's Order on the Seventeenth Semi-Annual Vogtle Construction Monitoring Report in Docket No. 29849.

This filing contains certain information that is being filed under the trade secret rules of the Commission. Therefore, in addition to the trade secret documents, a redacted version has also been filed.

Please call me at (404) 885-3475 if you have any questions regarding this filing.

Sincerely,

Steven J. Hewitson
