Re: Notice of Atlanta Gas Light Company's Intent to Extend Facilities in Hall County
Docket No. 30707, 29331

Dear Mr. Chairman and Commissioners,

Atlanta Gas Light Company ("AGL") files this letter as notice to the Georgia Public Service Commission (the "Commission") and the Operators in Hall County that AGL intends to extend facilities within Hall County to serve the new subdivision known as Reunion West at Bailey Farms as shown in the map attached to this letter. AGL will file a Petition to Amend the Hall Countywide Safety Plan ("Hall CWSP") within 30 days of the filing of this notice.

AGL is simultaneously filing a withdrawal of its support for the proposed amendment to the Hall CWSP the Operators jointly filed with the Commission on February 7, 2023. The Hall CWSP filed with the Commission on February 7, 2023 was the result of negotiations between the City of Buford ("Buford") and AGL. As part of the Hall CWSP filed on February 7, 2023, AGL agreed to give Buford territory in Hall County in exchange for Buford giving AGL territory in Gwinnett County. Since then, Buford has refused to sign the consent agreement for the Gwinnett Countywide Safety Plan after AGL agreed to the Hall CWSP. Accordingly, AGL withdraws its support for the Hall CWSP.

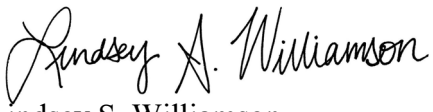

AGL requests that the Commission issue an order prohibiting Operators from laying pipe within the subdivision of Reunion West at Bailey Farms until the Commission rules on the proposed Hall CWSP filed on February 7, 2023 and the proposed amendment that will be filed within 30 days of this letter. The homes in the Reunion West at Bailey Farms subdivision have not yet been constructed and do not yet have gas service. There are currently no natural gas pipelines located in what will be the Reunion West at Bailey Farms Subdivision. The subdivision is currently located on the border of AGL's and Buford's safety boundaries as shown on the enclosed map,

with AGL's territory at the front portion of the subdivision and Buford's territory at the back. The Commission has a policy of not dividing subdivisions between two Operators' countywide safety plan boundaries, as doing so would create a safety issue for first responders when determining which operator to contact in the event of an emergency and for operators trying to quickly and safely respond to such emergencies. It is imperative that neither AGL nor Buford lay pipe within the subdivision until the Commission rules on the Hall CWSP to avoid dividing the subdivision between two Operators' countywide safety plan boundaries once the subdivision is constructed and able to take gas service.

Thank you for your attention to this matter.

Sincerely yours,

HOLLAND & KNIGHT LLP

Lindsey S. Williamson
