The attached estimate is for planning purposes only and cannot be used as a firm quotation from Atlanta Gas Light or our contractors. We will not be able to provide a firm quote until the project undergoes additional engineering and cost information is solicited from our vendors thru our formal bid process. The costs provided are based on rule of thumb estimates, local knowledge, and/o past history as well as mapping technologies. Keep in mind the estimated installation period can be delayed due to permitting delays and undetected terrain features (boring through rock formations, water crossings, etc.).
