DOCKET NO. 43107

IN RE: GEORGIA POWER COMPANY'S CUSTOMER-CONNECTED SOLAR PROGRAM

ORDER APPROVING REQUEST TO AMEND FIRST POWER PURCHASE AGREEMENT

In its July 29, 2019 Order Adopting Stipulation As Amended in Docket No. 42310 ("Final IRP Order") regarding Georgia Power Company's ("Georgia Power" or "Company") 2019 Integrated Resource Plan, the Georgia Public Service Commission ("Commission") approved a 50 megawatt ("MW") customer-sited distributed generation ("DG") program. Georgia Power designed the Customer-Connected Solar Program ("CCSP") to procure a 50 MW portfolio of DG solar photovoltaic resources sized greater than one kilowatt but not more than three MW. On May 26, 2020, the Commission issued an Order in Docket No. 43107 approving CCSP but reduced the MW to be procured for the CCSP from 50 MW to 25 MW, with the remaining 25 MW to be procured through a second iteration of the Renewable Energy Development Initiative (REDI) Customer-Sited DG program.

In its December 7, 2021 Order, the Commission approved and deemed certified the first DG CCSP Power Purchase Agreement ("PPA"). Because the facility capacity has increased from 1000 kW to 1500 kW an amendment to the DG CCSP PPA is necessary.

On November 29, 2023, Georgia Power and the Customer, American Family Life Assurance Company ("AFLAC") of Columbus, filed a jointly signed Amendment to the DG CCSP PPA. A copy of the Amendment was included as Attachment A to the filing.

The Commission approved Staff's recommendation at the December 19th, 2023, Administrative Session.
