RE: Georgia Power Company's CARES 2023 Utility Scale Renewable Request for Proposals, Docket No. 45084

Dear Ms. Tanner:

Georgia Power Company (the "Company") files this errata to its December 22, 2023, filing of the Final Approved documents in the CARES 2023 Utility Scale ("US") Request for Proposals ("RFP") in Docket No. 45084. In response to a bidder question, the Company discovered an error in two formulas included within Exhibit J to the CARES 2023 US Pro Forma Power Purchase Agreement ("PPA") for Energy with Storage Resources related to the (1) Energy Storage Performance Metric and (2) Charge/Discharge Rate Performance Metric. The narrative description of the calculations and the example provided in the storage guidance document are accurate as currently drafted. However, the current formulas for the Energy Storage Performance Metric and the Charge/Discharge Rate Performance Metric in the CARES 2023 US Pro Forma PPA for Energy with Storage Resources will be replaced with the revised formulas identified below:

Energy Storage Performance Metric

Current: $[\sum_{i=1}^{n}\left(\frac{\text{Daily Minimum Storage Capability}_I}{\text{SDOE}}\right)]*100$

Revised: $[\frac{\sum_{i=1}^{n}\text{Daily Minimum Storage Capability}_i}{\sum_{i=1}^{n}\text{SDOE}_i}]*100$

Charge/Discharge Rate Performance Metric

Current: $[\sum_{i=1}^{n}\left(\frac{\text{Lower of Daily Minimum Charge or Discharge Rate Limit}_i}{\text{Storage Device Max Rate of Charge or Discharge}}\right)]*100$

Revised: $[\frac{\sum_{i=1}^{n}\text{Lower of Daily Minimum Charge or Discharge Rate Limit}_i}{\sum_{i=1}^{n}\text{Storage Device Max Rate of Charge or Discharge}_i}]*100$

troutman pepper

The Company discussed this correction with both Commission Staff and the Independent Evaluator. A revised version of the CARES 2023 US Pro Forma PPA for Energy with Storage Resources with the updated formula will be posted on the IE Website and available for review by all potential bidders and interested parties.

If you have any questions regarding this filing, please call me at (404) 885-3779.

Sincerely,

Allison W. Pryor
