Re: DATA REQUESTS FROM INTERVENORS
Docket No. 43820

Dear Mr. Remar:

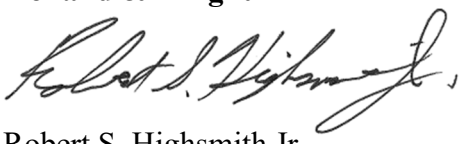

Atlanta Gas Light Company ("AGL" or the "Company") filed its 2025-2034 Integrated Capacity and Delivery Plan ("i-CDP") on February 1, 2024 in Docket No. 43820. Since then, Southstar Energy d/b/a Georgia Natural Gas intervened and later served data requests on AGL on March 20, 2024.

Intervenors in the i-CDP docket do not have discovery rights. Intervenors only have discovery rights where an intervenor becomes a party in a docket in which a gas company has filed an application to establish just and reasonable rates under O.C.G.A. §§ 46-2-23.1 or 46-4-154. Inasmuch as AGL's 2025-2034 i-CDP is not a rate case, AGL will not be filing responses to the data requests that you filed.

AGL periodically meets with Marketers to hear and discuss their concerns, and the Company has specifically engaged with Marketers to address issues related to the pending i-CDP. As an example, AGL included a session and provided opportunities for Marketers to ask questions regarding the pending i-CDP at the recent Marketer meeting in Adairsville, Georgia. AGL intends to continue this informal process of providing information to all Marketers regarding matters of interest and importance to them.

In accordance with the Alternative Electronic Filing procedures, AGL will provide a hard copy of this filing to the Commission. Please call me if you have any question concerning this letter.

Sincerely yours,
Holland & Knight LLP

Robert S. Highsmith Jr.
