BEFORE THE
GEORGIA PUBLIC SERVICE COMMISSION

In the Matter of	**)**	
GEORGIA POWER COMPANY'S	**)**	**Docket No. 55378**
2023 INTEGRATED RESOURCE PLAN	**)**	
UPDATE	**)**	

PROPOSED COMMISSION MOTION OF
THE UNITED STATES DEPARTMENT OF DEFENSE AND ALL OTHER FEDERAL EXECUTIVE AGENCIES

The United States Department of Defense, on behalf of itself and all other Federal Executive Agencies (DOD/FEA) respectfully files this Proposed Commission Motion for the Commission's consideration in Georgia Power Company's (Georgia Power) 2023 Integrated Resource Plan (IRP) Update proceeding (GPSC Docket No. 55378). DOD/FEA requests that the Commission make a motion to amend the Stipulation filed in this proceeding on 27 MAR 2024 by inserting the following new paragraph:

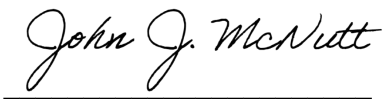

(22) Georgia Power is directed to remove existing caps and to expand its current and open request for proposals for the Georgia Clean and Renewable Energy Subscription Program (CARES) by at least 1,000 MWs of carbon pollution-free electricity.

In support of its Motion, DOD/FEA asserts that expanding the existing CARES program will substantially reduce the need for additional carbon-emitting generation resources in Georgia Power Company's generation fleet.

If the proposed new paragraph (22) is inserted into the Stipulation, DOD/FEA will support the Commission approving the Stipulation as so modified.

Dated: April 4, 2024

Respectfully submitted,

John J. McNutt
Regulatory Law Counsel
U.S. Army Legal Services Agency
Office of the Judge Advocate General
9275 Gunston Road, Suite 4300
