DOCKET NO. 44280

IN RE: GEORGIA POWER COMPANY'S 2022 RATE CASE.

ORDER APPROVING STAFF'S RECOMMENDATION FOR THE 2024 COMMUNITY CHARGER PLAN

On March 6, 2024, the Company filed its 2024 Community Charging plan, identifying eleven (11) locations for the placement of electric vehicle ("EV") charging stations as part of Georgia Power's Community Charging Program in accordance with Docket 44280 Georgia Power Company's ("GPC" or "Company") 2022 Rate Case. The Electric Transportation Term Sheet ("Term Sheet") attached to the Stipulation in Georgia Power's 2022 Rate Case and approved by the Commission on December 30, 2022, allowed interested parties to comment on the Plan within thirty (30) days of filing.

Figure 1. Eleven (11) Proposed EV Charging Stations

4	East Ave & Main St	Cedartown	Polk	30125
5	Hwy 52 & Hwy 411	Chatsworth	Murray	30705

10	Pierce St & 16th St	Alma	Bacon	31510
11	Main St & Valdosta Rd	Lakeland	Lanier	31635

The locations are pursuant to the following conditions:

a. **Locations** – The 2022 Rate Case Order provides an annual budget of up to $3 million for the program, and a stipulation that any proposed location is subject to a 60-day Right of First Refusal ("ROFR") process.

b. **Eligibility** – The location falls within a Tier 1 or Tier 2 county under the most current Job Tax Credit Rankings. The most recent Job Tax Credit Rankings for 2024 was presented to Governor Brian Kemp on January 3, 2024.

c. **15-mile restriction** – ROFR locations must be within a 15-mile radius from the Crossroads presented in the Company's filing.

On April 5, 2024, American's for Affordable Clean Energy ("AACE") filed comments on the Company's Plan. AACE, noted that all but one of the Company's proposals fall within the guidelines.

This exception is for proposed location 5 (Hwy 52 & Hwy 411) located in Murray County running within 1 mile of a Pending Alternative Fuel Corridor ("AFC") identified in round 7 by the Federal Highway Administration on November 7, 2023.

Using the criteria above, five (5) proposed locations have been selected under ROFR. On March 30, 2024 Country Corner/Fuel Express identified one (1) location subject to ROFR with proposed site 3 located in Jesup, GA. On May 2, 2024 Circle K identified two (2) locations within a 15-mile radius of Georgia Power's proposed sites; one site located in Jesup has also

been identified as a ROFR by Country Corner. This leaves site 10 in Alma being added to the ROFR list. On May 3, 2024 Pilot Travel Centers LLC identified three (3) locations within a 15-mile radius of Georgia Power's proposed sites: 2, 5, and 8 located in Toccoa, Chatsworth, and Royston respectively.

These ROFR's with their corresponding locations are shown in Figure 2 below.

Figure 2. ROFR Locations

In its response on April 15, 2024, the Company is aware of the pending AFC in Chatsworth. The Company does not intend to build a site within a mile of the eventual AFC and uses the crossroads presented as a guideline. Furthermore, the Company attests that it can't go into agreement with a prospective site host until a site has been approved by the Commission.

On May 16, 2024 Staff recommended the Commission issue an order to approve the six (6) remaining Community Charging locations presented in GPC's Plan for the year 2024.

The Commission unanimously approved Staff's recommendation at the May 21, 2024, Administrative Session.
