INTRASTATE ACCESS SERVICE

2. General Regulations

2.1 – 2.6 General Regulations for this tariff are contained in the following sections of the Staurulakis, Inc. (JSI) Federal Communications Commission (FCC) Tariff Number 1, 2010, and filed with this Commission on December 2, 2010. (C)

2.1 Undertaking of the Telephone Company
2.2 Use
2.3 Obligations of the Customer
2.4 Payment Arrangements and Credit Allowances
2.5 Connections
2.6 Definitions

2.7 Identification and Rating of VoIP-PSTN Traffic

(A) Scope

(1) VoIP-PSTN Traffic is defined as traffic exchanged between the Telephone Company end user and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at rates not to exceed interstate access rates by the Federal Communications Commission in its Report and Order in WC Docket No. 10-90, *etc.*, FCC Release No. 11-161 (November 18, 2011) ("FCC Order"). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Toll VoIP-PSTN Traffic") from the customer's traditional intrastate access traffic, so that such Toll VoIP-PSTN Traffic can be billed in accordance with the FCC Order. The term "Toll VoIP-PSTN Traffic" denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over Public Switched Telephone Network (PSTN) facilities, which originates and / or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and / or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

(B) Rating of VoIP-PSTN Traffic

The Toll VoIP-PSTN Traffic will be billed at rates equal to the Telephone Company's applicable tariffed interstate switched access rates as specified in the Telephone Company's applicable federal access tariff or the Telephone Company's applicable tariffed intrastate switched access rates as specified in the Telephone Company's applicable state access tariff, whichever is lower. Hereafter, these billed rates will be referred to in this tariff as the relevant "VoIP Rates.")

8. Billing and Collection Services (continued)

8.1 Recording Service (continued)

8.1.2 Undertaking of the Telephone Company (continued)

(F) Program Development charges, as set forth in 17.5.1(E) following, apply for the hours required to design, develop, test and maintain the necessary programs to provide customer requested data or accommodate customer provided changes.

8.1.3 Liability of the Telephone Company

- Notwithstanding 2.1.3 of the John Staurulakis, Inc. (JSI) Federal Communications Commission (FCC) Tariff Number 1, effective October 1, 2010, and filed with this Commission on December 2, 2010, the Telephone Company liability for Recording Service is as follows: (C)

(A) If customer message detail is not available because the Telephone Company lost or damaged tapes or incurred recording system outages, the Telephone Company will estimate the volume of lost customer messages and associated revenue based on previously known values. This estimated customer message volume will be included along with the customer message detail provided to the customer and/or provided for Message Processing Service. In such events, the extent of the Telephone Company's liability for damage shall be limited to the customer amounts due to account for the unbillable revenue.

(B) When the Telephone Company is notified that, due to error or omission, incomplete data have been provided to a customer, the Telephone Company will make every reasonable effort to locate and/or recover the data and provide new magnetic tapes to the customer at no additional charge. Such requests to recover the data must be made within 30 days from the date the details were initially made available to the customer. If the data cannot be recovered, the extent of the Telephone Company's liability for damages shall be limited as set forth in (A) preceding.

(C) In the absence of willful misconduct, no liability for damages to the customer or other person or entity other than as set forth in (A) and (B) preceding shall attached to the Telephone Company for its action or the conduct of its employees in providing Recording Service.

INTRASTATE ACCESS SERVICE

8. Billing and Collection Services (continued)

8.2 Message Billing Service (continued)

8.2.3 Liability of the Telephone Company

Notwithstanding Section 2.1.3 of the John Staurulakis, Inc. (JSI) Federal Communications Commission (FCC) Tariff Number 1, effective October 1, 2010, and filed with this Commission on December 2, 2010, the Telephone Company liability for Message Billing Service is as follows: (C)

(A) If Bill Processing Service detail is not available because the Telephone Company lost or damaged records or incurred processing system outages, the Telephone Company will attempt to recover the lost customer detail. If the lost customer detail cannot be recovered and the Telephone Company recorded the details, the customer detail and the extent of the Telephone Company's liability for damages will be as set forth in 8.1.3(A) preceding. If the lost customer detail cannot be recovered and the customer provided the detail, the customer will be requested to resupply the detail. If the customer cannot resupply the detail, the detail and the extent of the Telephone Company's liability for damages will be as set forth in 8.1.3(A) preceding. This recovered detail will be included in message detail provided to the customer when the customer orders such service and any recovered customer messages will be billed.

(B) When the Telephone Company is notified that, due to its error or omission, incomplete customer detail has been provided, as set forth in 8.2.2(A)(8) preceding and/or 8.3 following, to a customer, the Telephone Company will make a reasonable effort to recover and provide the customer detail to the customer at no additional charge. Such request to recover the customer detail must be made within 30 days from the date the customer detail was initially made available to the customer. If the detail cannot be recovered, the extent of the Telephone Company's liability for damages shall be limited as set forth in 8.1.3(A) preceding.

(C) If the Telephone Company finds, or is notified of, an error in billing to an end user, it will make a reasonable effort to correct the error and bill the appropriate end user within the limits permitted by laws of the state in which it provides the service. If the error is caused by the Telephone Company and the Telephone Company cannot bill the proper end user in a timely manner, the extent of the Telephone Company's liability for damages will be the known amount misbilled or when the amount misbilled is unknown, limited as set forth in 8.1.3(A).

8. Billing and Collection Services (continued)

8.3 Billing System Information Service (continued)

8.3.2 Undertaking of the Telephone Company (continued)

(D) (continued)

determine the period of time to implement such service on an individual order basis.

8.3.3 Liability of the Telephone Company

Notwithstanding Section 2.1.3 of the John Staurulakis, Inc. (JSI) Federal Communications Commission (FCC) Tariff Number 1, effective October 1, 2010, and filed with this Commission on December 2, 2010 in the absence of willful misconduct, no liability for damages to the customer or other person or entity shall attach to the Telephone Company for its action or the conduct of its employees in providing Billing Information Service. (C)

8.3.4 Obligations of the Customer

(A) The customer shall order Billing System Information Service under a Special Order. The customer shall order those Billing System Information Services for the states where it wishes to receive the services and shall specify how often it wishes the service to be provided.

(B) With each order, the customer shall identify the authorized individual and address to receive the Billing System Information Service output.

(C) The customer shall take every effort to make sure that Billing System Information Service output is provided only to authorized personnel. The customer shall agree, in writing to the Telephone Company, that the customer will not provide the Billing System Information Service outputs to third parties for any use by such third parties except for work for the customer and which is under complete control of the customer.

(D) The customer shall be responsible for all contacts and inquiries from its end users concerning Billing System Information Service.

(E) When the customer orders marking, all accounts containing that customer's messages will be marked starting with the next bill period and marks will be made until the customer orders removal of all marks.

INTRASTATE ACCESS SERVICE

8. Billing and Collection Services (continued)

8.3 Billing System Information Service (continued)

8.3.5 Payment Arrangements

(A) Cancellation of a Special Order

A customer may cancel a Special order for Billing System Information Service on any date prior to the service date. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the Special Order is to be canceled. The verbal notice must be followed by written confirmation within 10 days. The service date for a Billing System Information Service is the date the Telephone Company notifies the customer that the Telephone Company is ready to provide Billing System Information Service reports.

When a customer cancels a Special Order for Billing System Information Service after the order date but prior to the start of service, charges as listed following shall apply:

(1) For any service, the appropriate per hour rate for all hours expended by the Telephone Company to provide the service.

(2) For any service, any expense for equipment obtained for the service where such equipment cannot be reused within six months.

(B) Changes to Special Orders

When a customer requests changes for a pending Special Order for Billing System Information Service, any additional time required on the part of Telephone Company personnel will be billed to the customer at the appropriate hourly charges.

8.3.6 Rate Regulations

(A) The Provision of Billing System Information Service Special Order Charge (17.5.3(A)) applies for each Special Order accepted by the Telephone Company for Billing System Information Service.

(B) Billing System Information Detail Charges (17.5.3(B)) apply when records are entered on a data file or magnetic tape in order to provide information to a customer. A record is a logical grouping of information as described in the programs that process the

INTRASTATE ACCESS SERVICE

8. Billing and Collection Services (continued)

8.3 Billing System Information Service (continued)

8.3.6 Rate Regulations (continued)

(B) (continued)

information. For each service and type of output ordered, the number of records processed by the Telephone Company to prepare the output will be used to determine the charges. The number of records processed will be determined using the number of records input to or the number of records output from the programs that process the information, whichever number of records is higher. The per tape charge applies for each tape prepared.

(C) The Program Development charges (17.5.3(C)) apply on either a basic or premium basis when the Telephone Company is required to make programming changes to meet customer needs. The Telephone Company will keep a count of the hours and fraction thereof to provide program development and will bill the customer accordingly. The hours will be summed and then rounded to the nearest hour. When the total is less than one hour, a one hour minimum will be used to determine the charges.

(D) The rate associated with Data Transmission of Billing System Information Service details, to a location designated by the customer (17.5.3(D)), applies when Billing System Information Service detail is data transmitted by the Telephone Company to a location designated by the customer. This charge applies on a per record transmitted basis.

(E) The Marking of Message End User Accounts charge (17.5.3(E)) applies for each end user account marked. No charge applies for the removal of all customer marks.

(F) Individual Case Filing service offerings are described in 17.5.4 following. The rates and charges provided on an Individual Case Basis as the result of Individual Case Filings are described in 17.5.4 following.
