Re: Georgia Power's Hourly Customer Usage Data Program; Docket No. 55485

Dear Ms. Tanner:

In response to Paragraph 44 of the Georgia Public Service Commission's Order (the "Order") in the above-referenced Docket, Georgia Power Company (the "Company") now provides hourly usage data through the My Power Usage tool to all residential and commercial accounts with a few limited exceptions. The Company's My Power Usage tool has also been modified and enhanced as of March 27th, 2024, to export hourly usage data in bulk. This new feature allows customers to export 12 months of hourly data in an 8760 format. The Company plans to monitor and may expand this offering to 24 months pending a successful performance review. The cost of this upgrade was $95,000 and was completed within approximately fifteen months from the last base rate case order. With this improvement, the Company complies with the hourly usage data requirements laid out in Paragraph 44 of the Order.

Please call me at 404-506-3044 if you have any questions regarding this filing.

Sincerely,

/s/ Kelley M. Balkcom
