After August 18, 2018, i-wireless, LLC (the “Company”) did purchase smartphones produced by ZTE Corporation. The Company purchased these devices from third-party resellers, not direct from ZTE Corporation. However, there are no ZTE smartphones that were purchased by the Company that are: currently owned by the Company; in use and leased to end user customers; or in the inventory of the Company. Of the ZTE smartphones that the Company purchased, there are 7 ZTE smartphones that remain active with an end user. The Company has been actively reaching out to the customers with a ZTE device and offering those customers a device upgrade at no charge.
