RE: Notice to Commission of Transfer to Affiliates, Docket No. 9355

Dear Ms. Tanner:

In accordance with the Commission's Final Order in Docket No. 9355, Georgia Power Company ("Georgia Power" or the "Company") provides notice to the Georgia Public Service Commission ("Commission") of the Company's intent to sell an alignment grid to Alabama Power Company ("APC"). Because APC is an affiliate of Georgia Power, notice to the Commission is required. *Order Adopting Modified Stipulation*, Docket No. 9355-U (Dec. 21, 1998) ("Affiliate Transaction Standards"), Attachment 2 at 6, ¶ 15(b). Georgia Power intends to close this transaction in 2024, after the 60-day notice period has run. Approval by the Commission of this transaction is not required.

The alignment grid was uniquely designed for use as part of the scrubber assembly at Plant Wansley. Following the retirement of Plant Wansley, Georgia Power no longer has a need for the alignment grid and was expected to incur an incremental cost of approximately $300,000 to demolish and dispose of the equipment.

In lieu of Georgia Power incurring the disposal cost, APC has expressed an interest in buying the scrubber alignment grid and retrofitting it for use at Plant Barry. APC has proposed a purchase price of $134,816, plus payment for any associated transportation costs. At the time of Plant Wansley's retirement, the scrubber alignment grid had a net book value of $3,836,034, with Georgia Power's ownership share valued at $2,052,278. Georgia Power has not identified a purchaser for this equipment other than APC and desires to sell the equipment to APC instead of paying to dispose of the equipment.

The transaction is priced fairly, is in the public interest, and receiving a positive value from this transaction will result in savings to Georgia Power's customers by foregoing demolition and disposal costs.

Please call me at 404-506-3044 if you have any questions regarding this filing.

Sincerely,

/s/ Kelley M. Balkcom
