Re: Georgia Power Company's 2023 Distributed Generation Request for Proposals for Solar Photovoltaic Generation; Docket No. 44942

Dear Ms. Tanner:

Georgia Power Company's ("Georgia Power" or the "Company") 2023 Distributed Generation Request for Proposals for Solar Photovoltaic Generation ("2023 DG RFP"), approved by the Georgia Public Service Commission (the "Commission") on August 15, 2023 in Docket No. 44942, has concluded. Georgia Power hereby submits the final list of the executed Power Purchase Agreements ("PPAs") between Georgia Power and the winning bidders in the program, and hereby requests an additional sum in accordance with the Commission's Final Order approving Georgia Power's 2022 Integrated Resource Plan ("2022 IRP") issued in Docket No. 44160. The 2023 DG RFP's final portfolio of 12 winning PPAs consists of approximately 41.381 megawatts ("MW").

Between August 20, 2024 and October 24, 2024, Georgia Power submitted four requests to the Commission, seeking certification of 13 executed PPAs from the 2023 DG RFP. However, after being deemed certified by the Commission, one PPA will be terminated pursuant to Section 9.1.7 of the PPA as a result of Seller's failure to pay Interconnection Costs. Therefore, as a final program summary, Georgia Power has attached hereto, as Attachment 1, a spreadsheet that includes project-specific information for the final portfolio of 12 successful DG solar projects.

Pursuant to the Commission's 2022 IRP Final Order, Georgia Power is approved to recover a levelized additional sum of $4.00/kW-yr for the DG solar projects procured through the 2023 DG RFP. The 2022 IRP Final Order states, in pertinent part, that "additional sum for ... DG resources ... shall be set at a levelized additional sum of $4.00/kW-yr."[1] Georgia Power has provided the project-specific information to support the additional sum request to Staff. Georgia

[1] *Order Adopting Stipulation*, Georgia Power Company's 2022 Integrated Resource Plan, Georgia Public Service Commission, Docket No. 44160 (July 29, 2022) at 25.

Power requests an additional sum for the 12 DG projects with executed PPAs, which totals to a levelized amount of $165,524.00 per year for a term of 30 years.

Please contact me at (404) 885-3779 if you have any questions regarding the summary of certified PPAs and the Company's additional sum request for the executed PPAs from the 2023 DG RFP.

Sincerely,

Allison W. Pryor
