5. Access Ordering

5.1 – 5.5 Regulations pertaining to Access Ordering are contained in the following sections of the CenturyLink Operating Companies Tariff F.C.C. No. 7, effective as of April 30, 2011, and filed with this Commission on May 20, 2011.

5.1 General
5.2 Ordering Requirements
5.3 Access Orders for Services by More Than One Telephone Company
5.4 Charges Associated with Access Ordering

5.6 Shared Use Facilities (N)

Shared use occurs when Special Access Service and Switched Access Service are provided over the same Special Access facility through a common interface. The Special Access monthly rate for the Channel Termination, Channel Mileage, if applicable, and multiplexer will apply, regardless of whether any individual channels of the Shared Special Access facility are used for Special Access Service, Switched Access Service, or any other type of service. The practice known as "ratcheting" (to apply non-Special Access rates on a proportional basis) shall not apply in any circumstance. (N)

* This flat rated charge was calculated based upon a 50/50 split between originating and terminating. The FCC in their FCC 11-161 ICC Transformation order in Section 51.907(d)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. When the terminating portion of the rate is reduced and then combined with the originating portion of the rate, a single flat rate is generated for billing purposes.
