DOCKET NO. 44942

IN RE: GEORGIA POWER COMPANY'S 2023 DISTRIBUTED GENERATION REQUEST FOR PROPOSALS

ORDER APPROVING ADDITIONAL SUM REQUEST

On October 28, 2024, Georgia Power Company ("Georgia Power" or "Company") filed its final list of executed Power Purchase Agreements ("PPAs") between Georgia Power and the winning bidders in the 2023 Distributed Generation ("DG") Request for Proposals ("RFP"). In this filing, the Company also requested an additional sum. The 2023 DG RFP's final portfolio consisted of 12 projects totaling approximately 41.381 megawatts ("MW"). Between August 9, 2024, and October 24, 2024, Georgia Power submitted four requests to the Georgia Public Service Commission ("Commission"), seeking certification of 13 executed PPAs. However, after receiving Commission approval, 1 PPA was subsequently terminated pursuant to Section 9.1.7 of the PPA as a result of Seller's failure to pay Interconnection Costs.

Pursuant to the Commission's 2022 Integrated Resource Plan Order Adopting Stipulation, Georgia Power is allowed to recover a levelized additional sum of $4.00/kW-yr for the projects procured through the 2023 DG RFP. Specifically, Paragraph 23 of the Commission approved stipulation states:

23. The additional sum for both the utility scale resources procured pursuant to Paragraph 19 above and the DG resources in Paragraph 22 shall be set at a levelized additional sum of $4.00/kW-yr.

In the October 28, 2024 filing, Georgia Power requested a levelized additional sum of $165,524 per year for 30 years. Georgia Power provided project-specific information to support its additional sum request to Commission Staff ("Staff") for review.

After review of the Company's filing, Staff recommended approval of the Company's 2023 DG RFP additional sum request.

The Commission approved Staff's recommendation at the November 19, 2024, Administrative Session.
