EXHIBIT “A”

STATE OF GEORGIA,

CLARKE COUNTY:

AFFIDAVIT OF NEVILLE A. ANDERSON

Personally appeared before me, the undersigned officer duly authorized to administer oaths, NEVILLE A. ANDERSON, who upon being duly sworn, deposes and states as follows:

1.

I reside at 1131 Tanglebrook Drive, Athens, Clarke County, Georgia 30606. I am over the age of eighteen (18) years and competent to testify to the matters contained herein. I am aware that this affidavit will be used in support of a "MOTION FOR RECONSIDERATION" of the Public Service Commission's "Order denying RGP Bowman Solar, LLC's Request to Initiate a Procedural and Schedule Order to Determine the Reasonableness of Interconnection Costs" in Docket 4822, and I consent to its use therein and for any other purpose permitted by law.

2.

I am the Managing Member of RGP Bowman Solar, LLC ("Bowman"), a Georgia limited liability company maintaining its principal place of business at 1131 Tanglebrook Drive, Athens, Clarke County, Georgia 30606. In my capacity as Managing Member of Bowman, I am responsible for conducting all facets of Bowman's business.

3.

Bowman was organized to develop a 76.53 MW solar photovoltaic ("PV") generation facility (the "QF Facility") with 9.72 MVA Battery Energy Storage System ("BESS") located on approximately 342 acres at 2375 Georgia Highway 172, Bowman, Elbert County, Georgia 30642 (the "Subject Property").

4.

As Managing Member of Bowman, I oversee and am responsible for the planning and development of Bowman's QF Facility. I have performed these tasks from its creation in 2021 through today.

5.

I retained the services of Mr. Howard Smith to consult on the development of the QF Facility and to handle tasks required for its interconnection with Georgia Power Company's ("Georgia Power" or the "Company") electric grid. Mr. Smith has many years of experience in transmission design planning and integrated resource management.

6.

I retained the services of Mr. John Kelley to consult with Bowman to review and address the interconnection requirements and costs for the QF Facility identified by Southern Company Services ("SCS") in the "Qualifying Facility Study – Phase II" which issued on January 8, 2024.

7.

I retained the services of Mr. Bob Thomas to consult with Bowman on local government, land use and zoning issues.

8.

I retained necessary legal counsel to assist Bowman, as needed, with the development of the QF Facility.

9.

Bowman identified the Subject Property for location of the QF Facility in Elbert County. It secured an option to purchase the Subject Property for development of the QF Project. Bowman makes regular payments to the current property owner to continue its option rights.

10.

Bowman secured zoning approval to develop the QF Facility on the Subject Property from Elbert County on June 13, 2022. Bowman has secured access to public right of way in both Elbert and Hart Counties.

11.

On May 16, 2022, I attended a project kick-off meeting with Company and SCS personnel on site. They viewed the location proposed for the QF Facility and the Point of Interconnection ("POI").

12.

Prior to the kick-off meeting, the Company recommended moving the POI to the Bio-Center line, and Bowman cooperated with that suggestion. To that end, Bowman acquired a 12.2 acre tract in Hart County located on Old Elberton Road, designated by parcel number C23 133 006 on which the POI will be constructed. The purchase price was $135,000.

13.

In the four (4) years that Bowman has worked on the QF Facility, Bowman has incurred approximately $700,000 in development costs for the project. In addition, I have contributed approximately an additional $600,000 of my personal funds toward its development.

Further, Affiant saith not.

NEVILLE A. ANDERSON

Sworn to and subscribed before me
this 6th day of December, 2024.
