Demand-Side Management Plan	)	

JOINT APPLICATION OF GEORGIA INTERFAITH POWER & LIGHT AND SOUTHFACE ENERGY INSTITUTE FOR LEAVE TO INTERVENE

Georgia Interfaith Power & Light (GIPL) and Southface Energy Institute (Southface), through counsel, hereby apply to the Georgia Public Service Commission for leave to intervene in the above-referenced dockets pursuant to O.C.G.A. §§ 46-2-59 and 50-13-14 and Commission Rule 515-2-1-.06. In support of this application, GIPL and Southface respectfully show the Commission as follows:

1.

On January 31, 2025, Georgia Power Company filed its 2025 Integrated Resource Plan, for which it seeks Commission approval. On January 31, 2025, Georgia Power also filed an application for the certification of its amended demand side management (DSM) plan.

2.

This application for leave to intervene is timely filed pursuant to the Commission's Procedural and Scheduling Order.

3.

Georgia Interfaith Power & Light is a 501(c)(3) nonprofit organization headquartered in Decatur, Georgia. GIPL represents the interests of communities of faith in promoting environmental justice, energy conservation, energy efficiency, renewable energy, and related sustainable practices. GIPL engages faith communities in the stewardship of Creation. GIPL is a growing organization with more than 350 member congregations across the state of Georgia representing a wide variety of faiths and over 150 congregationally based Green Teams working to advance GIPL's objectives. While several of GIPL's participating congregations are located throughout the Atlanta metropolitan area, many are located in other areas of the State, including the Acworth, Adel, Albany, Athens, Augusta, Brunswick, Canton, Carrollton, Clayton, Covington, Dalton, Darien, Ellijay, Gainesville, Kennesaw, Macon, Newnan, Roswell, Sautee-Nacoochee, Savannah, Valdosta, Warner Robins, and Waycross areas.

4.

GIPL has an interest in the 2025 Georgia Power IRP and DSM proceedings both on its own behalf and on behalf of its members. Many of GIPL's participating congregations and members of those congregations purchase electricity from Georgia Power Company, both for their places of worship and for their individual residences. Their electricity consumption and costs for electricity will be affected by the Commission's actions in this docket.

5.

Additionally, GIPL's core mission is to inspire and equip communities of faith to organize, implement practical climate solutions, and advocate across Georgia on issues of climate change, environmental justice, and community resilience. GIPL's mission is thus directly implicated by Georgia Power's supply- and demand-side choices as proposed in its IRP and DSM plans. GIPL's mission is further implicated by the extent to which the Commission and Georgia Power's process

for choosing electric resources is transparent and accessible, to provide for member education and engagement in these important policy choices. GIPL intends to address the concerns of both itself and its members regarding how Georgia Power's proposals—and Georgia Power and the Commission's processes—impact both God's Creation and the resulting bills that customers, and in particular low-income customers, pay. GIPL envisions a Georgia where all people live safely in a healthy environment, a stable climate, and resilient communities. As a result, GIPL has substantial and vital interests in the outcome of these proceedings and seeks to intervene to protect these interests. No other party in this case shares GIPL's unique interests.

6.

In furtherance of its interests and on behalf of its members, GIPL has intervened in many prior proceedings before the Commission, including: Georgia Power's 2023 Biomass Request for Proposals, Docket No. 44880; Georgia Power's 2023 IRP Update and Application for Certification of Plant Yates Units 8-10, Docket No. 55378; Georgia Power's 2022 Rate Case, Docket No. 44280; Georgia Power's 2022 IRP and DSM proceedings, Docket Nos. 44160, 44161; Georgia Power's 2020 PURPA Avoided Cost proceedings, Docket Nos. 4822, 16573, 19279; Georgia Power's 2019 Base Rate Case, Docket No. 42516; Georgia Power's 2019 IRP and DSM proceedings, Docket Nos. 42310, 42311; the 2017-2018 DSM Working Group and the 2014-16 DSM Working Group, Docket Nos. 41253, 38401; Georgia Power's 2016 IRP and DSM proceedings, Docket Nos. 40161, 40162; Georgia Power's Application for Certification of a Green Energy Program and Green Energy Pricing Tariff, Docket No. 16573; Georgia Power's 2015 and 2016 Advanced Solar Initiative Prime, Docket No. 38877; the Notice of Inquiry and Workshop to Examine Issues Related to the Value of Renewable Resources and Distributed Energy Resources, Docket No. 39732; Georgia Power's 2010 IRP and DSM proceedings, Docket Nos. 31081, 31082; and Georgia Power's Seventeenth, Eighteenth, Nineteenth, Twentieth/Twenty-First, Twenty-

Second, Twenty-Third, Twenty-Fourth, Twenty-Fifth, Twenty-Sixth, Twenty-Seventh, Twenty-Eighth, and Twenty-Ninth Semi-Annual Construction Monitoring proceedings, Docket No. 29849.

7.

The interests of GIPL and its participating congregations are not adequately represented by other parties to these proceedings. Other parties that have applied to intervene do not have interests similar to those of GIPL. The applicant's intervention would not unduly delay the proceedings or prejudice the rights of other parties.

8.

Southface is a 501(c)(3) non-profit organization that has promoted energy-, water-, and resource-efficient workplaces, homes, and communities throughout the Southeast for more than four decades. Southface works with consumers, the construction and development industry, and policymakers to advance clean energy goals through education, research, advocacy, and technical assistance. Southface offers market-based solutions that create jobs and support sustainable communities. Southface's members reside across the state.

9.

Southface has extensive expertise in the use and installation of the kinds of energy efficiency and energy management technologies that are the basis of the Company's proposed energy efficiency programs. Southface is one of the leading organizations in the Southeast on how to achieve energy efficiency in buildings. Southface has conducted research and provided education and technical assistance on such technologies for over 40 years. Southface advises companies, nonprofits, communities, and residential customers in Georgia and across the Southeast on how to cost-effectively meet their energy and sustainability goals. Southface brings unique interests and perspectives to these proceedings.

10.

In furtherance of its interests and on behalf of its members, Southface has intervened in many prior proceedings before the Commission, including: Georgia Power's 2022 Rate Case, Docket No. 44280; Application for the Certification, Decertification, and Amended DSM Plan, Docket No. 44161; Georgia Power's 2022 IRP, Docket No. 44160; 2020 DSM Working Group, Docket No. 43040; Georgia Power's 2019 Base Rate Case, Docket No. 42516; 2017 DSM Working Group, Docket No. 41253; Georgia Power's 2016 DSM Program, Docket No. 40162; Georgia Power's 2016 IRP, Docket No. 40161; 2014 DSM Working Group, Docket No. 38401; 2011 DSM Working Group, Docket No. 34414.

11.

If this application is granted, GIPL and Southface, through its counsel, intend to participate fully and jointly in this docket, including cross-examining witnesses, filing and presenting direct testimony, and filing proposed orders and/or briefs. GIPL and Southface have not yet finalized plans for direct testimony but expect to explore a number of issues in testimony, including but not limited to, Georgia Power's large load growth projections, expansion of the DSM portfolio, improvement of solar programs, and management of the energy load balance shifting towards the largest users.

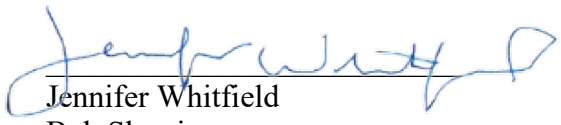

12.

GIPL and Southface respectfully request that the following persons receive all notices, correspondence and copies of orders and other materials in this docket, and be placed upon the official service list:

Jennifer Whitfield
Bob Sherrier
Amitav Kamani
Tia McGee
Southern Environmental Law Center
Ten 10th Street NW, Suite 1050
Atlanta, Georgia 30309
