****** ATTENTION PLEASE READ ****** ****** ATTENTION PLEASE READ ******

You have just received a Notice of Probable Violation (NOPV) from The Georgia Public Service Commission (PSC) and here is why.

Anytime a buried public utility is damaged by mechanized equipment, by law that utility operator must repair the damaged utility and then report the incident to The PSC within 30 days. That utility operator is also required by law to do an investigation to determine the cause of the damage. If the damage was a result of an error made by the Utility operator or the locate company, the utility company must report themselves to the PSC. If the damage was the result of an error made by the contractor, the utility company must report the contractor, and list the dig law violations that may have occurred during the incident. Once the incident is reported, it gets assigned to a Georgia Dig Law Investigator and a notice is mailed.

Please keep in mind you have NOT been found in violation yet. The NOPV is sent to inform you of what has been reported against you, and is pending on a response from you. You must respond to the notice by letting your investigator know if you agree or disagree with the violations.

If you do NOT respond within 30 days, the PSC will proceed, finding you in violation. This decision will be based solely on the information provided by the utility operator.

Contact information for your investigator will be at the bottom of the first page. Please feel free to call or send an email to your investigator, they will be more than happy to assist and walk you through this process.

Common questions about this NOPV

I disagree how do I respond

Check option 1 or 2 on the response options page, return that document to your investigator by USPS or email. Send a statement letting us know why you disagree, along with any documentation or photos that proves why you are not in violation. The investigator will continue the investigation based on your disagreement and will contact you once the investigation is complete.

I agree with the violation, what do I do next?

Check option 3 or 4 on the response options page, Option 3 indicates you agree with the violations and you would like to pay the smaller mitigated penalty by sending employees to a training class. Option 4 indicates you agree with the violation but would rather pay the fine in full instead of attending training. After you've chosen an option, please sign and date the two page consent agreement and return those 3 documents to you investigator by email or USPS. If you chose option 3 you will have 30 days to get the training completed, penalty payments can be mailed or delivered to The Georgia Public Service Commission. Cashier checks or money orders are the only acceptable payment methods at this time.

I hired a subcontractor am I responsible for the violation / I was a subcontractor am I at fault?

The Georgia dig laws falls on whom ever was operating the equipment at the time of the incident. If you receive a notice from the PSC and you hired a sub, you should disagree with the violation. Check the appropriate box, provide a statement saying who you hired and provide documentation (Invoice) and contact information on the sub. Staff at The PSC will remove your name from the notice and reissue the notice to the Subcontractor.

How do I attend damage prevention training?

Use the GUFPA Training list that was provided in the packet to call and schedule the class. The class is a one-day class that usually last about 4 hours. After you complete training, you will get certificates of completion. The training facility will send copies of the certificates to the PSC.

I paid the utility company for the damage why do I have to pay the PSC?

Payment made for the repair cost to the utility company is a civil matter. That repair payment has no bearing over the possible penalty amounts for a violation of the state dig law.
