

PD/TS	Correction #	Page	Line/Reference	Prior Language	Edited Language	Reason for Edit	Impact to Conclusions/
PD	1	17	Table 3	<i>See Word Document</i>	<i>See Word Document</i>	Formula error - initial filed testimony referenced incorrect cells for Summer and Winter CAGR, 2024-2032 as well as Winter CAGR, 2032-2044	No impact to Conclusions or recommendations
PD	2	19	Table 4	Total Summer CAGR Repor	Total Summer CAGR as 2.9%	Formula error - initial filed testimoyn referenced incorrect cells	No impact to Conclusions or
PD	3	29	line 12		Removal of indentation	Stylistic	No impact to Conclusions or
PD	4	29	line 15	"...magnitude of the calibration to ~*% for the Commercial and Industrial classes..."	"...magnitude of the calibration to ~8% for the Commercial class and ~-.*% for the Industrial class..."	Due to a formula error explained in Correction #5, language describing the calibration needed to be edited	No impact to Conclusions or recommendations
PD	5	30	Table 7	<i>See Word Document</i>	<i>See Word Document</i>	Formula error - "Industrial calibration, excluding adjustments" erroneously copied over the formulas for the "Commercial calibration, excluding adjustments." Edit corrects the formula	No impact to Conclusions or recommendations
PD	6	41	Table 12	<i>See Word Document</i>	<i>See Word Document</i>	Formula error - "Industrial calibration, excluding adjustments" erroneously copied over the formulas for the "Commercial calibration, excluding adjustments." Edit corrects the formula	No impact to Conclusions or recommendations
PD	7	43	lines 10-11	"...referring to the *% increase in the original LT energy forecasts for the Commercial and Industrial classes..."	"...referring to the *% increase in the original LT energy forecasts for the Commercial class and the up to 8% decrease for the Industrial class..."	Due to a formula error explained in Correction #5, language describing the calibration needed to be edited	No impact to Conclusions or recommendations
PD	8	45	Table 13		Added citation	Missing citation, numbered as Footnote 66	No impact to Conclusions or recommendations

PD	9	53	Figure 8 Title	"B2025 Large Load Forecast Simulation less February 2025 Large Load Forecast Simulation"	"February 2025 Large Load Forecast Simulation less B2025 Large Load Forecast Simulation "	Original title reversed the calculation underlying the figure, resulting in a misleading title	No impact to Conclusions or recommendations
PD	10	54	Table 17	<i>See Word Document</i>	<i>See Word Document</i>	Formula errors in the underlying table incorrectly classified Q2 load data between classes.	No impact to Conclusions or recommendations
PD	11	54	Table 18	<i>See Word Document</i>	<i>See Word Document</i>	Formula errors in the underlying table incorrectly classified Q2 project count data between classes.	No impact to Conclusions or recommendations
PD	12	55	Table 19	<i>See Word Document</i>	<i>See Word Document</i>	Formula errors in the underlying table incorrectly classified removal loads between classes	No impact to Conclusions or recommendations
PD	13	63	line 13		Added citation	Missing Footnote 103, now numbered as Footnote 104	No impact to Conclusions or recommendations
PD	14	88	Figure 13	Committed Large Load, Announced Load Basis	Committed Large Load Forecast	Nomenclature was misleading and needed to be refined to precisely reflect the underlying data	No impact to Conclusions or recommendations
PD	15	88	Figure 13	Contract-Only Large Load, Announced Load Basis	Contract-Only Large Load Forecast Estimate	Nomenclature was misleading and needed to be refined to precisely reflect the underlying data	No impact to Conclusions or recommendations
