Re: Inspection(s) DL20-035 City of Shellman
Docket Number 37080

Dear Ms. Thebert,

This letter is in response to the City of Shellman inspection report DL20-035, Dated October 26, 2020.

The City of Shellman and our consultants, Harp and Associates have reviewed the inspection report received from Pipeline Safety Office and Inspector David Lewis.

The City of Shellman failed to write a response letter to the Inspection report DL20-035 back in 2021. As per our informal meeting we are writing a general response letter to the Inspection report and recognize the issues and importance of this inspection report.

Should you need further information please let us know.

Respectfully,

James C. Weathersby

Mayor
