INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members
of City Council
City of Colquitt, Georgia
Colquitt, Georgia

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Colquitt, Georgia (the "City") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the Workforce Innovation and Opportunity Act ("WIOA") Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the City of Colquitt Downtown Development Authority, which represents 100% of the assets, net position, and revenues of the discretely presented component unit as of June 30, 2024, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the City of Colquitt Downtown Development Authority is based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("*Government Auditing Standards"*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Changes in the City's Net Pension Liability and Related Ratios (on pages 73 and 74) and the Schedule of City Contributions (on pages 75 and 76) be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has not presented the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Combining and Individual Nonmajor Fund Financial Statements and Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements of the City. The accompanying Schedules of Expenditures of Special Purpose Local Option Sales Tax ("SPLOST") Proceeds is presented for purposes of additional analysis as required by the Official Code of Georgia Annotated ("O.C.G.A.") §48-8-121 and is not a required part of the basic financial statements. The accompanying Schedules of Expenditures of Transportation Special Purpose Local Option Sales Tax ("TSPLOST") Proceeds are presented for purposes of additional analysis as required by the ("O.C.G.A.") §48-8-269.5 and are not a required part of the basic financial statements. The accompanying Community Development Block Grant – Source and Application of Funds Schedule and the Community Development Block Grant – Project Cost Schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Nonmajor Fund Financial Statements and Schedules, the Schedule of Expenditures of Special Purpose Local Option Sales Tax proceeds, the Schedules of Expenditures of Transportation Special Purpose Local Option Sales Tax proceeds, the Community Development Block Grant – Source and Application of Funds Schedule, and the Community Development Block Grant – Project Cost Schedule are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we will also issue our report dated March 31, 2025 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2024

Amounts reported for governmental activities in the Statement of Activities are different because:		
Net change in fund balances - total governmental funds	$	(2,918,290)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation and amortization expense in the current period.		445,608
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position.		(527,162)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		(3,033)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		387,163
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		(36,681)
Change in net position - governmental activities	$	(2,652,395)

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Colquitt, Georgia (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City of Colquitt, Georgia, was incorporated under the provisions of the Basic Charter Act, Act No. 325, of the Laws of 1901 of the State of Georgia, as amended. The City's Charter was last amended by an act of the Georgia General Assembly on April 17, 1975, (Act No. 285 GA Laws pp. 3521-3552). The City operates under a Council/Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, sanitation, culture recreation, education, public improvements, planning and zoning, water, sewer and gas services and general administrative services.

The City operates under a Council/Manager form of government. As required by GAAP, the financial statements of the reporting entity include those of the City of Colquitt, Georgia (the primary government) and its component units. For financial reporting purposes, in accordance with the criteria in GASB Standards, the City includes all funds, agencies, boards, commissions and authorities that are within its primary government. A component unit is a legally separate organization for which elected officials of a primary government are financially accountable. There are three sets of criteria that the City evaluates to determine whether a potential component unit will be included in the reporting entity of the City. They are: 1) financial accountability; 2) financial accountability as a result of fiscal dependency; and 3) misleading to exclude the component unit.

The reporting entity of the City includes all the funds of the City that comprise the primary government as reported in the basic financial statements, as well as the discretely presented component unit described below.

Discretely Presented Component Unit

The City of Colquitt Downtown Development Authority (the "Authority") is a duly organized authority existing under and by virtue of the laws of the State of Georgia. The City Council appoints all members of the Authority's board. Although the Authority is a legally separate entity, the City has the ability to impose its will on the Authority. Complete financial statements may be obtained at:

City of Colquitt Downtown Development Authority
106 West Main Street
Colquitt, Georgia 39837

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under financed purchases are reported as other financing sources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Property taxes, intergovernmental grants and investment income associated with the current fiscal period are all considered to be susceptible to accrual and, therefore, have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The ***General Fund*** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The ***CDBG Housing Fund*** is the fund that accounts for receipt of federal grant money for community development revenues and expenditures.

The ***American Rescue Plan Act ("ARPA") Fund*** accounts for the financial resources provided and subsequently expended from the ARPA grant received from the federal government.

The ***Workforce Innovation and Opportunity Act ("WIOA") of 2014 Special Revenue Fund*** is the fund that accounts for receipt of federal grant money for the Workforce Investment Act grant revenues and expenditures.

The City reports the following major and nonmajor proprietary funds:

The ***Water and Sewer Fund*** accounts for the operation of the water and sewerage system including all revenues from sources applicable to these operations and all expenses of the operation.

The ***Environmental Services Fund*** accounts for the operation and maintenance of the City's Environmental Facilities.

The ***Golf Course Fund*** accounts for the operation and maintenance of the City/County golf course.

The ***Gas Fund*** accounts for the operation and maintenance of the City's gas facilities.

The ***Theater Rental Fund*** (nonmajor) accounts for the operation and maintenance of the City's theater.

The ***Network Services Fund*** (nonmajor) accounts for the operation and maintenance of the City's network services.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Additionally, the City reports the following fund types:

The ***Special Revenue Funds*** account for revenue sources that are legally restricted to expenditures for specific purposes.

The ***Debt Service Fund*** accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The ***Capital Projects Funds*** account for revenue sources that are to be used for the acquisition and construction of major capital facilities.

The ***Enterprise Funds*** accounts for those operations that are financed and operated in a manner similar to private business.

The ***Custodial Fund*** accounts for the resources held by the reporting government in a purely custodial capacity at the Municipal Court.

Amounts reported as program revenues include: 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds are charges for goods and services provided. Operating expenses of the Enterprise Funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Cash and Deposits

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Statutes authorize the City to invest in obligations of the United States and of its agencies and instrumentalities, bonds of the State of Georgia and its agencies, instrumentalities and political subdivisions, certificates of deposit of national or state banks that are fully insured or collateralized by United States obligations, repurchase agreements and, the Local Government Investment Pool ("Georgia Fund 1").

Cash deposits are reported at carrying amount, which reasonably estimates fair value.

E. Receivables and Payables

All trade and property tax receivables are shown net of an allowance for uncollectible.

F. Inventories

Inventories are valued at cost, which approximates market, using the first in/first out ("FIFO") method. The consumption method is used to account for inventories. Under the consumption method, inventory items are recognized as expenditures when used.

G. Prepaid Expenditures/Expenses

Prepaid items are accounted for using the consumption method. A prepaid item is recognized when a cash expenditure/expense is made for goods or services that were purchased for consumption, but not consumed as of June 30.

H. Restricted Assets

Restricted assets consist of customer deposits for utility services and funds required to be placed in a separate account to be used to retire Georgia Environmental Finance Authority ("GEFA") debt as it matures.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets

Capital assets, which include land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond one year are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Infrastructure assets are long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure assets include roads, bridges, tunnels, drainage systems, water and sewer systems, dams, and lighting systems. Buildings, except those that are an ancillary part of a network of infrastructure assets, will not be considered infrastructure assets. Capital assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

The standard capitalization thresholds for capitalizing assets for each major class of assets established by the Colquitt City Council are detailed below:

Class of Asset	Capitalization Threshold	Control Threshold
Land/Land Improvements	Capitalize All	All
Building/Building Improvements	$ 5,000	$ 500
Facilities and Other Improvements	5,000	500
Infrastructure	100,000	100,000
Equipment	5,000	500
Furniture	5,000	500
Vehicles, Boats, and Aircraft	5,000	500
Software (developed or purchased)	5,000	500
Library Books/Materials (collections)	Capitalize All	All
Works of Art/Historical Treasures	Capitalize All	All

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated over their estimated useful lives unless they are inexhaustible. Inexhaustible assets, such as land improvements, are not depreciated.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets (Continued)

Depreciation is reported in the government-wide Statement of Activities and in the proprietary fund Statement of Revenues, Expenses and Changes in Fund Net Position.

Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Asset	Years
Buildings/Building Improvements	20 – 50
Facilities and Other Improvements	10 – 60
Infrastructure	20
Equipment	3 – 20
Furniture and Fixtures	7
Vehicles	6 – 12
Lease asset	5 – 15

J. Leases

Lessee. The City is a lessee for noncancellable leases of vehicles. The City recognizes a lease liability and an intangible right-to-use lease asset in its financial statements. The City recognizes all noncancellable lease liabilities.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines: 1) the discount rate it uses to discount the expected lease payments to present value, 2) lease term, and 3) lease payments:

- The City uses the implicit interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided or cannot be imputed, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.

- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option prices that the City is reasonably certain to exercise.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Leases (Continued)

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with current and non-current liabilities on the Statement of Net Position.

K. Compensated Absences

Vacation
Employees with 0 – 5 years of service can earn up to 18 days of vacation leave per year and accrue up to a maximum of 45 days.

Employees with 6 – 10 years of service can earn up to 21 days of vacation leave per year and accrue up to a maximum of 45 days.

Employees with 11 – 15 years of service can earn up to 24 days of vacation leave per year and accrue up to a maximum of 45 days.

Employees with 16 – 20 years of service can earn up to 27 days of vacation leave per year and accrue up to a maximum of 45 days.

Employees with more than 20 years of service can earn up to 30 days of vacation leave per year and accrue up to a maximum of 45 days.

Comp Time
All employees except salary and police department can accrue hours worked over 40 hours as time and a-half. These hours can accrue as earned until used.

Accumulated sick pay benefits have not been recorded as a liability because these benefits are paid only upon the illness of an employee, and the amount of such payments cannot be reasonably estimated.

The General Fund has been used to liquidate compensated absences, unless associated with a specific proprietary fund, in prior years.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bond using the straight-line method, which approximates the effective interest method. The gain/loss on defeasance of bonds is presented as an increase/decrease to the face amount of bonds payable and is being amortized over the life of the bonds through interest expense. Bond issuance costs are expensed in the period incurred.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and, therefore, will not be recognized as an outflow of resources (expense/expenditure) until then. The government-wide financial statements report deferred outflows related to the recording of changes in net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains and losses result from periodic studies by the City's actuary which adjust the net pension liability for actual experiences for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five-year period. Additionally, any contributions made by the City to the pension plan before year-end but subsequent to the measurement date of the City's net pension liability are reported as deferred outflows of resources. This amount will reduce the net pension liability in the next fiscal year.

In addition to liabilities, the governmental funds balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and, therefore, will not be recognized as an inflow of resources (revenue) until that time. The City has one item that qualifies for reporting in this category; unavailable revenue, which arises only under a modified accrual basis of accounting. The governmental funds report unavailable revenues from property taxes, which are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Balance/Net Position

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- ***Non-spendable*** – Fund balances are reported as non-spendable when amounts cannot be spent because they are either: a) not in spendable form (i.e., items that are not expected to be converted to cash), or b) legally or contractually required to be maintained intact.

- ***Restricted*** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

- ***Committed*** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council may modify or rescind the commitment.

- ***Assigned*** – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Through resolution, the City Council has authorized the City Manager or the City's Finance Director to assign fund balances.

- ***Unassigned*** – Fund balances are reported as unassigned when the balances do not meet any of the above criterion.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Fund Balance/Net Position (Continued)

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Position – Net position represents the difference between assets and liabilities in reporting, which utilizes the economic resources measurement focus. The net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

O. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

P. Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Colquitt Retirement Plan (the "Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The Governmental Fund Balance Sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide Statement of Net Position. One element of that reconciliation explains that "Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this difference are as follows:

Compensated absences payable	$	(153,732)
Lease liability		(856,889)
Notes payable		(672,930)
Net adjustment to reduce *fund balance - total governmental funds* to arrive at *net position - governmental activities*	$	(1,683,551)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide Statement of Activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	$	967,479
Amortization expense		(213,435)
Depreciation expense		(308,436)
Net adjustment to increase *net changes in fund balance - total governmental funds* to arrive at *changes in net position of governmental activities*	$	445,608

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that "The issuance of long-term debt (e.g., bonds, financed purchases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The details of this difference are as follows:

Debt issued:		
Notes payable	$	(250)
Principal repayments:		
Notes payable		209,414
Leases		177,999
Net adjustment to increase *net changes in fund balances - total governmental funds* to arrive at *changes in net position of governmental activities*	$	387,163

Another element of that reconciliation states that "Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this difference are as follows:

Compensated absences	$	(12,350)
Net pension liability and related deferred outflows of resources		(24,331)
Net adjustment to increase *net changes in fund balances - total governmental funds* to arrive at *changes in net position of governmental activities*	$	(36,681)

NOTE 3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Data

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. At least three months prior to year-end, the City Clerk and department heads begin work on the proposed operating budget for the forthcoming fiscal year.

2. Thirty days prior to year-end, the City Clerk submits to the City Council a proposed operating budget for the forthcoming fiscal year. The operating budget includes proposed expenditures and the means of financing them.

3. Public hearings are conducted to obtain taxpayer comments.

4. As close to year-end as possible, the budget is legally adopted by the City Council and made a part of the City's minutes.

5. Any changes to the City's budget must be approved by the City Council. The City Council approves all expenditures over $1,500. The City Manager approves all expenditures under $1,500.

6. For budgetary purposes, the City adopts a budget for the general, special revenue and debt service funds. The budgets are adopted on the budgetary (modified cash) basis which is not consistent with GAAP. Differences between the basis of accounting (basis differences) used for budgeting and financial reporting in accordance with GAAP are reconciled in the budget comparative statements. Fixed budgets are prepared for the enterprise funds for administrative purposes. Project budgets are used for Capital Projects Funds. The City did not adopt a budget for the American Rescue Plan Act (“ARPA”) Fund during the current year.

7. Budgeted amounts are as originally adopted plus amendments.

8. The legal level of budgetary control is at the department level.

NOTE 3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess Expenditures Over Appropriations

Department	Excess
General Fund:	
Executive department	$ 7,477
Financial administration department	63,206
Police department	106,857
Fire department	49,396
Probation department	24,906
Street department	252,112
Debt service - principal	235,062
Debt service - interest	134,824

These over expenditures were funded by greater than anticipated revenues.

NOTE 4. DEPOSITS AND INVESTMENTS

Credit Risk. State statutes authorize the City to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk – Deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2024, all of the deposits for the City were fully collateralized in accordance with the state statutes.

NOTE 5. RECEIVABLES

Receivables at June 30, 2024 for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	WIOA Special Revenue	Nonmajor Governmental Funds	Water and Sewer	CDBG Fund
Receivables:					
Taxes	$ 19,845	$ -	$ -	$ -	$ -
Accounts	-	-	3,758	77,692	160,000
Due from other governments	52,581	232,514	81,471	-	-
Gross receivables	72,426	232,514	85,229	77,692	160,000
Less allowance for uncollectibles	40	-	-	17,111	-
Net total receivables	$ 72,386	$ 232,514	$ 85,229	$ 60,581	$ 160,000

	Environmental Services	Golf Course	Gas Fund	Total
Receivables:				
Taxes	$ -	$ -	$ -	$ 19,845
Accounts	59,154	1,018	12,117	313,739
Due from other governments	-	-	-	366,566
Gross receivables	59,154	1,018	12,117	700,150
Less allowance for uncollectibles	7,774	-	1,006	25,931
Net total receivables	$ 51,380	$ 1,018	$ 11,111	$ 674,219

NOTE 6. PROPERTY TAXES

Miller County, Georgia bills and collects real and personal property taxes for the City. City property tax revenues are recognized when levied to the extent that they result in current receivables, i.e. available. Property tax revenues are considered available when collected within the current period or expected to be collected soon enough thereafter to pay liabilities of the current period and such time thereafter does not exceed 60 days. The property taxes' assessment date was December 20, 2023 with collection dates from October 12, 2023 to December 20, 2023. Property taxes attached as an enforceable lien on property as of March 1, 2024.

NOTE 7. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2024 is as follows:

Primary Government

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Governmental activities:					
Capital assets, not being depreciated:					
Land	$ 119,143	$ -	$ -	$ -	$ 119,143
Land under roads	164,838	-	-	-	164,838
Construction in progress	1,323,885	957,083	-	(1,553,598)	727,370
Total	1,607,866	957,083	-	(1,553,598)	1,011,351
Capital assets, being depreciated:					
Automobiles	1,538,423	-	(356,737)	-	1,181,686
Buildings	1,152,093	-	-	-	1,152,093
Infrastructure	3,853,345	-	-	1,323,885	5,177,230
Computer systems	50,288	-	-	-	50,288
Machinery and equipment	2,357,311	10,396	(165,705)	-	2,202,002
Total	8,951,460	10,396	(522,442)	1,323,885	9,763,299
Less accumulated depreciation for:					
Automobiles	(1,273,708)	(35,236)	224,993	-	(1,083,951)
Buildings	(460,910)	(26,538)	-	-	(487,448)
Infrastructure	(963,594)	(89,117)	-	-	(1,052,711)
Computer systems	(50,288)	-	-	-	(50,288)
Machinery and equipment	(1,135,676)	(157,545)	-	-	(1,293,221)
Total	(3,884,176)	(308,436)	224,993	-	(3,967,619)
Total assets, being depreciated, net	5,067,284	(298,040)	(297,449)	1,323,885	5,795,680
Governmental activities capital assets, net	$ 6,675,150	$ 659,043	$ (297,449)	$ (229,713)	$ 6,807,031

NOTE 7. CAPITAL ASSETS (CONTINUED)

Primary Government (Continued)

Business-type capital asset activity for the fiscal year ended June 30, 2024 is as follows:

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Business-type activities:					
Capital assets, not being depreciated:					
Land	$ 218,925	$ 175,875	$ -	$ -	$ 394,800
Construction in progress	554,542	881,873	-	(1,430,578)	5,837
Total	773,467	1,057,748	-	(1,430,578)	400,637
Capital assets, being depreciated:					
Buildings	375,927	65,056	-	-	440,983
Structures and improvements	15,398,813	37,283	-	1,660,291	17,096,387
Machinery and equipment	2,183,492	733,987	-	-	2,917,479
Automobile equipment	436,785	133,011	(137,010)	-	432,786

NOTE 8. LONG-TERM DEBT (CONTINUED)

Business-type Activities (Continued)

Notes Payable (Continued)

On February 2, 2006, the City entered into a loan agreement with the Drinking Water Revolving Loan Fund administered by the Georgia Environmental Finance Authority ("GEFA") in the amount of $1,141,606. The purpose of this loan is to finance the cost of acquiring, constructing and installing a new environmental facility. The unpaid principal on this note shall bear interest at a rate per annum equal to 3% until the amortization commencement. Principal and interest on this note shall be payable in 240 consecutive monthly installments of $5,652. This note was placed into repayment in November 2009 and as of fiscal year-end, the balance was $375,622.

On October 13, 2006, the City entered into an agreement with GEFA for an amount not to exceed $2,970,800. The City made draws totaling $3,090,839 as of fiscal year-end. The interest rate on this note is 3%. The draws on this note (2006LO4B) were put into repayment in May 2010. Monthly payments of $17,141 are due for 240 months beginning May 2010. The balance unpaid on this note (2006L04WQ) at fiscal year-end is $1,185,142.

On October 23, 2009, the City entered into a loan agreement with the Drinking Water Revolving Loan Fund administered by GEFA in the amount of $641,068. This agreement includes $150,000 of subsidy funds that would not require repayment. The purpose of this loan is to finance the cost of the construction of a 750 GPM well and the installation of approximately 14,500 linear feet of water lines and related appurtenances. A 2% closing fee of $12,821 has been charged on this note and has been paid off. Principal on this note shall be payable in 240 consecutive monthly installments of $2,671. This note was placed into repayment in May 2013 and as of fiscal year-end, the balance was $299,165.

On January 25, 2010, the City entered into an agreement with GEFA for an amount not to exceed $1,400,000. Of the $1,400,000, 70% will be considered subsidy funds and will not require repayment. Administrative fees of $28,000 have been charged against this note and have all been paid. This note was placed in repayment in 2012. Monthly payments of $2,322 are due for 240 months beginning May 2012. The balance on this note at June 30, 2023 was $205,208.

On October 28, 2015, the City entered into an agreement with GEFA for an amount not to exceed $201,110 for the replacement of a Drake sewer pump station. The interest rate on this note is 3.03%. The balance on this note (GEFA 2015L02WQ) at June 30, 2024 was $140,466.

On December 18, 2020, the City became indebted to USDA Rural Development in the amount of $163,700 for the purchase of a garbage truck. The City is obligated, beginning January 2021, to make 60 monthly payments of $2,880. The interest rate on this note is 2.125%. The balance on this note at June 30, 2024 was $50,871.

NOTE 8. LONG-TERM DEBT (CONTINUED)

On August 1, 2022, the City entered into an agreement with First State Bank to borrow $227,263. The interest on this note is 2.50%, which is to be paid back principal and interest by July 5, 2024. The City made principal payments during the fiscal year June 30, 2024 of $82,190 leaving a balance of $81,342.

On July 1, 2022, the City entered into an agreement with First State Bank to borrow $67,852. The interest on this note is 2.50%, which is to be paid back principal and interest by July 20, 2024. The City made principal payments during the fiscal year June 30, 2024 of $9,184 leaving a balance of $54,587.

On May 1, 2024, the City entered into an agreement with First State Bank to borrow $125,000. The interest on this note is 6.00%, which is to be paid back principal and interest by November 1, 2024. The City made no principal payments during the fiscal year ended June 30, 2024 leaving a balance of $125,000.

NOTE 10. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2024 are as follows:

Receivable Fund	Payable Fund: Water and Sewer Fund
ARPA Fund	$ 478,167
Total	$ 478,167

Interfund transfers for the fiscal year ended June 30, 2024 are as follows:

	Transfers out			
Transfers In	General Fund	Nonmajor Governmental Funds	Water and Sewer	Environmental Services
General Fund	$ -	$ 164,008	$ 45,500	$ 23,500
Environmental Services	-	41,880	-	-
Water and Sewer	1,546,870	31,847	-	636,437
Golf Course	60,000	-	-	-
Gas Revenue	678,639	7,894	-	-
Nonmajor Governmental	31,623	130,538	-	-
Nonmajor Enterprise	538,324	5,838	-	-
Total	$ 2,855,456	$ 382,005	$ 45,500	$ 659,937

	Transfers out			
Transfers In	Golf Fund	Nonmajor Enterprise Funds	Gas Revenue Fund	Total
General Fund	$ -	$ -	$ 8,052	$ 241,060
Environmental Services	-	-	-	41,880
Water and Sewer	130,907	5,417	-	2,351,478
Golf Course	-	-	-	60,000
Gas Revenue	-	-	-	686,533
Nonmajor Governmental	-	-	-	162,161
Nonmajor Enterprise	-	-	-	544,162
Total	$ 130,907	$ 5,417	$ 8,052	$ 4,087,274

NOTE 10. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (CONTINUED)

Transfers are used to: 1) move revenues from the fund that the statute or budget requires to collect them to the fund that the statute or budget requires to expend them, 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and 3) move funds from the SPLOST 2019-2024 funds to the Water and Sewer Fund, Gas Revenue Fund, and Environmental Services Fund for SPLOST approved project expenditures.

NOTE 11. DEFINED BENEFIT PENSION PLAN

Plan Description

The City's Pension Plan (the "Plan") is administered through the Georgia Municipal Employee Benefit System ("GMEBS"), an agent multiple-employer pension plan administered by the Georgia Municipal Association. The Plan provides retirement and disability benefits and death benefits to plan members and beneficiaries. Benefits are provided by the Plan whereby retirees receive 2%. The City Council, in its role as the Plan sponsor, has the governing authority to establish and amend from time to time, the benefits provided and the contribution rates of the City and its employees. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained at www.gmanet.com, by writing to:

Georgia Municipal Association
Risk Management and Employee Benefit Services
201 Pryor Street, NW
Atlanta, Georgia 30303
or by calling (404) 688-0472

Plan Membership

As of January 1, 2024, pension plan membership consisted of the following:

Retirees, beneficiaries, and the disabled receiving benefits	18
Terminated plan members entitled to but not yet receiving benefits	10
Active plan members	46
	74

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Contributions

The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of GMEBS has adopted a recommended actuarial funding policy for the Plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the Plan. The funding policy for the Plan, as adopted by the City Council, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members, as determined by the City Council. City contributions to the Plan were $242,608 for the fiscal year ended June 30, 2024.

Net Pension Liability of the City

The City's net pension liability was measured as of September 30, 2023. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2024, with update procedures performed by the actuary to roll forward to the total pension liability measured as of September 30, 2023.

Actuarial Assumptions. The total pension liability in the January 1, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	2.25% plus service-based merit increases
Investment rate of return	7.375%

Mortality rates were based on the gender-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25%. The actuarial assumptions used in the January 1, 2024 valuation were based on the results of an actuarial experience study for the period July 1, 2015 – June 30, 2019.

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Net Pension Liability of the City (Continued)

Actuarial Assumptions (Continued). The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2023, are summarized in the following table:

Asset Class	Target Allocation	Long-term expected real rate of return*
Domestic equity	45 %	6.91 %
International equity	20 %	7.21 %
Domestic fixed income	20 %	1.61 %
Global fixed income	10 %	3.61 %
Real estate	5 %	1.67 %
Cash	- %	
Total	100 %	

* Rates shown are net of the 2.25% assumed rate of inflation.

Discount Rate

The discount rate used to measure the total pension liability was 7.375%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Changes in the Net Pension Liability of the City

The changes in the components of the net pension liability of the City for the fiscal year ended June 30, 2024, were as follows:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Beginning balance	$ 4,070,990	$ 2,610,344	$ 1,460,646
Changes for the year:			
Service cost	96,435	-	96,435
Interest	301,291	-	301,291
Differences between expected and actual experience	57,015	-	57,015
Contributions - employer	-	194,980	(194,980)
Contributions - employee	-	-	-
Net investment income	-	352,254	(352,254)
Benefit payments, including refunds of employee contributions	(164,238)	(164,238)	-
Administrative expense	-	(11,688)	11,688
Net changes	290,503	371,308	(80,805)
Ending balance	$ 4,361,493	$ 2,981,652	$ 1,379,841

The required Schedule of Changes in the City's Net Pension Liability and Related Ratios immediately following the notes to the financial statements presents multi-year trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.375%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.375%) or 1-percentage-point higher (8.375%) than the current rate:

	1% Decrease (6.375%)	Current Discount Rate (7.375%)	1% Increase (8.375%)
City's net pension liability	$ 1,978,768	$ 1,379,841	$ 884,526

NOTE 11. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate (Continued)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of September 30, 2023, and the current sharing pattern of costs between employer and employee.

Pension Expense and Deferred Outflows of Resources Related to Pensions

For the year ended June 30, 2024, the City recognized pension expense of $417,232. At June 30, 2024, the City reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Differences between expected and actual experience	$ 211,009
Changes in assumptions	51,147
Net difference between projected and actual earnings on pension plan investments	139,251
City contributions subsequent to the measurement date	203,856
Total	$ 605,263

City contributions subsequent to the measurement date of $203,856 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	
2025	$ 174,173
2026	91,205
2027	156,434
2028	(20,405)
Total	$ 401,407

NOTE 12. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters, for which the City carries commercial insurance. The basis for estimating the liabilities for unpaid claims is the Incurred but Not Reported ("IBNR") established by the actuary. Settled claims in the past three years have not exceeded the coverages.

NOTE 13. FUND EQUITY

Fund Balances

- ***Non-spendable*** – The following fund balance is non-spendable because it is allocated to:

General Fund	
Inventories	$ 2,500
Long-term note receivable	554,958

NOTE 13. FUND EQUITY (CONTINUED)

Fund Balances (Continued)

- ***Restricted*** – The following fund balances are restricted for:

Special Revenue Funds

Confiscated Assets Fund – Used to account for drug related expenditures.	$	4,713
ARPA- Used to account for revenues collected as part of the the Coronavirus Relief Grant		18,835
Municipal Jail – Used to account for revenues collected from fines that are restricted for jail improvements.		3,386
Municipal Technology – Used to account for revenues colected from fines that are restricted for technological improvements.		5,114
WIOA- Used to account for receipt of federal grant money for the Workforce Investment Act grant revenues and expenditures.		94

Debt Service Fund

Debt Service Fund – Used to record the funding and payment of principal and interest on certain general long-term debt not accounted for in other funds.		3,758

Capital Projects Funds

Police Department – Used to account for equipment and vehicles financed with SPLOST Ref 2019-2024.		28,297
Volunteer Fire Department – Used to account for equipment and vehicles financed with SPLOST Ref 2019-2024.		98,088
Public Works – Used to account for capital projects in the Public Works Department financed with SPLOST Ref 2019-2024.		27,078
Public Service Building – Used to account for capital projects to the Public Service Buildings financed with SPLOST Ref 2019-2024.		13,984
TSPLOST 2024- Used to account for infrastructure projects and equipment financed with TSPLOST funds.		119,646

- ***Unassigned*** – The following fund balances are unassigned for:

General Fund

Unassigned fund balance	$	(2,534,887)

CDBG Fund

Unassigned fund balance	$	(73,942)

NOTE 14. RELATED ORGANIZATIONS

The City appoints all, or a certain number of board members to particular commissions and/or authorities. The City does not exercise full oversight responsibility over these commissions and/or authorities. Any contributions to these entities are recorded as expenditures in governmental funds. The aforementioned entities are the Housing Authority, Planning Commission, Hospital Authority and Chamber of Commerce.

NOTE 15. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the 10-county south Georgia area, is a member of the Southern Georgia Regional Commission and is required to pay annual dues thereto. During its fiscal year ended June 30, 2024, the City paid $2,126 in such dues. Membership in a Regional Commission is required by the Official Code of Georgia Annotated ("O.C.G.A.") §50-8-34, which provides for the organizational structure of the Regional Commission in Georgia. The Regional Commission Board membership includes the chief elected official of each county and municipality of the area. O.C.G.A. §50-8-39.1 provides that the member governments are liable for any debts or obligations of a Regional Commission. Separate financial statements may be obtained from:

Southern Georgia Regional Commission
P.O. Box 1223
Valdosta, Georgia 31603

NOTE 16. COMMITMENTS AND CONTINGENCIES

Litigation

The City is involved in several pending lawsuits. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse effect on the financial position of the City.

Contractual Commitments

In addition to the liabilities enumerated in the balance sheet at June 30, 2024, the City has contractual commitments on uncompleted contracts of approximately $1,212,935 for the demolition, stabilization, and rehabilitation of property at 106 North First Street.

NOTE 16. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Grant Contingencies

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

Undivided Interest

On December 9, 1997 the City adopted a resolution to acquire and finance land for an industrial park together with Miller County, Georgia and the Miller County Development Authority. On December 30, 1997, the land was acquired for $303,339. The City, Miller County, and the Miller County Development Authority each own an undivided one-third interest in the land. The City, Miller County, and the Miller County Development Authority each financed the purchase with a multi-year loan from Peoples South Bank (with Peoples South Bank participating equally in the loan with Security Bank and Trust Company and First State Bank of Colquitt). The City's one-third share of the loan was $101,113. The note is due on December 31 of each year for which the term is renewed. The note renews automatically from year to year. The note is a multi-year installment contract pursuant to O.C.G.A. §36-60-13. The City has a right to terminate the contract at the close of each calendar year, whereas, the entire balance of the note then owing shall become immediately due and payable.

The note was paid in full as of fiscal year ended June 30, 2007.

The City's one-third interest in the land, $101,113, has been accounted for in the Statement of Net Position. As lots have been sold, the basis in this property has been removed from capital assets.

Inter-Local Cooperation Agreement for Joint Operation and Maintenance of the Jointly Owned Golf Course

The County and City have entered into an agreement to purchase the Crooked Oak Golf Course jointly in exchange for assuming the long-term debt owed to various lenders. A joint recreation board for operating the Crooked Oak Golf Course was formed consisting of two County Commissioners, two City Council members, and two non-voting members consisting of the City Manager and golf course Supervisor. The board will meet a minimum of once per quarter with its meetings to be held in compliance with the Open Records Meeting Law. The board shall have the authority to establish the rules, regulations, and policies for the operation and maintenance of the golf course. The board shall not have the authority to incur indebtedness other than normal operating expenses, without the approval of the governing authorities for the County and City.

NOTE 16. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Inter-Local Cooperation Agreement for Joint Operation and Maintenance of the Jointly Owned Golf Course (Continued)

The County and City agree that the golf course will be operated as a department of the City and governed by the joint recreation board. The department supervisor and all employees of the golf course will be City employees with the same rights and benefits as other City employees and will be governed by the personnel policies of the City as to its employees and department supervisor.

The City will maintain separate accounting and financial records for the golf course which will be available for County inspection during normal business hours. The golf course Supervisor is required to make monthly reports to both the governing authorities.

In addition, the City and County have entered into a joint agreement with the Ruth T. Jinks Foundation, incorporated for charitable contributions to be made by the Foundation to the City to pay the indebtedness on the golf course, and pay the monthly operating deficiency, if any.

Both governing authorities agree to contribute $17,000 per year to the golf course beginning March 1, 2008.

One-half of the capital assets and long-term debt of the golf course are reported on the City's and County's statements, each as an undivided interest.

NOTE 17. HOTEL/MOTEL LODGING TAX

The City has levied a 5% lodging tax. The O.C.G.A. §48-13-50 requires that all lodging taxes levied of 5% or more be expended or obligated contractually for the promotion of tourism, conventions, or trade shows. For the fiscal year ended June 30, 2024, the City collected $6,169 of hotel/motel taxes, and transferred 100% of the lodging tax received during the year ended June 30, 2024 to the Colquitt-Miller County Chamber of Commerce, where it was used for the promotion of tourism.

NOTE 18. SPECIAL PURPOSE LOCAL OPTION SALES TAX ("SPLOST")

2019 – 2024 SPLOST Referendum

A 1% SPLOST was approved by a Miller County referendum on February 13, 2018, for capital expenditures/outlay. The revenue to be raised from the SPLOST is estimated to be $4,500,000 over a six-year period beginning January 1, 2019. The proceeds of the SPLOST shall be allocated exclusively for the following expenditures:

Project	County/City	Estimated Estimated Cost	Percentage
Miller County construction of, improvements to, equipment for, and alterations of County buildings, roads, streets, and bridges, public safety, telecommunication infrastructure, and County recreation facilities	County	$ 2,649,600	59%
Public Works Department	City	630,000	14%
Fire Department	City	900,000	20%
Police Department	City	282,600	6%
City Buildings	City	37,800	1%
Totals		$ 4,500,000	100%

Refer to the Schedule of SPLOST for a listing of activities.

Transportation Special Purpose Sales Tax Referendum ("TSPLOST")

A 1% Local Option Sales Tax was approved by a Miller County referendum on August 2, 2018, for capital expenditures/outlay. The revenue to be raised from the TSPLOST is estimated to be $4,500,000 over a five-year period beginning April 1, 2018. The proceeds of the TSPLOST shall be allocated exclusively for the following expenditures:

Project	County/City	Estimated Cost	Percentage
Transportation Projects	County	$ 3,099,600	69%
Transportation Projects	City	1,400,400	31%
Totals		$ 4,500,000	100%

NOTE 19. ACCOUNTING CHANGES

Changes to or within the Financial Reporting Entity

The ARPA fund was previously reported as a nonmajor fund. However, due to significant increases in its revenues, expenditures, and assets, the ARPA fund was reclassified from nonmajor to a major fund for the fiscal year ended June 30, 2024. The effects of this change to or within the financial reporting entity are show in the table below.

Reporting Units Affected by Adjustments to and Restatements of Beginning Balances

	Fund Level Nonmajor Funds	Fund Level Major Fund- ARPA
6/30/23, as previously reported	$ 222,675	$ -
Change from nonmajor fund to major fund	(12,455)	12,455
6/30/23, as restated	$ 210,220	$ 12,455

SCHEDULE OF CITY CONTRIBUTIONS
FOR THE FISCAL YEAR ENDED JUNE 30,

	Fiscal Year			
	2024	2023	2022	2021
Actuarially determined contribution	**$ 242,608**	$ 219,071	$ 193,305	$ 128,687
Contributions in relation to the actuarially determined contribution	**242,608**	219,071	193,305	128,687
Contribution deficiency (excess)	**-**	-	-	-
Covered payroll	**$ 1,768,113**	$ 1,650,094	$ 1,373,507	$ 1,300,659
Contributions as a percentage of covered payroll	**13.7%**	13.3%	14.1%	9.9%

Notes to the Schedule:

Valuation date	January 1, 2024
Cost method	Projected unit credit
Actuarial asset valuation method	Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amounts that the value exceeds or is less than the market value at the end of the year. The actuarial value is adjusted, if necessary, to be within 20% of market value.
Assumed rate of return on investments	7.375%
Projected salary increases	2.25% plus service based merit increases
Cost of living adjustments	0.00%
Amortization method	Closed level dollar for remaining unfunded liability.
Remaining amortization period	Remaining amortization period varies for the bases, with a net effective amortization period of 10 years.
