Re: Georgia Power Company's CARES 2025 Utility Scale Renewable Request for Proposals, Docket No. 55952

Dear Ms. Tanner:

On January 31, 2025, Georgia Power Company ("Georgia Power" or the "Company") submitted to the Georgia Public Service Commission ("Commission") the Company's 2025 Integrated Resource Plan ("2025 IRP"), which sought among other things approval to implement certain enhancements to future Utility Scale Renewable Resource Request for Proposals ("RFP"). Among the Utility Scale RFP enhancements proposed in the 2025 IRP was an option for current or prospective CARES subscribers to identify or offer Utility Scale resources ("Customer-Identified Resource" or "CIR") for potential procurement by Georgia Power during an extended RFP phase.

On July 31, 2025, the Commission issued its Order concerning the 2025 IRP and adopting the Stipulation between GPC, Staff, and certain intervening parties ("2025 IRP Order"). Per the 2025 IRP Order, Georgia Power was directed to implement the CIR program as part of the second phase of the CARES 2025 Utility Scale RFP. Enclosed for filing is Georgia Power's CIR Addendum to the CARES 2025 Utility Scale RFP for Renewable Generation ("CIR Addendum"), including Addendum Exhibit 1 (*Customer-Identified Resource PPA Addendum*) outlining necessary revisions to the three pro forma Power Purchase Agreements. Georgia Power hereby requests Commission approval of the CIR Addendum.

If you have any questions regarding this filing, please call me at (404) 885-3779.

Sincerely,

By Allison W. Pryor
