RE: Notice to Commission of Transfer to Affiliates, Docket No. 9355

Dear Ms. Tanner:

In accordance with the Commission's Final Order in Docket No. 9355, Georgia Power Company ("Georgia Power" or the "Company") provides notice to the Georgia Public Service Commission ("Commission") of the Company's intent to sell a portion of its investment in the Lighting Automated Maintenance and Procedures ("LAMP") to Mississippi Power Company ("MPC"). Because MPC is an affiliate of Georgia Power, notice to the Commission is required. *Order Adopting Modified Stipulation*, Docket No. 9355-U (Dec. 21, 1998) ("Affiliate Transaction Standards"), Attachment 2 at 6, ¶ 15(b). Georgia Power intends to close this transaction after the 60-day notice period has run. Approval by the Commission of this transaction is not required.

LAMP is a web application used to track jobs for the Lighting Services business units at Georgia Power and Alabama Power Company ("APC"). It streamlines installs, removals, replacements, maintenance, and supports the customer service needs of lighting customers.

MPC has expressed an interest in buying in to take advantage of the benefits of LAMP. Georgia Power and APC have agreed to sell a share of LAMP to MPC on a pro rata basis, with the allocation premised on each company's signed lighting services projects: Georgia Power at 73.6483%, APC at 25.7889%, and MPC at 0.5628%. MPC will pay $60,283.22 to buy in, allocated $44,648.86 to Georgia Power and $15,634.36 to APC. Georgia Power's sale of a portion of the LAMP application to MPC will not impact Georgia Power's operations or use of the application.

After the transaction is complete, maintenance and future costs associated with LAMP will be divided between Georgia Power, APC, and MPC along ownership percentages, effectively reducing future costs that would otherwise be borne by Georgia Power customers. Any company-specific modifications needed by an individual operating company will be paid for entirely by the benefitting company.

The proposed sale price for this transfer is cost-based because there is no market value to this application. It was developed internally for Company-use only. The transaction is priced fairly, is in the public interest, and shared ownership will result in savings to Georgia Power's customers.

Please call me at 404-506-7106 if you have any questions regarding this filing.

Sincerely,

/s/ Jeremiah C. Haswell
