DOCKET NO. 55952

IN RE: GEORGIA POWER COMPANY'S CARES 2025 UTILITY SCALE RENEWABLE REQUEST FOR PROPOSALS

ORDER APPROVING CUSTOMER IDENTIFIED RESOURCE ADDENDUM

On July 31, 2025, in Docket No. 56002, the Georgia Public Service Commission ("Commission") issued an Order regarding the 2025 Integrated Resource Plan ("2025 IRP") which adopted the Stipulation between Georgia Power Company ("Georgia Power" or "Company"), Commission Staff ("Staff"), and certain intervening parties ("2025 IRP Order"),. As a requirement of this order, Georgia Power was directed to implement the Customer-Identified Resource ("CIR") program as part of the second phase of the Clean and Renewable Energy Subscription ("CARES") 2025 Utility Scale Request for Proposals ("RFP") for Renewable Generation ("CARES 2025 Utility Scale RFP"). CIR is an option for current or prospective CARES subscribers to identify or offer Utility Scale resources for potential procurement by Georgia Power during an extended RFP phase.

On November 19, 2025, Georgia Power filed for Commission approval a CIR Addendum to the CARES 2025 Utility Scale RFP ("CIR Addendum"), which included Addendum Exhibit 1 (*Customer-Identified Resource PPA Addendum*) and outlines revisions to the three pro forma CARES 2025 Power Purchase Agreements ("PPA") which includes Energy Only, Energy with Storage, and carbon free energy around the clock ("CFE-ATC") Resources. The PPA revisions

removed the right to compensation for Short-Term Network Service Curtailment changes of law impacting tariffs or tax credits. Instead, developers who participate in CIR may partner with customers and negotiate recovery of these costs through separate contracting arrangements.

Staff and the Company along with the Independent Evaluator met several times to discuss how to facilitate CIR as part of the CARES 2025 Utility Scale RFP including the development of the CIR Website. Staff, the Company, along with representatives from the Advanced Power Alliance and Southern Renewable Energy Association also met to discuss the CIR Addendum, including Exhibit 1. Staff recommended approval of the CARES 2025 Utility Scale RFP CIR Addendum.

The Commission approved Staff's recommendation at the December 16, 2025 Administrative Session.

* * * * * * * * * * * * *

WHEREFORE IT IS ORDERED, that Georgia Power's request for approval of the Customer Identified Resource Addendum to the CARES 2025 Utility Scale RFP for Renewable Generation, which includes Addendum Exhibit 1 (*Customer-Identified Resource PPA Addendum*), is hereby approved.

ORDERED FURTHER, that all findings, conclusions, statements, and directives made by the Commission and contained in the foregoing sections of this Order are hereby adopted as findings of fact, conclusions of law, statements of regulatory policy, and orders of this Commission.

ORDERED FURTHER, that a motion for reconsideration, rehearing, or oral argument or any other motion shall not stay the effective date of this Order, unless otherwise ordered by the Commission.

ORDERED FURTHER, that jurisdiction over this matter is expressly retained for the purpose of entering such further Order or Orders as this Commission may deem just and proper.

The above by action of the Commission in Administrative Session on the 16th day of December 2025.
