BEFORE THE GEORGIA PUBLIC SERVICE COMMISSION

**Georgia Power Company
Docket No. 44280**

**BASIS FOR THE ASSERTION THAT THE
INFORMATION SUBMITTED IS A TRADE SECRET**

As part of Georgia Power Company's 2022 Base Rate Case filed in Docket No. 44280, Georgia Power Company (the "Company") submits to the Georgia Public Service Commission (the "Commission") the Company's semi-annual report on the Grid Investment Plan ("Report"). In the Report, the Company has provided actual and future expenditures related to the Grid Investment Plan by year and by category (the "Information"). All such Information constitutes trade secret information of Southern Company, Georgia Power, and its affiliates and is therefore protected from public disclosure under Commission Rule 515-3-1-.11.

The Information derives economic value from not being generally known to, and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use. Specifically, the Information could give competitors and vendors an unfair advantage by showing individual components of the Company's costs, plans, strategies, and project configurations related to the Grid Investment Plan. With this Information, competitors and vendors could tailor proposals to set a price floor for products and services to the detriment of the Company and customers. Lastly, the Company's competitors are generally not required to file this information, and to require the Company to do so would put it at an economic disadvantage.

The Information is subject to substantial procedures to maintain its secrecy. Only select Georgia Power and Southern Company Services personnel are granted access to the Information. Those personnel receive access only on a "need to know" basis. Parties outside the Company who have been granted access to the Information, if any, have been required to sign confidentiality agreements with respect to the Information.

PUBLIC DISCLOSURE

Georgia Power Company's Grid Investment Plan Semi-Annual Report

Reporting Period: January 1, 2023 – December 31, 2025

This sixth Grid Investment Plan (“GIP”) Semi-Annual update is provided in accordance with the Georgia Public Service Commission’s (“Commission”) Final Order in the 2022 Base Rate Case proceeding in Docket No. 44280, which requires Georgia Power Company (“Georgia Power” or the “Company”) to file semi-annual reports. This GIP Semi-Annual Report covers the reporting period of January 1, 2023, through December 31, 2025 (the “Reporting Period”). Following the Commission’s Final Order, Georgia Power is reporting on the approved capital expenditures amount of \$1.38 billion for the three-year period beginning on January 1, 2023 and ending December 31, 2025.

Grid Investment Plan

The GIP is a multi-year initiative focused on improving reliability for customers and replacing aging assets across the system. For Distribution, the Company is making targeted investments through projects such as undergrounding, adding new sectionalizing devices, and creating and strengthening circuit ties. For Transmission, the Company is replacing substation and transmission line equipment through various investment packages outlined within the GIP.

Completion of Targeted Projects

The Company successfully placed 236 Distribution and 74 Transmission projects in service. Each of these projects play an important role in achieving the objective of the GIP to improve reliability and replace aging system assets.

Capital Spending

As a result of the Commission Order, the Company continues to report on the portfolio of both Distribution and Transmission projects to a set of projects with estimated expenditures totaling approximately \$1.38 billion target in the 2023 – 2025 timeframe. For the Reporting Period, the GIP capital spending was \$1.31 billion.
