DOCKET NO. 55623

IN RE: GEORGIA POWER COMPANY'S 2024 DISTRIBUTED GENERATION REQUEST FOR PROPOSALS

ORDER APPROVING ADDITIONAL SUM REQUEST

On October 3, 2024, the Georgia Public Service Commission ("Commission") approved Georgia Power Company's ("Georgia Power" or "Company") 2024 Distributed Generation ("DG") Request for Proposals ("RFP") for Solar Photovoltaic Generation ("2024 DG RFP") documents in Docket No. 55623. As approved by the Commission in its Order Adopting Stipulation in Docket No. 44160 ("2022 IRP Order") regarding Georgia Power's 2022 Integrated Resource Plan, the 2024 DG RFP was designed to procure 251 megawatts ("MW") of DG solar photovoltaic resources sized greater than 250 kilowatts ("kW") up to 6 MW through a market-based solicitation.

In a filing dated February 5, 2026, Georgia Power provided the final list of executed Power Purchase Agreements ("PPAs") between Georgia Power and the winning bidders in the 2024 DG RFP. In the filing, the Company also requested an additional sum in accordance with the 2022 IRP Order. The 2024 DG RFP's final portfolio consists of 16 winning projects totaling approximately 70.299 MW.

Georgia Power submitted two requests to the Commission. The first request seeking certification was submitted on November 5, 2025 and the second request was submitted on December 4, 2025. All 16 projects have been certified by the Commission with a 30-year term. Georgia Power filed a final summary spreadsheet as Attachment 1, which included project-specific information for all projects.

Pursuant to the Commission's 2022 IRP Order, Georgia Power is allowed a levelized additional sum of $4.00/kW-yr for the projects procured through the 2024 DG RFP. Georgia Power provided the project-specific information to support the additional sum request totaling a levelized amount of $281,196.00 per year for 30 years.

Staff reviewed the Company's additional sum request and recommended approval. In addition, if any of the 16 projects are not completed or end before the expected term, the additional sum would need to be adjusted.

The Commission approved Staff's recommendation at the February 18, 2026 Administrative Session.

* * * * * * * * * * * * *

WHEREFORE IT IS ORDERED that Georgia Power's additional sum request totaling a levelized amount of $281,196.00 per year for 30 years is hereby approved. In addition, if any of the 16 projects are not completed or end before the expected term, the additional sum would need to be adjusted.

ORDERED FURTHER, that all findings, conclusions, statements, and directives made by the Commission and contained in the foregoing sections of this Order are hereby adopted as findings of fact, conclusions of law, statements of regulatory policy, and orders of this Commission.

ORDERED FURTHER, that a motion for reconsideration, rehearing, or oral argument or any other motion shall not stay the effective date of this Order, unless otherwise ordered by the Commission.

ORDERED FURTHER, that jurisdiction over this matter is expressly retained for the purpose of entering such further Order or Orders as this Commission may deem just and proper.

The above by action of the Commission in Administrative Session on the 18th day of February 2026.
