Green Mountain Energy Company
Docket No. 12897
Universal Service Fund – Low-Income Emergency Assistance

I, Kevin Cole, Vice President of Green Mountain Energy Company, hereby certify the following pursuant to the Georgia Public Service Commission's Final Order issued October 22, 2025 in Docket No. 12897:

1. Green Mountain Energy Company received no Universal Service Fund (USF) dollars from Atlanta Gas Light Company (AGL) under the Senior Citizen Discount Program allocation. Accordingly, there were no funds available to apply.

2. Green Mountain Energy Company had no customers enrolled in the Senior Citizen Discount Program during AGL's 2025 market-share billing cycle. Therefore, there were no qualifying customers eligible for USF credits.

3. Because no USF funds were received and no customers were eligible, no credits were applied, and no unused funds existed that would require return to AGL by January 31, 2026.

4. This certification is submitted to comply with the Final Order's requirement that each Natural Gas Marketer file a report certifying the application of USF dollars as required by the Final Order.

Respectfully submitted,

K Cole
