Re: City of Colquitt, Georgia
Docket No. 56345, Certificate No. L-8002
Request for Exemption of Annual Report and Cost Study Requirements for 2025

Dear Ms. Tanner,

By this letter, City of Colquitt ("Colquitt") requests an exemption of the annual report and cost study requirements set forth in Conditions 2 and 4 of its Competitive Local Exchange Carrier Certificate of Authority No. L-8002 (the "Certificate") for calendar year 2025.

On October 7, 2025, the Commission granted Colquitt the Certificate authorizing the City to provide competitive local exchange telecommunications services.[1] The Certificate requires Colquitt to file a comprehensive annual report "within ninety (90) days after the close of each year" ("Condition 2") and to file "annually, a total service long-run incremental cost study" ("Condition 4").[2]

Given that the Certificate was granted in October 2025, an annual report and cost study covering calendar year 2025 would reflect only a brief operational period and would provide minimal regulatory value to the Commission while requiring disproportionate resources for Colquitt to prepare.

Colquitt respectfully requests that the Commission grant an exemption of the annual report and cost study requirements for calendar year 2025. Colquitt remains committed to full compliance with all other certificate conditions.

Respectfully Submitted,

Signed /s/ *Cody Hamilton*
