CITY OF CAMILLA / COMPREHENSIVE INSPECTION
INSPECTION NUMBER JJ25-027 / DOCKET NUMBER 37031

From March 31st – April 3rd, Staff reported to the City of Camilla's Gas Department to perform a comprehensive inspection of the Operator's plans, procedures, programs, records and pipeline facilities for compliance with the minimum federal safety standards and conduct Protocol 9 OQ inspections for compliance with the minimum federal safety standards. An exit interview was conducted on April 3rd.

During this inspection the Operator was represented by:
Cheryl Ford – City Manager
Allen Brown – Utility Director
Arthur Thomas – Gas Superintendent
Jamall Dewberry – Crew Leader
Sam Yarley – MGAG/SRCS (Consultant)
Mike Hudson – MGAG/SRCS (Consultant)

Commission Staff were represented by:
Joseph Jones – Lead Inspector
Chuck Whitaker – Pipeline Safety Inspector

At the time of this inspection, the City of Camilla had no previously existing probable violations.

During this inspection Staff reviewed the City of Camilla's written operations and maintenance procedures, records, and gas facilities for compliance with 49 CFR Parts 191 and 192, and the GPSC rules for safe operation of a natural gas distribution system. Staff reviewed City of Camilla's Emergency Manual, the Operations and Maintenance Manual and the records for conducting regular operations on their gas system including the collection of field data required for the Operator's DIMP program. Staff also conducted field inspection of randomly selected pipeline field facilities located within the City of Camilla and Mitchell County including leak repairs, pressure station and pressure recording devices, right of way conditions, atmospheric corrosion control, cathodic protection readings, odorant testing, and accessibility of critical valves.

NOTICE OF PROBABLE VIOLATION

As a result of this inspection Staff found that the Operator was in probable violation of the minimum federal safety standards; specifically:

49CFR, §192.465 – External corrosion control: Monitoring
(d) Each operator shall take prompt remedial action to correct any deficiencies indicated by the monitoring.

COMMENTS: During this inspection, Staff found that the Operator had not taken prompt remedial action to correct deficient corrosion control readings on the City of Camila's gas piping located at the City Gate Station on McArthur Avenue. The pipe to soil readings at this location were well below the acceptable criteria from 2021 to 2024.

PROBABLE VIOLATION: The City of Camilla failed to take remedial action on discrepancies found during monitoring of their cathodic protection system.

LETTER OF CONCERN

Under the Pipeline and Hazardous Materials Safety Administrations (PHMSA) Guidelines for States Participating in the Pipeline Safety Program, Staff are tasked with reviewing and evaluating operators procedures and actions to address recommendations from the National Transportation Safety Board (NTSB) and PHMSA advisory bulletins. During this inspection Staff found that the City of Camilla had neither a procedure in place, nor any records to demonstrate that that they had reviewed any of these items.

STAFFS CONCERN: Staff are concerned that in the event of an accident or incident the Operator will not be able to demonstrate that they performed a review of the relevant NTSB and/or PHMSA notices, or what actions they decided to take, or not to take, in regard to the notices. Staff recommends that the Operator develop a procedure to review these bulletins and then document what actions they took in regard to the notices.

During this inspection, Staff conducted three Operator Qualification Protocol 9 field verification inspections to ensure that covered task(s) were being performed in accordance with appropriate operator-approved procedures, that the procedures were present at the job site, and that the individuals performing the observed covered task(s) were adhering to the operator-approved procedures as written.

Jaamal Dewberry - Gas Tech – City of Camilla Employee Performed:
Join Plastic Pipe Using Electrofusion Fusion - Task #0781, Qualified Through 3/4/2026.
Performed Installing Stab Fittings – Task #0681, Qualified Through 3/4/2026.

Johnny March - Gas Tech - City of Camilla Employee Performed:
Outside Gas Leak Investigation – Task #1241. Qualified Through 7/29/2027.
Performed Atmospheric Corrosion – Task #0141, Qualified Through 6/18/2029.

The Operator provided the current qualification records for the individuals before they performed each of the tasks covered. During the field reviews, Staff verified that they were able to identify the abnormal operating conditions associated with each task and explain a course of action to mitigate the condition.

PROPOSED CIVIL PENALTY

Under Commission Rule 515-9-1.01, by virtue of the authority vested in the Commission by law and pursuant to orders issued by the Commission on May 4, 1967, July 6, 1967, April 23, 1968, and October 29, 1970, all Rules and Regulations prescribed by the United States Department of Transportation applicable to the "Transportation of Natural and Other Gas by Pipeline: Minimum Safety Standards" (C.F.R. 49, Parts 191 and 192) are by this Rule made the Rules and Regulations of the Georgia Public Service Commission for the safe installation and operation of all natural gas transmission and distribution facilities by companies subject to the jurisdiction of the Commission within this State.

Under Commission Rule 515-9-3-.08 (Written Formal Notice of Violation), the Commission may propose a civil penalty in conjunction with this notice of probable violation. Further, the City of Camilla is subject to civil penalties under O.C.G.A. § 46-2-91(b) which states that: Any operator which violates any rule or regulation of the commission prescribed pursuant to subsection (i) of Code Section 46-2-20, or which fails, neglects, or refuses to comply with any order after notice thereof, shall be liable to a penalty not to exceed the maximum penalties provided for in 49 C.F.R. Section 190.223.

Staff has reviewed the circumstances surrounding the probable violations cited in this report and has recommended the civil penalty listed below. Please note that this recommended amount is less than the amount authorized by Georgia law.

Code / Rule	Description	Proposed Penalty
§192.465(d)	Failure to take prompt remedial action	$5,000.00
TOTAL PROPOSED PENALTY		$5,000.00

Please review and respond to this report in accordance with the attached Instructions for Responding to Enforcement Letters Issued by the Georgia Public Service Commission.

Any Operator who chooses to request an informal conference shall request such a conference through emailing the Director (michellet@psc.state.ga.us), calling the Director (404-463-2765), or selecting the "Request Conference" choice.

Civil Penalty Payments:
Certified check for the full amount of the recommended civil penalty or consent agreement amount made payable to the Georgia Public Service Commission. The Operator's name, applicable Docket No., and Inspection Report No. must be included on the certified check. Mail payment to:

Ms. Michelle Thebert, Director, Facilities Protection Unit
Georgia Public Service Commission
244 Washington Street
Atlanta, Georgia 30334

Hearing Requests:
The Operator has the right to request a hearing before the full Commission to contest the alleged probable violations, recommended civil penalties, and all other proposed actions of enforcement. A request for a hearing must be submitted in writing and in accordance with Commission Rule 515-2-1-.04. The Operator must include a statement of the issues that you intend to raise at the hearing. The issues may relate to the allegations, new information, proposed compliance order, proposed civil penalty, or any other recommendation for enforcement action. Please refer to Commission Rule 515-9-3-.11 and O.C.G.A. § 46-2-91 for assessment considerations upon which civil penalties are based. An operator's failure to specify an issue may result in a waiver of the right to raise that issue at hearing. The request must also indicate whether or not the Operator will be represented by counsel at the hearing.

Open Records and Trade Secret Filings:
The Operator is advised that any material provided to the Commission, and all materials prepared by the Commission, including the Notice of Probable Violations and any Orders issued in this case, may be considered public information and subject to disclosure under the Georgia Open Records Act (O.C.G.A. § 50-18-70 et seq.). If you believe that any portion of your response material is security sensitive, privileged, confidential or may cause your company competitive disadvantages and would qualify for protection under the Commission's "Trade Secret Rule" (Commission Rule 515-3-1-.11), you must, along with the complete original document clearly marked "TRADE SECRET" on each page, provide a second copy of the document with the portions you believe qualify for trade secret treatment redacted, and an explanation of why you believe the redacted information qualifies for such trade secret treatment. Should the Commission receive a request for disclosure of any "TRADE SECRET" material, you will be notified, if after review, the materials and your provided justification are deemed not to meet any exemptions provided in the Georgia Open Records Act. You may appeal the Commission's decision to release material at that time. Your appeal will stay the release of those materials until a final decision is made.
