ATLANTA GAS LIGHT COMPANY – CHEROKEE LNG / SRCR
INSPECTION NUMBER JB25-047 / DOCKET NUMBER 37024

On November 5, 2025 Staff reported to the Cherokee LNG station to perform an investigation of a Safety Related Condition Report that was filed by the Operator on October 18, 2025

During this inspection, the Operator was represented by:

Ralph McCollum - Principal Compliance Engineer

Ted Holm - Consulting Engineer

Richard Rogers - Director, Peaking Operations

Erica Thoman - Manager, Transmission

Commission Staff was represented by:

Jeff Baggett – Lead Inspector / Supervisor, Facilities Protection Unit

Jack Hewitt – Pipeline Safety Inspector

NO VIOLATIONS FOUND

During this investigation Staff reviewed the circumstances surrounding the over-pressure event that was recorded on October, 23, 2025. Staff found that the Operator was in the process of installing a new tail gas compressor and while performing the testing for the installation it resulted in a momentary overpressure.

There was no release of gas, and the system returned to normal operating pressure in approximately two minutes. A subsequent leak survey found no leaks.

As a result of this inspection Staff noted no probable violations of the minimum federal safety standards.
