Independent Accountant's Report on Applying Agreed-Upon Procedures

HART TELEPHONE COMPANY

To the Georgia Public Service Commission:

We have performed the procedures enumerated below on the application for funding from the Georgia Universal Access Fund provided to us by management of Hart Telephone Company (or the "Company"). The responsible party Hart Telephone Company is responsible for the application.

The engaging party, Georgia Public Service Commission ("GPSC") has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of assessing the application's reasonableness prior to funds being distributed to Hart Telephone Company as of June 30, 2025. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures are listed below with associated findings listed on the following pages.

AUP	Agreed-Upon Procedures
1	Obtain UAF company pre-filed information and schedules filed with the GPSC
2	Issue specific Contractor data requests to the UAF Companies and schedule field work
3	Audit the Company's UAF model (printed version as well as spreadsheet testing)
4	Trace amounts on the Applicant's Form M back to Company prepared schedules matching their General Ledger
5	Trace Form M data to the UAF Model column entitled Balance Per Books
6	Trace amounts in the "subject to separations" adjustment column of the UAF Model to Net Operating Income (NOI) and Rate of Return (ROR) on rate base calculations
7	Trace amounts in the "non-regulated" adjustment column of UAF Model to supporting journal entries of cost study. Selected supporting work papers are reviewed for reasonableness, accuracy, and conformance.
8	Test the FCC Part 36 study and review allocation/traffic factors
9	Test and recalculate the Revenue Requirement Section on the UAF Model
10	Review each invoice over $250 and select those invoices that appear unreasonable
11	Review corporate allocations and the Company's Cost Allocation Manual

12 Verify fixed asset amounts in the Company's Continuing Property Record and identify those assets that are inappropriately included in rate base in the UAF application. If applicant is a recipient of Federal or state Broadband Grants, determine whether the grants were to be used as revenue, expense offsets, or for capital acquisitions. To the extent such grants are/were used for capital acquisition, review books to ensure that such purchased assets are excluded from the rate base for UAF purposes.

13 Verify the amounts of Federal universal service fund support reported in the UAF Application. Review UAF Applicant work.

14 Verify that any long-term debt interest costs treated as AFUDC (Allowance for Funds Used During Construction) were treated either as current year income or as a reduction to interest rates.

15 Verify that any Patronage Dividends credited (not necessarily received in cash) from long term lenders are treated as a reduction to the cost of debt.

16 Review the outside auditor's report on the financial statements and report any adverse findings or qualified opinions

17 Review and test the requested amount for Executive Compensation and Corporate Operations Expense and compared the amount shown in the UAF application to the GPSC caps

18 Review depreciation rates used for the UAF application and compare to the rates adopted by the GPSC

19 Review cost allocation manual, verify that it is being used, test a sample of allocations and report when the manual was last updated

20 Incorporate revised factors or methods adopted by GPSC, such as cost of equity, into the UAF model

21 Prepare exhibits of financial results and support mechanisms. Analyze as to why increases/decreases occurred

22 Identify Construction Work in Progress and Retirement amounts for the test year

23 Identify the Company's affiliates and non-regulated services

24 Identify the total costs charged to the regulated company by the affiliate or parent company. Quantified costs by FCC USOA Account and determined the per access line amount over the past 3 years. If the costs appear unreasonable, propose adjustments or informed GPSC staff and recommend an affiliated transactions engagement be performed

25 For ACAM UAF companies only, obtain the Company spreadsheet depicting calculated amounts, review Company prepared adjustments, trace adjustments in the UAF application model to the spreadsheet and identify impact of the adjustment

26 Test and review the Approved Cost of Equity and Cost of Capital Rates of Tier II local exchange carriers for the purpose of evaluating applications for reimbursement from the UAF. The rate of return on rate base will be limited to the lesser of 8.0% or the level computed based on a 9.25% return on equity, using the applicant's actual cost of debt and the applicant's actual debt/equity structure. Verify that the above calculation was used in the respective UAF Model

27 Finalize work papers and prepare final report

28 Prepare testimony if requested.

We were engaged by the GPSC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct and examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the application. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Hart Telephone Company and to meet our other ethical responsibilities, in accordance with relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of the Georgia Public Service Commission and Hart Telephone Company and is not intended to be, and should not be, used by anyone other than these specified parties.

Hart Telephone Company is a regulated telephone company with business and maintenance offices located in Hartwell, Georgia. The Company serves approximately 2,429 access lines.

AGREED-UPON PROCEDURES

Procedure 1: Obtained UAF company pre-filed information and schedules filed with the GPSC.

Conclusion – We reviewed pre-filed files downloaded from the GPSC web site. There were no discrepancies noted.

Procedure 2: Issued specific Contractor data requests to the UAF Companies and scheduled field work

Conclusion – Data requests were sent to the Company and the Company responded to all data requests.

Procedure 3: Audited the Company's UAF model (printed version as well as spreadsheet testing).

Conclusion – There were no discrepancies noted.

Procedure 4: Traced amounts on the Applicant's Form M back to Company prepared schedules matching their General Ledger.

Conclusion – There were no discrepancies noted.

Procedure 5: Traced Form M data to the UAF Model column entitled Balance Per Books

Conclusion – There were no discrepancies noted.

Procedure 6: Traced amounts in the "subject to separations" adjustment column of the UAF Model to Net Operating Income (NOI) and Rate of Return (ROR) on rate base calculations.

Conclusion – There were no discrepancies noted.

Procedure 7: Traced amounts in the "non-regulated" adjustment column of UAF Model to supporting journal entries of cost study. Selected supporting work papers are reviewed for reasonableness, accuracy, and conformance.

Conclusion – There were no discrepancies noted.

Procedure 8 Tested the FCC Part 36 study and review allocation/traffic factors.

Conclusion – The factors appeared reasonable.

Procedure 9: Tested and recalculated the Revenue Requirement Section on the UAF Model.

Conclusion – There were no discrepancies noted.

Procedure 10: Reviewed each invoice over $250 and no invoices were selected.

Conclusion – There were no discrepancies noted.

Procedure 11: Reviewed corporate allocations and the Company's Cost Allocation Manual

Conclusion – There were no discrepancies noted.

Procedure 12 Verified fixed asset amounts in the Company's Continuing Property Record and identify those assets that are inappropriately included in rate base in the UAF application. If applicant is a recipient of Federal or state Broadband Grants, determined whether the grants were to be used as revenue, expense offsets, or for capital acquisitions. To the extent such grants are/were used for capital acquisition, review books to ensure that such purchased assets are excluded from the rate base for UAF purposes.

Conclusion – There were no discrepancies noted. Hart Telephone Company made no application to the Federal Government for Broadband Initiative Funds for projects in the State of Georgia.

Procedure 13 Verified the amounts of Federal universal service fund support reported in the UAF Application. Review UAF Applicant work.

Conclusion – There were no discrepancies noted.

Procedure 14: Verified that any long-term debt interest costs treated as AFUDC (Allowance for Funds Used During Construction) were treated either as current year income or as a reduction to interest rates.

Conclusion – Not applicable.

Procedure 15: Verified that any Patronage Dividends credited (not necessarily received in cash) from long term lenders are treated as a reduction to the cost of debt.

Conclusion – Not applicable.

Procedure 16: Reviewed the outside auditor's report on the financial statements and report any adverse findings or qualified opinions.

Conclusion – The Company's outside auditor's 2025 report provided an unqualified opinion.

Procedure 17: Reviewed and tested the requested amount for Executive Compensation and Corporate Operations Expense and compared the amount shown in the UAF application to the GPSC caps.

Conclusion – The Company was not above the GPSC approved expense cap, thus no adjustment was required.

Procedure 18: Reviewed depreciation rates used for the UAF application and compare to the rates adopted by the GPSC.

Conclusion – The Company's depreciation rates matched or were less than the rates prescribed by the GPSC.

Regulated Depreciation Expense was $2,864,765 in the UAF application. Per the UAF model, Total Plant in Service was $59,798,242. Composite depreciation rate equals depreciation per year divided by total historical cost. The composite rate is shown below.

Depreciation Expense	$2,864,765
Total Plant in Service	$59,798,242
Composite Rate	4.79%

Procedure 19: Reviewed cost allocation manual, verify that it is being used, test a sample of allocations and report when the manual was last updated.

Conclusion – The Company did employ a current cost allocation manual and the allocations tested were accurate.

Procedure 20: Incorporated revised factors or methods adopted by GPSC, such as cost of equity, into the UAF model.

Conclusion - The current cost of equity approved by the GPSC is 9.25%. Using the Company's actual debt/equity ratio and actual cost of debt, the Company's weighted average cost of capital ("WACC") is 9.25%. Because the Company's WACC did exceed the GPSC's 8% cap, the allowed return on rate base was the capped amount of 8%.

Procedure 21: Prepare exhibits of financial results and support mechanisms. Analyzed as to why increases/decreases occurred.

Hart increased net plant due to construction activity. Revenues and expenses increased increasing net income.

(REDACTED)

Procedure 24 Identify the total costs charged to the regulated company by the affiliate or parent company.

Conclusion - Total costs charged to the regulated company by the affiliate(s) or parent company appear reasonable and therefore, no affiliate audit is recommended.

Cost per Access line

Quantified costs by FCC USOA Account and determined the per access line amount over the past 3 years. If the costs appear unreasonable, propose adjustments or informed GPSC staff and recommend an affiliated transactions engagement be performed.

Hart had neither the highest nor lowest average expense per access line among all UAF companies.

Procedure 25 For ACAM UAF companies only, obtain the Company spreadsheet depicting calculated amounts, Reviewed Company prepared adjustments, trace adjustments in the UAF application model to the spreadsheet and identify impact of the adjustment.

Conclusion – Not applicable

Procedure 26 Test and Reviewed the Approved Cost of Equity and Cost of Capital Rates of Tier II local exchange carriers for the purpose of evaluating applications for reimbursement from the UAF. The rate of return on rate base will be limited to the lesser of 8.0% or the level computed based on a 9.25% return on equity, using the applicant's actual cost of debt and the applicant's actual debt/equity structure. Verify that the above calculation was used in the respective UAF Model.

Conclusion – There were no discrepancies noted.

Procedure 27 Finalize work papers and prepare final report.

Procedure 28 Prepare testimony if requested.
