June 26, 2026,

BEFORE THE GEORGIA PUBLIC SERVICE COMMISSION

Re: SCANA Energy Marketing, Inc. Complaint Concerning Transco OFO Penalties

To the Commissioners:

Mansfield Power and Gas, LLC ("Mansfield") respectfully submits this letter in support of the Commission's review of the issues raised in the above-referenced proceeding and in support of SCANA Energy Marketing, Inc.'s position that those issues fall within the Commission's regulatory authority.

Mansfield is a natural gas marketer operating in Georgia and serving customers through the state's deregulated natural gas market. While Mansfield did not incur losses from the December 2025 OFO event sufficient to warrant pursuing recovery in this proceeding, Mansfield has a substantial interest in the Commission's consideration of the issues presented and the potential impact of this matter on marketers operating within the Georgia market.

Mansfield agrees with SCANA that the issues raised in the Complaint concern AGL's exercise of authority and discretion under its Commission-regulated tariff and therefore present issues appropriately subject to Commission review. Mansfield further agrees that the allegations regarding the administration of nominations, confirmations, balancing functions, and communications during the December 2025 OFO event should be examined by the Commission. The Commission's resolution of these issues may have important implications for marketers operating within Georgia's natural gas market and for the administration of future OFO events.

Accordingly, Mansfield opposes dismissal of the Complaint and supports allowing this matter to proceed so that the Commission may consider the issues raised and determine the extent to which the conduct alleged falls within its oversight of AGL's regulated operations.

Mansfield is not seeking any specific monetary recovery and takes no position at this stage regarding the appropriate remedy.

Respectfully submitted,

MANSFIELD POWER AND GAS, LLC
