Re: Georgia Power Reliability and Quality of Electric Service; Docket No. 11941-U, Annual Filing

Dear Ms. Tanner:

Enclosed is Georgia Power's filing of 2025 Customer Satisfaction Survey Information, including reliability components, along with supporting statistics in response to the order issued in the aforementioned docket.

The attached 2025 system average interruption duration index ("SAIDI") and system average interruption frequency index ("SAIFI") data were calculated according to the IEEE Standard 1366-2022 2.5 Beta Method for the Residential and General Business customer segments. Georgia Power uses the Net Promoter Score for Managed Accounts, previously identified as the Large Business segment. The Net Promoter Score results are attached on the fourth, fifth and sixth pages of the filing.

If you have any questions, please contact Steven Huling at 404-506-1366.

Sincerely,

/s/ Jeremiah C. Haswell

Jeremiah C. Haswell
Director, Regulatory Affairs

Enclosures

Georgia Power
2025 System Average Interruption Duration Index (SAIDI)
and
2025 System Average Interruption Frequency Index (SAIFI)

$$\text{2025 SAIDI} = \frac{\sum \text{Customer Minutes Interrupted}}{\text{Total Number of Customers Served}} = \frac{431,761,456}{2,803,950} = 153.98$$

$$\text{2025 SAIFI} = \frac{\sum \text{Total Number of Customers Interrupted}}{\text{Total Number of Customers Served}} = \frac{3,996,799}{2,803,950} = 1.425$$

How would you rate the effectiveness of [INSERT BRAND] to overall power quality and reliability?	Please rate your power quality and reliability experience with [INSERT BRAND]: Overall power quality and reliability.	Considering **all aspects** of your relationship with [INSERT BRAND], how would you rate your experience?	Considering **all aspects** of your relationship with [INSERT BRAND], how would you rate your experience?

*Company Comparison of Customer Satisfaction/Reliability Survey Results (GPC and other Southern Company Operating Companies Compared to 44 Peer Utilities (General Business) and 107 Utilities (Residential)) © 2025 J.D. Power. All Rights Reserved. Charts, graphs, data and insights extracted from this publication must be accompanied by a statement identifying J.D. Power as the publisher and the J.D. Power 2025 Electric Utility Residential Satisfaction StudySM and 2025 Electric Utility Business Satisfaction StudySM as the source. No media, advertising, or other promotional use can be made of the information in this publication or J.D. Power study results without the express prior written consent of J.D. Power.
+ Data in these last two columns are the overall satisfaction ratings (asked on a 6 point scale) converted using a formula provided by J.D. Power to show an equivalent rating on a 10-point scale . In 2025, J.D. Power changed the overall satisfaction rating scale from a 10-point scale to a 6-point scale. To enable comparison with previous years, average ratings have been converted to the traditional 10-point scale.

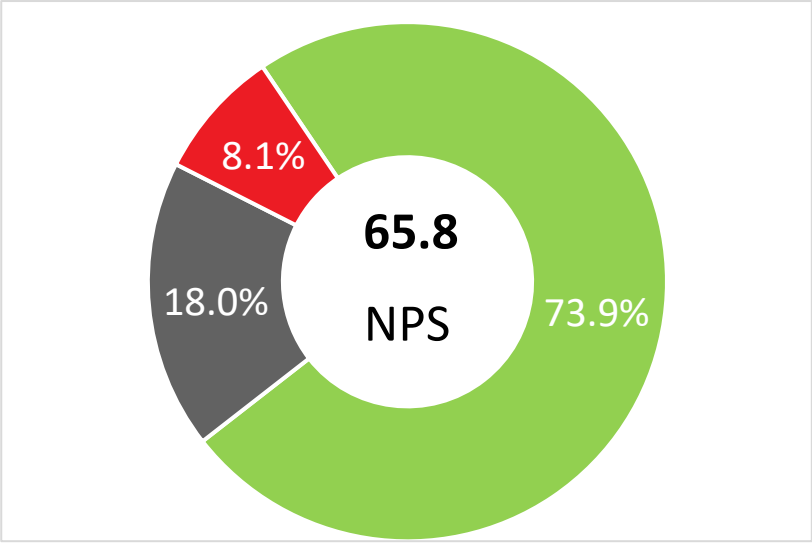

Managed Accounts are asked, *"Assuming everyone could choose their utility, how likely is it that you would recommend <Georgia Power> to a friend or colleague?"* The Net Promoter Score is calculated as Promoters (% who rate the question 9 or 10) MINUS Detractors (% who rate the question 0-6). In 2025 Georgia Power's score was 65.8.

Managed Accounts are then asked, *"We would like to know what factors influenced the rating you gave. Please rank each of the following factors in order of influence with 1 being the factor that most influenced your rating and 7 being the factor that leased influenced your rating."* The results for Georgia Power are below. Reliability is considered the most important attribute among Promoters and Passives (who rate question 7 or 8).

1. Power Reliability
2. Account Manager Responsiveness
3. Problem Resolution
4. Communication timeliness and relevance
5. Company Trustworthiness
6. Cost
7. Energy usage review and recommendations
