DOCKET NO. 44280

IN RE: GEORGIA POWER COMPANY'S 2022 RATE CASE

ORDER APPROVING STAFF'S RECOMMENDATION FOR THE 2026 COMMUNITY CHARGER PLAN

On April 17, 2026, the Company filed its 2026 Community Charging plan, identifying eleven (11) locations for the placement of electric vehicle ("EV") charging stations as part of Georgia Power's Community Charging Program in accordance with Docket 44280 Georgia Power Company's ("GPC" or "Company") 2022 Rate Case. The Electric Transportation Term Sheet ("Term Sheet") attached to the Stipulation in Georgia Power's 2022 Rate Case and approved by the Commission on December 30, 2022, allowed interested parties to comment on the Plan within thirty (30) days of filing.

Figure 1. Eleven (11) Proposed EV Charging Stations

Proposal	Intersections/Addresses	City	County	Zip Code	Job Tax Credit Tier
1	W Railroad St. / N Broad St	Bowman	Elbert	30624	2
2	Hartford Rd / Hancock St	Fort Gaines	Clay	39851	1

*Georgia's Job Tax Credit program incentivizes job creation by offering tax credits to qualifying businesses. The program ranks counties into four tiers based on economic conditions such as unemployment rate, per capita income, and poverty rate, with Tier 1 representing the least developed and Tier 4 the most developed counties. The tier level determines the amount of the tax credit per job and the minimum number of jobs required to qualify.

11	Yatesville Hwy / The Rock Rd	Thomaston Yatesville	Upson	30286	2

The locations were pursuant to the following conditions:

a. Locations – The Term Sheet provides an annual budget of $3 million for the program, and a stipulation that any proposed location is subject to a 60-day Right of First Refusal ("ROFR") process.

b. Eligibility – The location falls within a Tier 1 or Tier 2 county under the most current Job Tax Credit Rankings. The most recent Memorandum pertaining to Job Tax Credit Rankings for 2026 was presented to Governor Brian Kemp on April 6, 2026.

c. 15-mile restriction – ROFR locations must be within a 15-mile radius from the Crossroads presented in the Company's filing.

On April 20, 2026, Staff performed an analysis on the proposals from the Company. Using the intersections, GPS coordinates and information provided from Department of Energy (DOE) Alternative Fuels Data Center (AFDC) Staff flagged four (4) locations labeled Proposals 3, 4, 5, and 8 that might infringe on the 15-mile radius from existing DCFC stations.

In April 2026 the Company was notified of Staff's concerns and on June 22, 2026, the Company provided addresses and updated coordinates for Proposals 3 and 5. These locations fall 15.3 miles and 15.4 miles respectively from the nearest DCFC station.

On July 7, 2026, the Commission unanimously approved Staff's recommendation.

WHEREFORE IT IS ORDERED, that the requested locations are approved with final approval for proposals four and eight being contingent on the Company providing exact location coordinates to the Commission that meet the 15-mile standard.

ORDERED FURTHER, that the most current Georgia Department of Community Affairs Job Tax Credit Tier maps for eligibility consideration in the Community Charging program are hereby adopted.

ORDERED FURTHER, that a 15-mile radius restriction as measured around Georgia Power Company's proposed locations for eligibility consideration in the Community Charging program is hereby adopted.

ORDERED FURTHER, that a motion for reconsideration, rehearing, or oral argument or any other motion shall not stay the effective date of this Order, unless otherwise ordered by the Commission.

ORDERED FURTHER, that jurisdiction over this matter is expressly retained for the purpose of entering such further Order or Orders as this Commission may deem just and proper.

The above by action of the Commission in Administrative Session on the 7th day of July, 2026.
