STATE OF GEORGIA
BEFORE THE GEORGIA PUBLIC SERVICE COMMISSION

In Re: Georgia Power Company's Application for the Certification of the CARES 2025 Utility Scale Renewable Power Purchase Agreements	))))	**Docket No. 57154**

STIPULATION

The Georgia Public Service Commission's ("Commission") Public Interest Advocacy Staff ("Staff") and Georgia Power Company ("Georgia Power" or the "Company") (collectively the "Stipulating Parties") agree to the following stipulation as a resolution of the above-styled proceeding to consider the Company's Application for the Certification of the CARES 2025 Utility Scale Renewable Power Purchase Agreements ("PPAs") in Docket No. 57154 ("Certification Application"). The Stipulation is intended to resolve all issues in this Docket regarding the Company's Certification Application. The Stipulating Parties agree as follows:

1. The Company's requests to certify the five PPAs from the CARES 2025 Utility Scale Renewable RFP with Appling Solar Farm, LLC, SR Norwood III, LLC, SR Wrens, LLC, Brightstone Solar, LLC, and Silverstone Solar, LLC, that collectively provide energy, capacity, Environmental Attributes, and Electrical Products from a portfolio of 752 MW, are approved.

2. Consistent with the Commission's July 29, 2022, 2022 IRP Final Order in Docket No. 44160, the Company's request for a levelized additional sum of $4 per kW-year for the term of the CARES 2025 Utility Scale Renewable PPAs is approved. If a PPA terminates earlier than expected or a project does not reach commercial operation, the additional sum associated with the terminated PPA will cease to be collected.

Agreed to this 29th day of July 2026.
