OPERATORS RESPONSE: The operator acknowledges Staff's continuing concern regarding the Public Awareness Program's reference to Section 203 of the Voting Rights Act.

The operator previously revised its demographic analysis so that it no longer uses the voting-age population or Voting Rights Act coverage determinations when evaluating the need for non-English-language communications. The current analysis uses U.S. Census Bureau American Community Survey Table C16001 and evaluates persons age five years and older who speak a language other than English and report speaking English "less well".

The operator recognizes that the current Program continues to describe the 5% screening criterion as a threshold established under Section 203. Although the reference was intended only to explain the historical origin of the percentage selected for the methodology, the language may reasonably be interpreted as applying Section 203 as the governing standard for compliance with 49 CFR §192.616(g).

To eliminate that ambiguity, the operator will revise the Program to remove the reference to Section 203. The Program will describe the 5% figure as an operator-established initial screening criterion used to evaluate demographic data consistently. The revised language will also clarify that the percentage is not a statutory threshold or safe harbor and does not prevent the operator from providing non-English-language communications when a population below 5% nevertheless represents a significant number and concentration within the operator's service area.

The operator's determination will remain based on ACS Table C16001 data, geographic concentration, actual population numbers, local knowledge, customer and community interactions, and the unique characteristics of the operating area, consistent with 49 CFR §192.616(g).

Please refer to Commission Rule 515-9-3-.11 and O.C.G.A. § 46-2-91 for assessment considerations upon which civil penalties are based. An operator's failure to specify an issue may result in a waiver of the right to raise that issue at hearing. Should the Commission receive a request for disclosure of any "TRADE SECRET" material, you will be notified, if after review, the materials and your provided justification are deemed not to meet any exemptions provided in the Georgia Open Records Act. You may appeal the Commission's decision to release material at that time. Your appeal will stay the release of those materials until a final decision is made.
