PROFESSIONAL SUMMARY

Operations and commercial executive with more than 15 years in oilfield services and power generation. As EVP at VoltaGrid, accountable for all operations, financial performance, and executive relationships with core clients. Proven record of building Halliburton's electric fracturing strategy, leading large sales and operations teams, and executing complex commercial contracts that deliver industry-leading returns.

EXPERIENCE

Executive Vice President
VoltaGrid, 2025 - Current

- Accountable for all VoltaGrid operations.
- Responsible for delivering and forecasting financial returns.
- Maintain executive-level relationships with all core clients.

VP Power Operations
VoltaGrid, 2024 - 2025

- Responsible for all mobile power operations, including service quality, health and safety, and financials.
- Accountable for customer relationships and contract execution.

Product Manager Electric Fracturing (Zeus)
Halliburton, 2022 - 2024

- Responsible for the development and execution of Halliburton's electric strategy, requiring extensive coordination with teams in manufacturing, technology, operations, and business development.
- Accountable for the capital planning for the Zeus program.
- Routinely perform internal and external technical presentations.
- Review and approve all electric frac commercial contracts.
- Manage electric-specific vendor relationships.

Business Development Manager
Halliburton, 2017 - 2021

- Managed a sales team of thirty-five individuals that supported the Completions and Production Division that is comprised of five specific product lines. My team was responsible for over a billion dollars in revenue each year.
- Developed and executed complex commercial contracts to drive industry-leading returns.
- Managed Halliburton's South Central United States frac schedule.
- Accountable for area financial forecasts.

- Developed and managed area-specific sand and logistics strategies and contracts that supported up to 17 frac crews in the area.

Principal Account Representative - Fracturing
Halliburton, 2014 - 2017

- Built and maintained strong customer relationships with key accounts.
- Ensured customer requirements were achieved and our teams provided excellent service quality.

Principal Account Representative - Coiled Tubing
Halliburton, 2013 - 2014

- While working within the coiled tubing product service line my main responsibility was to build strong customer relationships that would allow us to grow our market share.

Account Manager
Trican Well Service, 2012 - 2013

- It was my responsibility to represent all Trican product lines (Cement, Stimulation, Coiled Tubing, and Completions Tools) and services to customers, interface with operations, and provide technical sales support to the customer.
- I was responsible for accounts from Houston, San Antonio, Austin, Denver, Pittsburgh, and Midland.

District Sales Manager
Baker Hughes Pumping Services, 2010 - 2012

- Responsible for developing and maintaining sales strategies to increase sales and profits for the district.
- In addition to providing revenue opportunities, I maintained and managed the frac schedule and cementing commitments.

EDUCATION

Bachelor of Arts (B.A.): History
Texas Tech University, Lubbock, TX, May 2007
