COLQUITT ELECTRIC MEMBERSHIP CORPORATION

RESIDENTIAL, FARM, AND HOME SERVICE
SCHEDULE 1

AVAILABILITY

Available in all territory served by the Cooperative and subject to the Cooperative's Service Rules and Regulations.

APPLICABILITY

Applicable to residential, farm, and home use; and uses incidental thereto, where service requirements necessitate the installation of 50 kVA or less transformer capacity. The capacity of the individual motors served under this Schedule shall not exceed 7½ horsepower without consent from the Cooperative. This rate is not applicable to motors used for irrigation purposes, except for small motors used to propel pivot systems.

TYPE OF SERVICE

Single-phase and multi-phase, 60 hertz, at the following standard voltages: 120/240, 120/208, 277/480, 240/480, or other voltage as might be mutually agreeable.

MONTHLY RATE

Service Charge:		
Single-Phase	@	$20.00 per month
Multi-Phase	@	$32.00 per month
Pre-Payment	@	$ 0.66 per day
Energy Charge:		
First 500 kWh or less	@	11.47 cents per kWh
All KWH above 500 KWH	@	10.47 cents per kWh

MINIMUM MONTHLY BILL

A. Single-Phase

The minimum monthly charge under the above rate shall be $20.00 where 15 kVA or less transformer capacity is required. For consumers requiring in excess of 15 kVA of transformer capacity, the above minimum charge will be increased $0.75 for each additional kVA, or fraction thereof, supplied by the Cooperative. Payment of a monthly minimum in excess of the $20.00 service charge shall entitle the consumer to use the number of kWh's corresponding to charges in accordance with the foregoing rate.

B. Single-Phase Solar

Per the interconnect agreement, the buy-back rate shall be the two year average avoided wholesale cost of energy calculated yearly to a maximum of $0.04 per kWh.

C. Multi-Phase

The minimum monthly charge under the above rate shall be $32 where 15 kVA or less transformer capacity is required. For consumers requiring in excess of 15 kVA of transformer capacity, the above charge will be increased $0.75 for each additional kVA, or fraction thereof, supplied by the Cooperative. Payment of a monthly minimum in excess of the $32 service charge shall entitle the consumer to use the number of kWh's corresponding to charges in accordance with the foregoing rate.

D. Multi-Phase Solar

Per the interconnect agreement, the buy-back rate shall be the two year average avoided wholesale cost of energy calculated yearly to a maximum of $0.04 per kWh.

E. Pre-Payment

A minimum monthly charge shall not apply. The service charge shall be calculated on a daily basis.

WHOLESALE POWER COST ADJUSTMENT

The above rate shall be increased or decreased in accordance with the Cooperative's Wholesale Power Cost Adjustment Provision, Schedule WPCA-12.

UNMETERED SERVICE

Where the installation of metering equipment is impractical or uneconomical, monthly kWh may be estimated by the Cooperative and billed at the above monthly rate.

Note: Unmetered pivots bill monthly as follows:

Single phase	$24.90
Multi-phase	$29.70
Additional pivots	$ 9.50

If the end gun has a motor, there is a $3.50 per horsepower adder.

EXCESS FACILITIES CHARGE

Should the consumer's service requirements necessitate the construction of facilities in excess of those normally provided by the Cooperative, a monthly facilities charge will be billed to the consumer in addition to all other charges contained in this schedule.

LATE PAYMENT CHARGE

If payment is not made within 15 days of the billing date, a late payment charge of 5% will be added.

Effective: For all bills rendered on or after November 1, 2026.
