COLQUITT ELECTRIC MEMBERSHIP CORPORATION

STREET LIGHTING SERVICE
SCHEDULE 11

AVAILABILITY

Available in all territory served by the Cooperative and subject to the Cooperative's Service Rules and Regulations.

APPLICABILITY

Applicable to street and highway lighting owned by federal, state, or local governments or agencies thereof and to street lighting in residential subdivisions, apartment or condominium complexes, and mobile home parks by ballast operated vapor light fixtures and poles conforming to the Cooperative's specifications.

RATE (MONTHLY)

Part I. Monthly rates per light when paid by governmental units, developers, homeowners associations, etc.

SECTION A –OVERHEAD WIRING

Nominal Lamp Wattage	Lumens	Type	kWh	Existing Wood Poles	Additional Wood Pole
100	9,500	HPS-Open	40	$ 7.63	$ 9.38
250	27,500	HPS-Cobra	100	$12.19	$13.89
400	50,000	HPS-Cobra	160	$14.73	$16.43
175	7,500	MV-Open	70	$ 7.63	$ 9.38
400	20,000	MV-Cobra	160	$15.05	$16.75

SECTION B-UNDERGROUND WIRING

Nominal Lamp Wattage	Lumens	Type	kWh	Pole Type		
				Wood	Metal or Fiberglass	Concrete
100	9,500	HPS-Open	40	$11.61	$15.58	$20.72
250	27,500	HPS-Cobra	100	$16.17	$20.14	$25.18
400	50,000	HPS-Cobra	160	$18.97	$22.95	$28.09
175	7,500	MV-Open	70	$11.61	$15.58	$20.72
400	20,000	MV-Cobra	160	$17.01	$20.99	$26.66

ADDITIONAL CHARGES

1. Where the length of trenching required to provide underground lighting exceeds 80 feet per light, a contribution-in-aid of construction will be required equal to $2.00 per foot in excess of 80 feet. Where paving or other obstructions exist, the consumer will be required to perform all trenching and/or boring, install duct (furnished by the Cooperative), backfill, and restore paving to the mutual satisfaction of all parties concerned. (The Cooperative may perform the necessary trenching/boring, install the duct, backfill, and restore paving upon payment by consumer, in advance, of the estimated cost of such work.)

2. Where it is necessary for the Cooperative to install a pole mounted transformer for the exclusive purpose of providing secondary service (120/240 volts) for lighting luminaries, an additional charge of $7.90 per month will be billed to the consumer for each such transformer required, in lieu of which consumer may make a non-refundable contribution-in-aid of construction of $632. Should a pad mounted transformer be required to provide underground secondary service for lighting luminaries, a non-refundable contribution-in-aid of construction equal to the installed cost of a transformer will be required.

3. Where one (1) or more additional poles (lift poles) are required to provide lighting service at the location desired by the consumer, a non-refundable contribution-in-aid of construction in the amount of $300 per pole (30 foot wood) will be required.

4. The above monthly rates will apply only to fixtures and poles designated as standard equipment by the Cooperative. Contributions-in-aid of construction will be charged to cover cost difference of other than standard fixtures and poles, provided the Cooperative agrees to install such equipment. However, at its option, the Cooperative, either in lieu of or in combination with any contribution, may develop and offer a monthly rate for such non-standard pole and/or fixture.

CONDITIONS OF SERVICE

1. The Cooperative will furnish, install, operate, and maintain the lighting equipment, including lamp, luminaire, bracket attachment, control device, poles, and necessary wiring.

2. The Cooperative will maintain the lighting equipment, including lamp replacement, at no additional cost to the consumer. Lamp replacement and other service or maintenance activities shall be performed during regular business hours as soon as practical after notification that service has been interrupted. However, the consumer shall reimburse the Cooperative for the cost of any such maintenance work which is required because of vandalism or willful or negligent destruction.

3. The lighting equipment shall remain the property of the Cooperative, including poles installed when the consumer makes a contribution-in-aid of construction.

4. The poles for support of the luminaries are to be wood or other poles of the Cooperative's existing distribution system or extensions from the system.

5. The Cooperative reserves the right to specify the number and location of service points.

6. Underground wiring is available only in areas served by underground distribution or locations determined feasible by the Cooperative.

7. Lighting service shall be provided only at locations which are accessible to the Cooperative's equipment for servicing purposes. The consumer shall allow authorized representatives of the Cooperative to trim trees and shrubs as necessary for maintenance of the lighting equipment and for removal of the lighting equipment upon termination of service under this schedule.

8. The Cooperative reserves the right to require the execution of a multi-year contract prior to the installation of any lighting fixtures requiring one or more poles.

LATE PAYMENT CHARGE

If payment is not made within 15 days of the billing date, a late payment charge of 5% will be added.

Effective: For all bills rendered on or after November 1, 2026.
