COLQUITT ELECTRIC MEMBERSHIP CORPORATION

SMALL GENERAL SERVICE
SCHEDULE 2

AVAILABILITY

Available in all territory served by the Cooperative and subject to the Cooperative's Service Rules and Regulations.

APPLICABILITY

Applicable to consumers not classified as residential, farm, or home, including churches, public buildings, and commercial establishments whose highest annual non-coincidental demand does not exceed 50 kW, and who are not qualified to receive service under one of the Cooperative's other rate schedules. The capacity of individual motors served under this Schedule shall not exceed 7½ horsepower without consent from the Cooperative. This rate is not applicable to motors used for irrigation purposes.

TYPE OF SERVICE

Single-phase and multi phase, 60 hertz, at the following standard voltages: 120/240, 120/208, 277/480, 240/480, or other voltage as might be mutually agreeable.

MONTHLY RATE

Service Charge:		
Single-Phase	@	$22.00 per month
Multi-Phase	@	$34.00 per month
Energy Charge:		
First 500 kWh or less	@	11.82 cents per kWh
Over 500 kWh	@	10.82 cents per kWh

MINIMUM MONTHLY BILL

A. Single-Phase

The minimum monthly charge under the above rate shall be $22.00 where 15 kVA or less transformer capacity is required. For consumers requiring in excess of 15 kVA of transformer capacity, the above minimum charge will be increased $0.75 for each additional kVA, or fraction thereof, supplied by the Cooperative. Payment of a monthly minimum in excess of the $22.00 service charge shall entitle the consumer to use the number of kWh's corresponding to charges in accordance with the foregoing rate.

B. Single-Phase Solar

Per the interconnect agreement, the buy-back rate shall be the two year average avoided wholesale cost of energy calculated yearly to a maximum of $0.04 per kWh.

C. Multi-Phase

The minimum monthly charge under the above rate shall be $34 where 15 kVA or less transformer capacity is required. For consumers requiring in excess of 15 kVA of transformer capacity, the above charge will be increased $0.75 for each additional kVA, or fraction thereof, supplied by the Cooperative. Payment of a monthly minimum in excess of the $34 service charge shall entitle the consumer to use the number of kWh's corresponding to charges in accordance with the foregoing rate.

D. Multi-Phase Solar

Per the interconnect agreement, the buy-back rate shall be the two year average avoided wholesale cost of energy calculated yearly to a maximum of $0.04 per kWh.

WHOLESALE POWER COST ADJUSTMENT

The above rate shall be increased or decreased in accordance with the Cooperative's Wholesale Power Cost Adjustment Provision, Schedule WPCA-12.

UNMETERED SERVICE

Where the installation of metering equipment is impractical or uneconomical, monthly kWh may be estimated by the Cooperative and billed at the above monthly rate.

EXCESS FACILITIES CHARGE

Should the consumer's service requirements necessitate the construction of facilities in excess of those normally provided by the Cooperative, a monthly facilities charge will be billed to the consumer in addition to all other charges contained in this schedule.
